PRIVATE DISEASES IN MALES and IBREGULARITIES IN FEMALES are the great destroyers of health. Seminal Weakness or Spermatorrhea. Seminal Weakness or Spermatorrhæa.

The young man who experiences that growing weakness in his maseniar and mental organization should stop to consider whence it arises. He will find in the weakness of the lack, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodtings af evil, skeplessness, troubled and inscivious dreams accompanied by growing deafness, loss of museniar power, and numerous other symptoms of disorganization. The positive traces of that most terrible and destructive of all diseases, Seminal Weakness—Wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature grave. To him who finds his life dribbling out in the discharge of the vinal principal of existence in nocturnal and diurnal emissions, the more cessation of the causes of its appearance brings no assarance of relief.

Marriage, that holy office, the sufeguard and hope of manhood, brings to such a one no hope of cure, but adds to his unisery in the knowledge that the one who looks to him for so much of her happiness, is a victim of his evil, and an innocent companion of his pumblement. He adds to his misery and disorder muth hope leaves him. There is no rescu except in proper and skillful treatment. Compile, then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the distance. Those who have become the victims of solitary vices, that dreadful, fascinating, and destructive habit, which fills thousands of sick rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult without a moment's delay, one who will sympathize with their sufferings. Where is there a physician who is fully competent to administer relief, and whose respectable should be. Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor, understanding how imporatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afficted to the fact that he had been a PRO-FESSOR OF OBSTATICS and FEMALE DISEASES for twenty years, and is fully qualified to administer in all cases, both medicully and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulnous, and designing. all that it is recommended to be by its proprietor.
L. WESTACOTT.

Mariox County, Onroon, Sept. 27, 1865.

The undersigned, resident of Marion county, Oregon, takes pleasure in stating for the benefit of the afflicted, that, in the winter of 1863-4, I was suffering from a maffection of the lungs and kidneys, resulting from a violent cold. I seemed to be going into rapid Consumption, and had begun to believe my death was not very far distant, and all who saw me were impressed with the same conviction. After trying various remedies without any success, I was induced to try Mrs. Stipp's Thoracic Balsan, and to it I am fully persuaded that I owe my life and present good health. Under these circumstances. I feel that I am but performing a duty to humanity when I recommend all similarly afflicted to try this excellent medicine.

WILLIAM TATLOS.

Having received great benefit from the use of "Mrs. Stipp's Thoracic Balsam," and being convinced that its use would be beneficial to thousands of persons suffering without hope of reitief, it is with pleasure that I make the following statement: In the fall of 1863, I took a severe cold, which settled in my huge and thront, emissing a dry, hacking cough, fever, head ache, and pain in the breast and under the shoulder, in severity, until my life seemed to be in real danger. About six weeks ago, I commenced taking Mrs Stipp's Thoracic Balsam, and in this short space of time I have regained almost my usual health and strength, have a good appetite, and am free from my cough and all its attending miseries.
