The Oregon Statesman.

AGENCY.—Messrs. J. L. Parrish & Co., Portland, will receive and receipt for subscriptions to the *Statesman*.

AN AGRICULTURAL PAPER.

Shall Oregon have an agricultural paper? Will the farmers of the State support a paper devoted exclusively to the interests of agriculture and kindred subjects? We desire to hear from the farmers and others interested throughout the State, in reply to these questions, within the next two weeks. It is proposed to issue such a paper from the *Statesman* Job Office, about the first of October, so as to have it ready for distribution at the State Fair. The services of a competent man have been secured to take the editorial charge of the paper, if it is issued. The paper will be second to no other similar publication on the Pacific coast, and be well deserving of the support of every farmer in Oregon. The farmers of the State ought to have and support a paper devoted exclusively to their interests, as there can be now no doubt that Oregon will soon become the great granary of the Pacific. We ought not to leave our agricultural interests any longer in the care of a rival State. We do not, however, desire to argue the necessity and propriety of such an enterprise at this time. We greatly prefer that the farmers will argue the matter among themselves, and report to us immediately. Let the farmers of every neighborhood, upon seeing this notice, talk the matter over among themselves, and see if there is a general feeling in favor of supporting a good agricultural paper—one that will have no connection with politics or politicians, but be devoted entirely to the interests of soil culture in its widest signification. Farmers of Oregon, let us hear from you at once. Let as many as can write to us fully and freely, giving their advice and suggestions.

AN INTERESTING HISTORY.—As an inducement for subscriptions, the Astoria *Gazette* says it has engaged one of the earliest American settlers on the Oregon coast, an intelligent and entirely reliable person, to write a complete history of Oregon settlers and settlements, their influence upon each other and upon the natives, and foreign settlements among them, from about 1836 to 1850, giving a complete political, religious, and social history of the country during that period, which will be published in the *Gazette*, occupying from one to two columns in each number.

GONE EAST OVERLAND.—Senator Nesmith left here last Tuesday morning for Washington City, going overland by Idaho. He will not return to Oregon again until in May 1867, after the expiration of his term of senatorial services.

☞ The *Oregonian* says that an Oregon Steamship Company, with a capital of $500,000, is soon to be organized in Portland, for the purpose of putting a line of steamships on the route between San Francisco, Portland, and Victoria. This would be a move in the right direction.

☞ The Firemen filled the new cistern on Commercial street, with the use of their Engine, in about three hours and a quarter, notwithstanding the cistern leaked badly.

We learn that the new Fire Bell, costing about $650 when at its place, and weighing over one thousand pounds, is expected by the next steamer.

IN THE MESHES OF THE LAW.—Portland is troubled with vexatious law-suits about the title to real estate. A certain set of lot-holders were recently adjudged to pay about forty thousand dollars in greenbacks to some of the "Jarndyce" heirs; and now another suit is pending before Judge Wilson at chambers, who has removed his judicial existence to the "Emporium," for the purpose of settling a little dispute about another block and the improvements thereon, "with the appurtenances thereto belonging or in anywise appertaining."

THE DAILY MAIL.—The Oroville *Record* states that Mail Agent Gaskill has contracted with the California Stage Company to carry the mail from Lincoln to Portland for $1,250 per day, until the Post Office Department can make permanent arrangements.

FOUND.—The body of Miss Mary Berry, niece of Mr. Arrigoni of Portland, who was lost with the ill-fated Brother Jonathan, lately came ashore at Eureka, California, distant ninety miles from where the Jonathan went down. This is a remarkable case.

☞ The Corvallis *Gazette* says that some of the principal merchants of that town are ordering goods by the way of Yaquina Bay.

☞ A law suit has been commenced at Portland for the purpose of testing the validity of the act of Congress requiring stamps to be placed upon the original writ in commencing a suit.

☞ A telegraphic cable is to be laid across the Willamette river at Portland.

