THE NEWS.

In the war news of the week there is nothing exciting. Things before Richmond are in statu quo. The only item of any moment in that department is the removal of Gen. Butler...

Sherman's movements still indicate a design on his part to accomplish the fall of the Southern Babylon. The indications are that the Union eagle will soon flutter over Charleston...

The English papers talk considerably about the difficulties on the Canada border, but do not show their teeth much. We do not think John Bull is on the fight just now.

With regard to the rumors of peace, we will not speak at length until they contain something more definite. We should had with gladness any peace by which the integrity of the Union and the supremacy of the legitimate national authorities would be re-established on a firm, permanent basis.

It is a custom with a certain class of legions in the Eastern cities to perambulate the streets with a grinning organ and a monkey.

When the copperheads concluded to establish an 'organ' in Salem for the purpose of grinding out issues suited to the taste of Jeff's admirers, they resolved not to be behind the customs of the craft.

It is a rather hopeful specimen in some respects, but only has two attributes susceptible of cultivation—low cunning and spitefulness. The poor thing raves most frantically in last Monday's issue...

These are the feelings inspired in the minds of all sensible men by the chattering of the specimen across the street.

A PIRATE'S PLOT.—Another plot to fit out a piratical craft in San Francisco has been discovered. It seems that one Michael Hayes had procured letters of marque from Jeff Davis...

Hayes is an old resident of San Francisco, a man of strong Southern feelings, and during the Presidential campaign, was president of a large McClellan organization.

SUNDAY SCHOOL BOOKS.—By an advertisement in another column it will be seen that Rev. G. H. Atkinson has established a depositary for Sunday school books in Portland.

It is not intended to import anything but the best and most approved Sunday school literature, the great importance of that branch of the moral and religious education of the young being constantly kept in view.

Mr. Atkinson has experience in the selection of such books, and Sunday schools desiring libraries would doubtless do well to patronize this establishment.

THE DIFFERENCE.—The white livered rebel across the street says we were once a lawyer, but never had a case. He once tried to be a third rate pettifogger, and succeeded in getting one case. He defended a criminal before a Justice, and at the request of the Justice wrote the commitment.

ROBBED.—On last Monday night the stores of F. W. Geer & Co. and G. A. Cone, Sen., at Battersville, were broken into and robbed.

MILITARY.—E. K. Miller has been elected Captain of the 'Salem Light Battery' of this place in the place of O. P. Crandall, resigned.

A DIVIDED HOUSEHOLD. A house divided against itself cannot stand. So say the Scriptures. Jeff's household is divided; hence it must fall.

But the last hope they had in that direction is now dispelled, and the evils they hoped to see visiting the North have come upon themselves. The army of Grant hovering at the gates of Richmond, and that of Sherman moving uncheked through the very center of the confederacy...

But we want to advise the soldiers against selling their bounty bonds at all. Lay them away for a rainy day. You can do nothing with the money now, but spend it, and that needlessly.

At any rate, we think it true that the power of Jeff Davis is the only hope of the rebellion. If he fails, it will fall.

LIBEL SUIT IN SAN FRANCISCO. The editor of the American Flag in San Francisco is being prosecuted for libel at the instigation of James Nesbit of the Bulletin.

Another case.—A man named Booth, who was a star performer among the 'democratic' gang who held forth last summer at Griswold's Theatre, and who said he came 'all the way from Illinois' to oppose the 'unconventional' acts of 'Habe Lincoln's administration'...

While in Salem he was very appropriately a contributor to the copperhead paper here. He was a 'high-toned gentleman,' and his absence may account in part for the weakness of the thing manifested of late.

More Troops.—We publish to-day the proclamation of the Governor calling for volunteers to fill up a cavalry regiment. It will be seen that it is in obedience to a requisition from Gen. McDowell.

DANGER ON THE COAST. CORVALLIS, Dec. 23, 1864. EN. STATESMAN: In my opinion, the national policy in relation to the question of a large influx of disloyal persons from the East might be the Pacific States under rebel rule.

It is a goodly lot, and it is not to be despised. It will find its way to the land of the living, and it will be a goodly lot to the victors. It is a goodly lot to the victors, and it is not to be despised.

MURDER AND ROBBERY. Daniel Delany, Sr., was murdered at his residence about seven miles South east of Salem, on last Monday evening.

A letter from Mobile to a citizen of New Orleans says fighting was going on in that vicinity. The letter says that the fighting was going on in that vicinity, and that the fighting was going on in that vicinity.
