THIS CELEBRATED INSTITUTE has enjoyed I on this const an uninterrupted success of Fourteen years, and has become one of the renowned Hospitals of the uge. What the celebrated Lock Hospitals is to London, and the no less renowned establishment of Ricord to Paris, this institute has become to the Pacific Coast. The thousands annually received and cared, place it in point of number of patients among the very first of the world, and the success of his treatment ranks it second to none.

PRIVATE DISKASES IN MALKS and IRREGULARTITES IN PEMALES are the great destroyers of bealth. They insiduously attack the system and gradually audermine and destroy it; they drive the bloom from the check, the lastre from the eye, the strength and vigor from the frame; they give to the world puny and discussed offspring, and poison, through successive, generations the care of man. The marks can be seen in Scrotals, Consumption, Cripples, the Idiotic, the Paralyric, the Insame, etc.

There is no more terrible scourge to the human race than those discusses arrising from the contamination of Veneral Poison. The mildest forms, by retreating to the blood, hold ever over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to ratterly destroy—all carthly hopes.

**MERCURY*, recognized as the sword fatal medical enomy to man, combining with the Veneral, doublee his dangers. Those who have been treated with that peruicious mineral poison are not cared; the disease has only assumed a new form.

Do not be Satisfied with Partial Cures, that have the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the fature with a viralence that will baffe the effects of medisine. WHEN PERFECT CURES can be obtained by consonalting a physician whom long practice and thorough investigation into the causes of DISEASE of the URINARY ORGANS enables to determine at once the nature of the disconant.

In Syphitia and its adjuncts; Gonorrow and its ac-companying diseases; all diseorders of the Bladder. Kidneys and prostrate; Seminal Weakness; Dis-cases of the Heart and Lungs; Dyspensia Indigestion; impotency; Incipient Consumption, and all diseases of the Urinary organs, in eather sex, one always waranted, Oil NO PAY REQUIRED at the PRI-VATE. Medical Institute,

NO. 540 WARRINGTON STREET, SAN FRANCISCO, CALIFORNIA Seminal Weakness or Spermatorrhea. Seminal Weakness or Spermatorrhea.

The young man who experiences that growing weakness in his museular and mental organization should stop to consider whence it arises. He will find in the weakness of the lack, trembling of the limbs, disordered digoestion, unaccountable failing of the powers of the mind, distasts for society, dread of impending trouble, forebodings at evil, sleeplessness, troubled and lissevious dreams accompanied by growing deafness, loss of museubar power, and numerous other symptoms of disorganization. The positive traces of that most terrible and destructive of all diseases, Seminal Weakness—Wasting away his powers, destroying his hope of life and mathood, and dringing him along the broken path of his existence toward a premature grave. To him who finds his life dribbling out in the discharge of the vital principal of existence in nocturnal and diurual emissions, the mere cossation of the causes of its appearance brings to assurance of redief.

has either been improperly trusted or entirely neglected. When it proves obstinate, THERE IS ALWAYS REASON TO FEAR THE CONSEQUEN
CES, as this shows a weak state of the lungs, and is
often the forerunner of consumption."—Buchanan's

Some of you can't, and we pity you. You have
tried every remedy but the one destined, by its intrinaic merit, to supersede all similar preparations. It is
not surprising you should be reluctant to try something else after the many experiments you have made
of tranky compounds foisted on the public as a certain

Do not forget the address. See below. Important to Females.

When a female is in trouble ora fflicted with disease, and requires midical or surgicil assistance, the enquiry should be. Where is there a physician who is fally competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Descore, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he had been a PRO-PENSOR OF OBSTETRICS and FEMALE DISEASES for twenty years, and is fully qualified to administer in all cases, both medically and surpleally, not in a superficial nanner, but in as therough a mainer as years of study and practice—both in hospitals and private families—can unake, is save them from the hands of the unqualified, uncurruptions, and designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and synapathise with and befriend them in trouble—one haw hose secrecy the stancet confidence can be piaced. THE CELLEBRATED FEMALEREMEDIES, conpounded from the private prescriptions of DR YOUNG, have now obtained a most extended popularity, and are correctly viewed to be the suffect and surver remedies for the complaints for which they are applied. The constantly accraing testimonials of their efficacy declare them to be pre-eminently superior in their action.