FIRE.—Ed. Statesman: The dwelling-house of Virgil U. Newsom, on Pudding river, in Marion county, was consumed by fire on or about the 10th inst. The owner was absent—out harvesting—and having no housekeeper at home, some miscreant, for plunder no doubt, fired the house to conceal the robbery. The loss was about one hundred dollars, over and above the house, which was not very costly. Perhaps some of Jeff's wandering rebels may have been prowling around, and seeing the place unguarded, robbed the house, and then fired it, guerrilla-like. OBSERVER.

DESERVES LYNCHING.—On Saturday it was found that the new cistern, which the firemen had labored so hard to fill on Friday, was about empty. Upon making examination, a hole about two inches in diameter is found in one corner of the excavation for sediment, in the bottom, through which the water has escaped. As this place was covered up during the filling it is impossible that the break could have been cut out by the falling water, and as it extends down entirely through the brick, the presumption is that some low-lived scoundrel made the hole there before any water went in. This presumption is increased by other facts developed since. The man that would do such an act of meanness deserves to be chained to the bottom of that cistern and then let the firemen pump in on him for about three hours.

TREASURE SHIPMENT.—The steamer Sierra Nevada recently carried away from Portland the sum of $600,000 in gold dust.

☞ The steam dredger, which has been built for the city of Portland at a cost of $15,000, is said to now work successfully.

☞ The parties who bet $500 that a horse could not pull a sack of 500 pounds of sand by 300 feet of rope, lost their money; the trial having come off at the Glenbrook course near San Francisco, and the animal pulling the load with ease.

☞ The Walla Walla paper says the work of rebuilding upon the ground burnt over by the late fire, is going on rapidly.

☞ Mrs. Lincoln has been invited by Queen Victoria to visit England, and the Navy Department has placed a steamer at her disposal, should she determine to cross the ocean.

☞ The constitution of Missouri excludes from the ballot-box all rebel soldiers, Knights of the Golden Circle, Sons of Liberty, O. A. K.s; forbids compensation for emancipated slaves, and provides for an efficient registration of voters.

☞ The U. S. Treasury Office at New York entered on the new fiscal year with gold and silver balances to the amount of $28,508,000. The other offices are believed to hold over $6,500,000 in addition, making $35,000,000 with which to begin the new year.

☞ The withdrawal of Gov. Low seems to have the most happy effect upon the Union party in California, and the hopes of the copperheads are frustrated.

RETURNING TO THE STATES.—Large numbers of emigrants that came into Idaho last year, are now returning to their old homes, since the end of the rebellion. The Boise *Statesman* of recent date says:

"A large train of emigrants, eastward bound, start this morning for the homes they left in the long ago. We don't like to see them go. Idaho can poorly afford to spare them from her population, and she rather needs more of the same sort."

A NEW MILITARY POST.—Gen. McDowell has ordered a permanent military post to be established at Summit Lake, in Nevada, near the south Oregon line, and troops to be sent at once for the chastisement of the Indian depredations on the road from Chico and Red Bluff to Idaho.

APPOINTMENTS BY THE M. E. CHURCH CONFERENCE.—The Conference of the M. E. Church, recently in session at Olympia, made appointments as follows for the ensuing year:

