County Superintendents and State Examiners Favored a Change in the Grammars.

SALEM, Or., Jan. 8.-The canvass of the otes of the several county superintendents and state examiners for a series of text-books to be used in the public schools of Oregon for a period of six years, under the law, exhibits the following results:

No text-book has received a majority of he votes cast on the following topics: Orthography, spelling blanks, drawing, physical geography, rhetoric, composition and English literature. There has been no change in the fol-

owing text-books now in use, and they have been readopted for use in all of the public schools of this state:

Swinton's new word analysis, Burnes' new national readers, Spencerian system and copy books, Fish's arithmetics Nos. 1 and 2, Brooks' mental arithmetic, Monteith's elementary and comprehensive geographies, Emith's series of primary text-books in physiology and hygiene, Steel's physiology and hygiene for high schools and advanced schools, Barnes' primary and brief history of the United States, Loomis' series of vocal music, Harnes' general history, Monteith's popular science, Robinson's algebra and geo-metry, Bryant & Stratton's system of bookkeeping. Steel's chemistry, botany, text-books that have been changed

Maxwell's first book of languages, the introduction to the English grammar and the advanced English grammar has been adopted instead of Barnes' language les sons. Sill's English grammar and Clark's normal grammar. Peterman's civil gov-ernment, Oregon edition, has been adopted

instead of Young's class-book.

The additional books adopted, that may be used, all grades, in the public schools, are as follows: National number tablets, Song Wave,

Gow's morals and manners, Kidd's ele-mentary and vocal culture, Johonnot's natural history and historical series for supplementary reading for primary and For advanced and high schools the fol-

CATHOLICS EXCITED. Rev. Brosseau Denounced by Rector

A. Brongeest. CASCADE LOCKS, Or., Jan. 8.-Much excitement has been caused in local Catholic circles by a circular issued by Rector A. Brongeest, of The Dalles, denouncing Rev. Brosseau, of Mount Tabor. The elr-cular accuses Rev. Brosseau of lying to the archbishop, and of being too greedy for money, and getting it by a kirmess, fancydress ball, or "disgraceful fandango"; that he even went to the extent of calling forth "from their safe retreat holy virgins, cloistered nuns, by their rules with-drawn from the baneful influences of winking eyes, that the beams of God's ountenance might rest upon them with-out alloy, and these he placed on exhiion on the profane and money-jingling stage of the world, by their exhibition to move people to greater liberality."

There was great rejoleing among the d men employed on government work when notices were posted announcing that the contractors had reduced the price of board from \$4.50 to \$2.25 per week during the temporary shut-down

Citizens' Ticket Was Elected, With One Exception.

MEDFORD, Or., Jan. 8.-Medford's city ection was held today. A total of 315 votes was cast, but this is not considered the full vote of the city, as the weather was quite stormy and a number did no come out to vote. George H. Haskins was re-elected mayor, as was also B. S. Webb, recorder. The entire citizens' ticket was elected, with the exception of C. J. Howard, for councilman in the south ward. The city officers, as elected, are: Mayor, George H. Haskins; recorder B. S. Webb; treasurer, Charles Strong; marshal, William Churchman.

The weather during the past 24 hours has been quite windy and cold and some snow has fallen on the surrounding hills. COUNTERFEITING CHARGED.

Three More Arrests Made in "Doc

Davenport's District. LEBANON, Or., Jan. 8.—Joe Smith and D. D. Shaw arrested Andy and Luke Jennings at Waterloo today. They also had a warrant for Frank Jennings, but Frank heard of it and come here and gave him self up. The men are arrested on a charge of counterfeiting \$5 and \$19 gold pieces. Joe Smith and D. D. Shaw are the men that brought "Doc" Davenport in. They have telegraphed the United States marshal and will hold the Jennings boys at this place until they hear from him. It is said that there are several other gangs of counterfeiters around here and that other arrests will follow.

