**BETTER TEACHING OF THREE Rs.**

Another interesting test of the present-day methods of public school education as compared with the known results of teaching more than half a century ago, has recently been made at Cleveland, Ohio. According to the School Journal, lists of words and arithmetic examples contained in the examination papers of the Springfield (Mass.) high school in 1846, which were submitted to the ninth grade of the Springfield school in 1895, have now been tried in one Cleveland school. Following is the list of words: Accidental, accessible, baptism, biography, characteristic, deceitfully, descendant, eccentric, evanescent, ferocious, feignedly, ghostliness, gnawed, helms, hysteria, insensibility, inconceivable, inconvenience, inefficient, irresistible. The comparative results show that the pupils of 1846 answered 49.6 per cent of the words correctly, those of 1895 51.2 per cent, while the Cleveland pupils in this year of grace spelled 61.2 per cent correctly. In the case of the arithmetic papers, the percentage of correct replies for 1846 was 49.6, in Springfield last year it was 52.1, and in Cleveland school at the recent test was 57.5.

President Theodore Roosevelt, Wm. H. Moody, Secretary of the Navy; Gov. Odell, of New York; Baron Rothschild, Mr. Smith, of the DeBears Diamond Mines, South Africa; Hon. Cornelius N. Bliss, Ex-Secretary of Interior; Hon. C. S. Mellen, President N. Y. & H. R. Ry.; Mrs. J. J. Hill, Louis Hill and J. N. Hill, of the Great Northern Ry.; Hon. Howard Elliott, President N. P.