DR. HENRY.—In the list of those who perished by the wreck of the Brother Jonathan, we notice the name of Dr. A. G. Henry, Surveyor General of Washington Territory. The deceased was well known on the Pacific coast. Dr. Henry passed the last winter at Washington, and was on his way home when the casualty occurred that cost him his life. In early life he resided in Illinois, and there made the acquaintance of Abraham Lincoln; that acquaintance ripened into a friendship that continued uninterrupted until death. But few men exercised greater influences with the late President than Dr. A. G. Henry, and this influence was uniformly exerted in favor of the Pacific coast. Had President Lincoln lived, Dr. Henry would have been assigned to one of the Bureaus at Washington—that of Indian Affairs, in which he would have been vastly useful to our people. The death of the President destroyed the Dr's chances for preferment, and he was on his way back to resume his duties in Washington Territory, when death overtook him. As showing the relations that existed between our friend and the late President, we state the fact that during our stay at Washington last winter, we scarcely ever saw the President that he was not in company with Dr. Henry. On one occasion, when the President and Cabinet appeared in the Senate officially, the President walked down the long aisle of the Senate, arm in-arm with Dr. H., followed by Secretary Seward and the remaining members of the Cabinet. When seated, his position was next the President. On the day when the votes were counted in the House of Representatives, for President and Vice President of the United States, Mrs. Lincoln turned out in state; and was escorted to the seat in the Ambassador's Gallery by the unobtrusive gentleman who hailed from Washington Territory. On that occasion Mrs. L. was the "observed of all observers," and numerous were the inquiries as to the name and standing of the gentleman who acted as her escort. These things in themselves have but little importance, but now that an old friend "sleeps the sleep that knows no waking," we name them as showing the regard in which he was held by the President.—*Mountaineer.*

CALIFORNIA UNION STATE CONVENTION.—This Convention met at Sacramento on the 16th and terribly disappointed the Copperheads by a harmonious session. J. G. McCallum of El Dorado was made permanent Chairman.—On taking the chair, Mr. McCallom addressed the Convention at length. He contended for a continuance of organization in the Union party. He said those in favor of breaking up such organizations should and must be put down; the motto must be: "stand by the Union organization." The bolters of Sacramento and bankers of San Francisco were ruled out—the bolters not offering delegations from but a single county. S. W. Sanderson was nominated for Supreme Judge.

DEPLORABLE ACCIDENT.—A young man in the employ of Henry Marlin, owner of the Klickitat saw mill, named John E. Arant was accidentally shot and lived but a few hours after receiving his wound. Young Arant was engaged in saddling a horse in front of the house, when a son of Mr. Marlin passing thro' the door, a gun in his hands was accidentally discharged, ensuing his death as stated. The parents and other relatives of the deceased are living near Roseburg, Douglas county, Oregon. The accident occured on Sunday, the 13th inst. —*Umatilla Advertiser.*

CHASED BY A WOLF.—The *Mountaineer* says that on Friday last, the little son of T. M. Ward, living on Three Mile Creek, was chased by a wolf and made a narrow escape. When the animal got too close, the boy had coolness enough to make a fight, and so between running and fighting managed to reach home in safety. Parties went out afterwards, and judging by the size of the track left in the road, he must have been a huge monster.

THE LATE MURDER.—The Grand Jury, empanneled lately at Idaho City, have been discharged without finding a bill of indictment against Patterson for the murder of Pinkham. Eleven were for indictment and four against it, twelve being required to bring in a bill. It is understood that Judge McBride will immediately call another Grand Jury.

AN INDIAN TREATY.—From a late letter we learn that Mr. Huntington, Sup't of Indian Affairs, has succeeded in making a treaty with the Snake Chief Panlina; stipulating upon the part of the Government to pay the Indians $5000 per annum for the first five years, and $1200 per annum for fifteen years thereafter. The Indians agreeing to gather themselves to the Klamath Reservation, behave themselves, and turn their attention to farming instead of robbing emigrants.

SHOOTING AFFRAY AT ROSEBURG.—Last week two men, named respectively John Mynatt and Henry Coston, got into a fight at Roseburg, which resulted in shooting Mynatt by Coston; the pistol ball entering left side—not dangerous. Cause of the disturbance not known.

DEMOCRACY IN OHIO.—From late Ohio papers we learn that Gen. Sherman is likely to be the Democratic candidate for Governor. The old Douglas leaders have returned from the army, and are intent on kicking Vallandigham, and such as the Oregon Democracy generally, out of the party as a punishment for their past copperhead Secessionism.

☞ The Union State Convention of California adopted resolutions in favor of the maintenance of the Union party; in support of President Johnson; in favor of the Monroe doctrine; and in commemoration of the memory of President Lincoln and the brave fallen soldiers.