The Zechow Murder Mystery. VANCOUVER, B. C., Jan. 8 .- The Zehow murder mystery daily becomes deeper, despite the fact that the police are gaining more information daily. date that Zechow stayed at the Palace restaurant, Westminster, was October 9, according to the register, the night before the opening of the exhibition. As a copy of the Seattle Telegraph of November 7 was found on the body, the deceased must have paid the city another visit about a month later. It is stated that among the papers on his body is one con-taining an offer to Zechow for the payment of \$20,000, if he would relinquish all claims to the estate. This strengthens the theory of the murder to put him out of the way, as it seems that Zechow refused

the offer. The News From Chehalis. CHEHALIS, Jan. 8.-Postmaster Lillpop states that the location of the postoffice will be changed as soon as the necessary arrangements can be made. Permission to do so has already been secured from the government, and the removal will be made between now and the first of the month. A room in the Improvement block, on Market street, has been secured.

McClintoc & Loomis have completed a ical with G. Rosenthal, of Olympia, whereby they obtain a five years' lease of that gentleman's coal property, adjoining the town. They will go to work immediately to develop the property, and within a few weeks the coal supply of Chehalis will all be mined within half a mile of the business center.

PITTSBURG, Jan. 8 .- The floods in the Allegheny and Monongahela rivers have reached their limit, and the worst is over. The highest marks were recorded about 10 o'clock this morning, and soon after the water began slowly to recede. The great mass of ice which filled both rivers during the past 24 hours is slowly disappearing. Locally the loss will be comparatively light. The general loss on both rivers is estimated at about \$150,000. This includes wrecked coal-barges, flooded mills and mines, and the damage to exposed river

BELLAIRE, O., Jan. 8 .- The river at this point is 31 feet and rising rapidly. It is believed the river will leave its banks tonight. All the lowlands are flooded. The river is full of ice. The steamer Philips and a large wharfboat have been crushed by the ice. Great fears of loss of property are entertained here.

So Far the Snowplows Have Kept the Roads Open.

SAN FRANCISCO, Jan. 8.—At the offices of the Southern Pacific Company this afernoon it was learned that trains were unning as usual on all parts of the sys-em, though snow had been falling beavily in the mountains all day. Should the nowfall continue during the night and omorrow, which is probable, some temorary disturbance of traffic may result on the Central Pacific or the California & Oregon line. The officials, however, ex-press confidence in the ability of the forces at command to keep both roads open. The rotary snowplows are doing good service during the present storm.

DUNSMUIR, Cal., Jan. 8.-The snot re has changed to a light rain, but it s still snowing near the summit. The ro tary plow out its way through 35 feet of snow and opened the road so that trains are nearly on time. The snow caved in on the rotary and buried it, but it was pulled out and started in again. A gang of Chi-namen have been sent up to assist in the snow work, and take the place of a gang of white cigarette fiends, who proved uneliable and unfit for the work.

A Disgraced Heiress. NEW YORK, Jan. 8.—The World prints the following from Boston. Miss Isabella Bigelow, who possesses in her own right over \$75,000, today accompanied her col-ored coachman, Charles W. Harris, to the Brookline police court, where he was charged with improper relations with her. He was held in \$2000 boil. Miss Bigelow is about 23 years old, and belongs to one of the leading families in Worcester. She was finely educated, and at 18 entered society, and for two years was a leading favorite. On the death of her father, who was a millionaire, she came into her fortune and immediately left her home, taking Harris with her. She was induced to leave Brookline some time ago, after the birth of a quadroon child. She has just returned, and the arrest was made in order to get her to leave town again.

SANTA ROSA, Cal., Jan. 8.—Ben Buck ley, the well-known "wild man" of So-noma county, who for the last 20 years has been living in the open air on a ranch in Blucher valley, with only a few old grain bags to protect him from the ele-ments, appeared on the streets of this city today, and declared his intention of proceeding to Sacramento to take a hand in the senatorial struggle. He believes he is president of the United States, and says unless a good man be elected to the sen-ate by the legislature he will remove the senator-elect at once. He left for the capital city this morning, taking his grain bags and other peculiar effects with him.

