# PACKERS HIT HARD

## Loss in Business is Estimated at **\$**150,000,000.

## ENGLAND DISCARDS OUR GOODS

Armour Says It Will Be a Long Time Before European Prejudice Can Be Allayed.

Kaness City, June 7 .- The Journal

will say: It is estimated that the business done by the packing houses located here will suffer to the extent of \$10,000,000 as a result of the agitation in connection with the president's crusade against canned meats. Representatives of the various plants seen yesterday agreed with the estimate in the telegraphic dispatches of yesterday that the business of the whole country would show a loss of at least \$150,000,000. Charles

W. Armour said yesterday: "All this agitation is going to do an immense amount of damage and in quarters where it will be the hardest to overcome the prejudice aroused. It will be a long time before the prejudice against American meats in England is allayed and it will be still longer on the continent. The packing industries of the country have enough obstacles to contend with without increasing the number unjustly or mischievously.

"Everybody knows how hard it is to control the meat trade in Germany and France. The world is allied commercially against the United States. It is only by dint of sheer superiority of products, better methods and American strenuosity that America holds her own and is conquering the markets of the world. It is not from any commercial

hospitality. \$150,000,000 loss to the packers in the whole country is exaggerated. That is only a strinkage of about 10 per cent on the total volume of business done, which I think easily \$1,500,000,000 in all branches of the trade. We have complaints from England that the can-ned meat trade is decreasing."