THE "BAR" QUESTION.—The "Fall fights" the between the *Mountaineer* and *Oregonian*, as to the "Bar" in the Willamette below the Emporium, has commenced again for the season.

☞ Rev. Thos. H. Pearne left Oregon on the 18th, for his new field of labor in Tennessee.

☞ Col. Curry has ordered that Fort Walla Walla be abandoned.

THE LATEST.

Special Dispatches to the Oregon Statesman.

Jacksonville, Aug. 19.—Additional bodies found:

No. 33—Mulatto girl, about 12 years old, 3 feet 10 inches high, striped calico dress, white pantelettes, stocking gaiters.

No. 34—Man, supposed to be a Kanaka, heavy built, 5 feet 8 inches high, heavy black whiskers.

No. 35—B. H. Stone.

No. 36—White man, 5 feet 7, about 36 years old, black hair and goatee, looks like a German, heavy built, very large, five or six false teeth in upper jaw, had American watch No. 18,493, gold locket key with black hair in it.

No. 37—White man, about 20 years old, 5 feet 4, thick heavy set, very small goatee, had black mixed pants, light cashmere vest, white shirt, good teeth.

No. 28—Negro, 5 feet 8 inches, heavy made, large whiskers.

No. 39—Negro, 5 feet 8, slender built.

No. 40—White man, 5 feet 11, dark brown hair, sandy beard, red checked shirt, black cashmere pants, purple coat.

No. 41—White man, 5 feet 11, well made, black hair, no whiskers, good teeth, grey cashmere pants, colored shirt, memoranda book containing names of William and John Donaldson.

Found at Gold Bluff, the body of James R. Richards; at Humboldt Bay, body of Miss Mary Berly; and at Chetco, Oregon, the body of B. Mathewson, had on his person a certificate of deposit for $21,000. Also at Gold Bluff, a white man, about 25 years old, 5 feet 8, high, round, full face, dark brown hair, weight about 150, had on light cross-ribbed pants, vest same color, white shirt, had on right hand plain gold ring marked A. J. C. M., horn ring on little finger set with silver. Body of woman, stout built, light brown hair, 5 feet 2, had gold ring marked on inside G. S., had on heavy shoes and mixed cotton hose. White man about 36, 5 feet—inches high, light complexion, dark hair, grey cashmere pants, plush vest, supposed to be one of the crew.

Six miles north of Trinidad, white man, 5 feet 8, weight about 150, about 40 years old, hair nearly black a little grey beard and mustache, high forehead with two scars over each eye, had new calf skin boots sewed, with half soles nailed on with copper tacks, size No. 6½, coarse plaid green and black custom made pants, white shirt with false collars, gold sleeve buttons, stripped ribbed undershirt, French wove, head large but not prominent.

Found near Trinidad, a woman, 25 to 30 years old, 5 ft. 4½ in. high, light auburn or brown hair, cut short, front teeth good, some back teeth gone, front teeth irregular, weight 150 to 175 lbs., rather fleshy and stout, double chin, high forehead, with small scar over right eye just below the hair, features round but not prominent; had on poplin dress, dark ground, with red and blue stripe, also patent elastic stockings, ears pierced, gold chain, ring, square top with 2 hearts entwined, plain gold wedding ring, English make, one ear-ring, black, enameled, with black tablet and wreaths in the center.

Also, a woman about 18 years old, 5 ft. 3 in. high, hair long, heavy, and brown, growing low upon the forehead, weight 110 to 112 lbs., slender, well formed neck, short shoulders, had on dark calico dress, white wove nubia or comforter, gold diamond ring on third finger, with letters J. W. C. inside, and one plain ring, balmoral gaiters, features not strongly marked.

The Indians report that the body of a white man was found afloat on a part of the wreck, below Klamath river, about three days ago, that he was alive, and had a good deal of money, that some of the Klamath Indians killed him, and robbed nearly all the trunks that went ashore at that place. Capt. Buckley has gone down with part of his command to investigate the matter. There may not be any truth about the killing, but the robbery is true.

