TO THE APPLICTED.

DR. W. K. Dehrry returns his sincere thanks to his numerous patients for their patronage, and would take the opportunity to remind them that he continues to commit at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organa, and all private diseases, vir. Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequence of selfabase, Gonorrhom. Gleet, Strictures, Nocturnal and Diarnal emissions, Sexual Disability. Diceases of the Back and Loins, Indiamnation of the Bladder and Kidneys, etc., and be hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States he is enabled to apply the most efficient and successful remedies against discussed of likinds. He uses no mercury, charges moderate, treats his patients in a correct and tonorable way, and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. Dentryt would call attention to the following cortificates from two of his patients, who having fully received their benith, destire to make known their romeilial agent. It will be seen their statements are fully authenticated by a Notary Public. The wellars of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

Dr. Dougary—Dear Sir : I feel my health so fully restored, that in common gratifude, I believe I should restored the properties of the common gratifude, I believe I should restored the properties of the cases can be cited during a practice of more than fifteen years.

In the sound, the prise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

Dr. Dourgay-Dear Sir: I feel my health so fully restored, that in common gratitude. I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such postitive assumance of success were necessarily the best, (some of whom have a harge number of titles,) I place ed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cared, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doberty for my address and call and see me. I keep store in this city.) My experience may save you many dollars. I would also add that in the early stage of my disease I used a harge amount of the preparations advertised as an infallible care for Gonorrhosa, Gleet, etc., but never derived any benefit from them.

I am Doctor, very truly yours, L.— H.— San Francisco, June 16, 1864.

Seminal Wenkness .-- A Sworn-to certificate of a most remarkable case of Spermatorrhoea.

most remarkable case of Spermatorrhoea.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induce me to make this statement. For many years I have been afficied with that fearful doeses known as "Spermatorrhoea." or Semmal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year, however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming extent, which was soon followed by the most alarming extent, which was soon followed by the most alarming extent, which was soon followed by the most alarming extent, which was soon followed by the most alarming extent, which was soon followed by the most alarming extent, which was followed by the most alarming extent, which was sufficient for the back and limbs, pain in the bend, dimness of vision, nervousness, and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forchodings and self-distrout, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he rhurged nothing for consolitation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable. I determined to try him, at though I di not expect much benefit from his treatment. On the 5th of December bast I placed myself under his case; in one week I found myself very much improved, and, now, after five weeks treatment, I feel myself thoroughly cared of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly situated, I subscribe myself

Where are you going so fast, did man?
Where are you going so fast?
There's a valley to cross and a river to ford.
There's a clasp of the band and a parting word,
And a tremulous sigh for the past, old man—
The beautiful, vanished past.

The road has been rugged and rough, old man,
To your feet it's rugged and rough;
But you see a dear being with gentle eyes.
Who shared in your labor and sacrifice;
Ah! that has been sunshine enough, old man;
For you and me soushine enough.

How long since you passed o'er the hill, old man?
Of life o'er the top of the hill?
Were there beamiful valleys on t'other side?
Were there Bowers and trees with their branches wid.
To shut out the beat of the sun, old man—
The heat of the fervid ann?

And how did you cross the waves, old man,
Of sorrow—the fearful waves!
Did you lay your treasures by, one by one,
With an aching heart and "God's will be done,"
Under the wayside dust, old man,
In the graves "meath the wayside dust! There is sorrow and labor for all, old man,
Alas! there is sorrow for all;
And you, peradventure, have bad your share.

ANOTHER MURBER AT SALT LAKE. The Daily Vedette of the 24th Oct. gives the

following account of another most atrocious murder, added to the long list of crimes charged to account of the Mormons:

Yesterday morning the city was again startled on the announcement that another horrid, bloody assessination and most brotal murder had been committed in one of the most public streets the night before. Dr. John King Robinson, a prominent and most estimable citizen, was sign within a half block of his residence. three doors from Independence Hall.

The facts, as nearly as we have been able to

gather them from trustworthy sources, are briefly these: On Monday night, about half-past eleven o'clock, Dr. Robinson was roused from his slumbers by a man who came to his resi-dence and informed him that John Jones (an acquaintance of the Doctor). living on the State Reau, but broken his leg and required surgical aid immediately, as, said the unknown caller, "his leg's all smasshed to thouder." The doctors's young wife objected to his going out so late, as threats had been made against his life, in anonymous letters, in consequence of the fact that he had a short time since instituted a suit against the city for the recovery of the Warm Sulphur Springs, claimed by both the doctor and the city. He, however, hastily threw on his clothing, and told the man to ge shead and he would shortly see Mr. Jones. The man replied no, he would wait for and accompany him.—Mrs. Robinson, however, was unable to prevail on her husband to shirk the call of humanity, and the mordefer and his victim passed out into the night.

A very few minutes after a shot was heard, but Mrs. Robinson and the inunates did not suspect what it meant. Mr. Chas. King, J. Wimmer and Col. Kahn were sitting in their room conversing, their house being on the block next east of that on which Dr. R. resided. At the hour named they heard a piercing, will shrick, and immediately afterwards heard a pistol shot. Starting to their feet, they raised the window, and the moon being nearly at its full, and the night almost as bright as day, they saw three men run up the street from the di-ection of the under the proposed a successful resistance to the acquaintance of the Doctor), living on the State time almost driven across the horder, re-Read, and broken his leg and required surgical and strength and daring; and as events he aid immediately, as, said the unknown caller,

All the conditions of the enterprise turned out more or less unfavorably to the design of Napoleon III., although the Prince whom he had selected for the new throne proved by common consent, a sovereign of excellent intent, and more than average capacity. But a sovereign, however wise or however worthy, most have some support for his government, especially in a disorganized country, and yet, as events showed, there wis no kind of support to be contributed from without. It was thought, and we shared the impression, and if there were such things as a public opinion in Mixien they would be attracted to a Prince who affered, at any rate, government instead of snarchy, and law instead of disorder. But either there were not such things or they were repelled by a foreign dynasty, and Maximilian could reckon for active support on the French garrison only. It happened, too, that the French people though so addicted to military enterprise in general, conceived a strong aversion to this expedition. The troops themselves distilted the service, and their countrymen at home hardly wished for their success if it was to involve the continuance of the unpopular protectorate. Then the United States, though long distracted by their own war, regarded the adventure from the outset with a notorious jealousy, which was sure to pass ultimately into more active opposition, and which presently took the form of menacing protests. The American Government, in fact, forbade at last the despatch of tresh European forces to American territory, though so unpromising as well as unpopular had the enterprise gradually become that the views taken at Washington did but coincide with the resolutions already adopted in Paris. In the meantime the small French garrison, it resistible in a fair field, but powerless in so prodigious an extent of territory, could do little more than protect the capital and the high-roads of the coart; the old factiou

We refrain from commonting forther at this time, in the hope, feeble though it be, that the investigation to day may develope facts, rather than suspicions. The inquiry is on every toungue, if the civil authorities cannot give protection to our citizens, and assassinating of our heat citizens cannot be punished?—will the Government stand idle until our streets run with blood? A heavy load of responsibility rests somewhere for these repeated outrages, and this crowning act of iniquity has stirred the sensibilities and horror of the Gentile commonty.