Portland, Aug. 21.—The steamer Orizaba arrived this morning.

San Francisco, Aug. 16.—The United States steamer Suanee, Commander Paul Shirley, arrived to day from Philadelphia. The Suanee carries ten guns. It is generally understood in naval circles that the United States steam sloop of war Pensacola is on her way to the Pacific. At last accounts she had gone to Philadelphia to take in her engines and equip for the voyage. The Pensacola is of the same class as the Lancaster, and will probably be used as flagship upon her arrival. She has done good service during the recent rebellion, and among other conflicts was engaged in the bombardment of Forts Jackson and St. Philip at the taking of New Orleans, and is said to have lost more in that engagement than any ship in the squadron. She then carried twenty-four guns, mostly 80-pounders. She is classed corvette.

Oroville, Aug. 16.—The stage between Laporte and Oroville was stopped by five robbers about daybreak this morning, a short distance this side of Laporte. The robers had built a brracade of fence rails across the road. They were armed with shot guns and demanded the Treasure Box of Wheeler & Co.'s Express. After breaking open and taking out the treasure they returned the box and left for the woods. The stage driver thinks they got little treasure as the box was light.

Salt Lake City, Aug. 16, 1 o'clock, P. M.—The repair party are now at the break between Sweetwater Station and Platte Bridge. They have an operater along who came into circuit this morning with the instrument at six o'clock. He reports the party fourteen miles west of Platte Bridge and they worked all night at the break lately made. Considerable wire has been carried off. The Indians were in sight watching them, and fears are entertained that they will be attacked.

CROPS AND MARKETS.—The yield of the new crop of wheat is being tested by threshing; and in conversation with farmers during the past week we learn that it is turning out much better than expected. Owing to the low stage of water in the river now, it is not probable that much of the new crop will find its way into market for considerable time. In fact there will not be such a demand for it, as during the same period of last year. California has a very good crop of wheat this year, and will not call on Oregon for much, except in the way of speculative re-shipment to China and Australia. Walla Walla, Grande Ronde, Powder River and other valleys east of the Cascades have made an advance on the production of last year, and will doubtless aid Oregon in supplying the mines. And while there will no doubt be very remunerative prices for the present crop of wheat, we ought not to expect the handsome round prices of last year. The following are Portland quotations for Saturday:

Flour—Imperial $10 ℔ bbl; Standard Mills $10 ℔ bbl; Magnolia $9; Brooklyn Mills $8 50, from new wheat; other brands range from $8 50 to $9 according to quality.

Grain—Wheat $1 25@$1 30 ℔ bu.; Oats 60@70c. ℔ bushel.

Bacon and Ham is quoted at 24@26 cents ℔ lb.—There has been some considerable activity in the market, and among other transactions we note the shipment of a quantity to San Francisco per steamship on Wednesday, at outside figures in round lots. The demand for the upper country is light. Buyers are offering 24@25 cents for lots from first demands.

Butter—Best brands fresh Oregon 35c ℔ lb; ordinary 25c to 30c.

Bacon—Sides 26c; hams 24c.

Beans—Small white 3c; White Pea 4c; Red 3c.

Mill Feed—Bran and Shorts $20@$25 ℔ ton; Middlings $45 ℔ ton.

Liquors—Starr's and common Whiskies $2 25 ℔ gall.; Monongahela $2@$4 ℔ gallon.

Lard—10lb cans at 26c; in bulk 25c. None of any amount in market.

Salt—Liverpool fine ℔ ton $35; Carmen Island $25@$30 ℔ ton.

[From our Regular Correspondent.]

FROM THE SANTIAM MINES.

ED. STATESMAN: I have but little to communicate at this time. No new discoveries, but the leads on which work is being done continue to improve and strengthen the confidence in their great wealth. The Gold Flat Company have their prospect hole now over forty feet in depth, but have not "struck ile" yet. The pre-emptors' notices continue to increase on the fir trees in Quartzville. I notice a claim stuck up pre-empting a town lot for the editor of the *Statesman*. Hope he will come up and work out the fifty dollars worth of labor necessary to hold that lot. It contains fir timber enough to make a corduroy half way to Salem. [A very valuable lot.—ED STATESMAN.] The new wagon road will be finished to Quartzville within ten days, so that carriages can come here from the Capital. The mill will soon be finished. New prospectors continue to arrive almost daily. Yours, RED ROCK.

ALLCOCK'S POROUS PLASTER—PAIN RELIEVING AND STRENGTHENING.—The history of these plasters would occupy more space than can be spared within the limits of this advertisement. Suffice it to say, that the most eminent chemists and physicians of the United States and Europe were consulted as to their composition. They are made porous, so that the evaporation of the perspiration can go on sufficiently where the plaster is applied, without, as with other plasters, causing the accumulation of acrid fluid, which corrodes the skin and occasions many unpleasant sensations not necessary for the cure or alleviation of affections for which a plaster is usually applied. India rubber, myrrh, and other choice gums and essences of the vegetable kingdom, are the material ingredients of these celebrated plasters. While they are possessed of all the soothing and warming qualities of almost every other plaster of the United States Dispensatory, they are without many of their inconveniences. In the language of one who has experienced much benefit from their application in a chronic disease of the kidney—"They stick closer than a brother, and do not run like a false friend." For weakness of the back, pains in the side, stomach or chest, and for the alleviation of the pain attending rheumatism, they are without an equal.

The Agent in San Francisco, WILLIAM F. BRANDRETH, Office at Messrs. Crane & Brigham's, will take great pleasure in forwarding the formula of these celebrated plasters to all Physicians who may desire to see it.

The traitor *Examiner* says, in summing up the cause of the war, "the impartial chronicler of events will not fail to fix the responsibility at the door of the so-called Union party." Then it will be when the world is prepared to forget the evidence of truth, and to overlook the treason of Southern rebels and Northern Democrats, black and vile as that of Judas Iscariot. It will be when treason has no name and assassination no description in human language.—*Flag.*

Two Farms for Sale.

THE undersigned offers for sale his two farms.—One is situated about half a mile from St. Louis, and contains a good house, barn, and orchard, all under fence. The other farm is one-half mile from Fairfield. Unless the farms are sold by the 15th of September next, they will be rented for three years.

On the 15th of September, I will sell on the farm near St. Louis, to the highest bidder, the following STOCK and other property, to wit: 3 span of work horses, 4 colts, 30 head of cattle, 180 head of sheep, 40 head of hogs, 2 wagons, 1 reaping and threshing machine, 30 tons of hay, and a quantity of household furniture. Horsemen, Now is Your Time.

I EXPECT to exhibit COBERG and his family of Colts at the Oregon State Fair, Oct. 3d, 4th, 5th, and 6th, at Salem.

I challenge the Coast to meet me and produce a family or a well-authenticated history of a family in America that will surpass them for size, form, style, coat, action, and their adaptation to general use, except sporting purposes.

I will have some yearling colts for sale.

☞ Persons wishing to secure the services of COBERG in Northern Oregon for the season of '66, can do so by seeing me on my way to or at the Fair.

I deem it unnecessary to give an extended description here, but would invite persons to call and see for themselves. I would say that I have reliable information that where the COBERG stock has been in use in Illinois for 18 years at least, they give satisfaction and bring more money than any other stock of horses. Brandreth's
VEGETABLE UNIVERSAL PILLS.

IT is generally known that my Grandfather was the original inventor of these remarkable pills.

He was a scientific man, and a medical practitioner of the Old School. But becoming alarmed at the mortality that attended the Bleeding and Mineral Practice, he turned his attention to the study of nature and the philosophy of disease, as also to the natural remedial agents which he found to exist exclusively in the Vegetable Kingdom. In his researches and investigations, he became fully satisfied that the life was in the blood; that by whatever name diseases were distinguished, impurity of the blood was the source of all—a simple and truthful doctrine, which, in reducing all diseases to a unit, necessarily established the fact that all were to be treated on the same general principles, viz: by purgation.

Now the grand difficulty consisted in devising a vegetable compound that would invigorate, purify, and cleanse the blood, correct and regulate all the different secretions, and by purgation discharge the whole mass of morbid matter from the body, without reducing the strength. After thirty years of close application, he considered his object fully accomplished in the production of these pills, which have now been before the public One Hundred and Fourteen Years, and it is now (1865) nearly 31 years since Dr. Brandreth's Vegetable Universal Life Preserving Pills were first presented to the American public—during which time their superior excellence and virtues have been extensively proclaimed by papers and pamphlets, and a rapid yearly increase of the sale of them effected.

To know what will save life, to know what will restore health, is a knowledge not to be hidden. I, therefore, as a man desiring to do my duty faithfully, have dotted down some of my thirty-five years' experience with Brandreth's Pills, which are an effectual assistant of nature, and cause the expulsion of acrimonious humors—the occasion of every sickness. Let us admit that corrupt humors prevent the free circulation of the blood, that Brandreth's Pills take out these humors, giving health for pain, and strength for weakness.

No man is sick save when the principle of corruption gets the ascendency; Brandreth's Pills aid the Life Principle to regain the empire by removing the corrupt humors from the body. Many a time I have seen life apparently at the last ebb, when these Pills were given, and in a few hours the danger was past, and health's flood tide gave the patient renewed life and vigor. Many are the fathers, mothers, sons, and daughters, thus saved.

These celebrated Pills are composed wholly of medicinal herbs, and do not contain any mercury or other mineral, being perfectly harmless to the most tender age or weakest frame; yet sure to search out the cause of sickness, and restore the health if taken according to the directions.

Let no one imagine they are too weak to bear the effect of these Pills, which put no weakness into the frame, but draws weakness out. A few doses will beget confidence, and then the beauties of purgation will gradually become unfolded to our view, which, enforced with Brandreth's Vegetable Universal Pills, is able to cure every disease where the organs are sound, and greatly increase the average of human life.

I have now used on my own person, and prepared and administered, Brandreth's Pills for thirty-five years. I believe they are the best purgative in the world; and with this medical quality they have also a tonic effect. And as I am of the firm opinion that inflammation and fevers are caused by corrupted blood not being timely evacuated, because it regurgitates, so to speak, over the whole body, and thus corrupts the sound blood that should nourish all the members, and actually destroys and paralyses members or organs that are unsound; and as I know that these Pills have a direct effect to remove all corrupt blood and acrimonious humors from the body—in fact, all humors below the vital standard of health; so I should be guilty of a great sin, did I not do all in my power to propagate the use of a medicine which is possessed of properties so calculated to save and increase the average of human life.

WISTAR'S BALSAM
—OF—
WILD CHERRY
HAS BEEN USED FOR NEARLY
HALF A CENTURY,
WITH THE MOST ASTONISHING SUCCESS IN CURING
Coughs, Colds, Hoarseness, Sore Throat Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma, and every affection of
THROAT, LUNGS, and CHEST,
INCLUDING EVEN
CONSUMPTION.

There is scarcely one individual in the community who wholly escapes, during a season, from some one, however slightly developed, of the above symptoms—a neglect of which might lead to the last named and most to be dreaded disease in the whole catalogue.—The power of the "medicinal gum" of the Wild Cherry Tree over this class of complaints is well known; so great is the good it has performed, and so great the popularity it has acquired.

In this preparation, besides the virtues of the Cherry, there are commingled with it other ingredients of like value, thus increasing its value ten fold, and forming a Remedy whose power to soothe, to heal, to relieve, and to cure disease, exists in no other medicine yet discovered.

The unequaled success that has attended the application of this medicine in all cases of

PULMONARY COMPLAINTS

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact under their own signatures. We have space only for the names of a few of these:—