Wreckage of the Montserrat. PORT TOWNSEND, Jan. 8.-A stanchios belonging to the collier Montserrat was found last Saturday 19 miles southwest of Cape Fiattery by the tug Pioneer, and was taken to Port Angeles, where it was identified by several shipping men as be-longing to that ill-fated vessel. The stanchion is about six feet long, five inches in diameter, painted black at both ends and white in the middle, and bore evidence of having been forcibly wrenched from the main dock, where it was used

to support the skids which supported the lifeboat. Two or three ship captains, who are familiar with the Montserrat, positively identify the timber as coming from the lost collier. The strangest part of the incident is how the standhlon came to be found at this late day, when it is generally conceded that the vessel foundered about December 3, since which time strong southerly gales and currents should, it seems, have carried it up the Vancouver shore.

ANDREW JACKSON DAY. Prominent Democrats Meet at a

Philadelphia Banquet. PHILADELPHIA, Pa., Jan. 8-With the shadow of a great party defeat over-hanging them, the members of the Young Men's Democratic Association held their 15th annual banquet at Saint George's hall tonight, in honor of Jackson's de-feat over the British in New Orleans in the war of 1812. Every democratic politi-cian of any note in the city was present, and the party leaders from nearly every county in the state traveled to Philadel-phia to testify by their presence that they were as loyal in defeat as in victory. Vice-President Stevenson was to have been present and respond to a toast, but owing to the serious illness of his daugh-ter, he could not attend. Letters of regret were also received from President Cleveland, all the members of his cabinet and ex-Governor Russell, of Massachussetts. Though deprived of the presence of the vice-president, several of the party's national leaders were present, and when W. F. Harrity, the national chairman, called the diners to order and sat down with Representative William L. Wilson upon his left and Representative McMillin upon his right, the two representatives were loudly cheered. There were also present United States Senator White, of California; Assistant Secretary of War Doe, United States Treasurer Morgan, W. E. Morgan, assistant to Director of the Mint Preston, and Representative Straus of New York. The first teast of Straus, of New York. The first toast of the evening was "The Memory of Jack-son," drunk standing. Mr. Harrity called upon Senator White to respond to the toast "As Party Organization Is the Controlling Force in National Legislation, the Preservation of Great Parties Thorthe Preservation of Great Parties Thoroughly Organized Is the Best Security for National Liberty." Mr. White said, in part:

"Whether for weal or for woe, great par ties, especially in a country where the elective franchise is conferred with but slight distinction, must generally com-mand the situation and control the gov-ernment. It has been said that blind partisanship is responsible for most of the misgovernment to which the country has been subjected, and, therefore, it is urged that to ignore party lines would work a complete cure, provide a sovereign remedy. I think that this is a mistake, that it is not even theoretically correct and that there is nothing in our experience Republicans differ as to the extent of

the protection which should be afforded. We have the McKinleyites (I believe there are some of them still), and the anti-McKinleyites. In the event of republic an incumbency, if each protectionist dog-matically sets up his own views, the internal battle will rage much more hotly than that directed at the ancient demo-cratic enemy. So, on the other hand, there is varied opinion'in the democratic camp as to the precise meaning of tariff for revenue, and as to the wisdom of radical action. The clear sense of the American people recognizes that party organization is as essential in the fight for principle as army organization is denanded in a successful campaign. I do not deny that improper practices are too frequently disclosed, especially in municia definite object in view, nominating its candidates and supporting them in the usual legitimate political manner, and also with the aid of the regular republican machinery. If the new organization men-tioned has no other principle behind it than the mere ousting of officials who have outlived their usefulness, it will naturally come to an early grave. It may, perhaps, prove beneficial-may serve It its purpose—but such institutions are ephemeral and the country must depend upon something more permanent if our liberties are to be conserved and our WOODLAND, Cal., Jan. &—The weather is again stormy. ministration Should Be the Paramont Obligation of Party."

OMAHA, Jan. 8.—The Jacksonian Club the leading democratic organization of the state, celebrated the \$24 snniversary of the birth of its patron saint, by a banquet at the Messers hotel. Notables of the state democracy were present. Ex-Governor Horace Boles, of Iowa, was the principal speaker of the evening. Governor Boles turned his attention to the currency question and after outlin-

ing a policy, said in conclusion:
"If the next national democratic convention will discard political attitudes of every description, commit the party unequivocally to a ratio at which gold and silver shall be equally freely coined and point out in explicit terms the legislation that should be adopted to preserve the parity of the two metals, and do this in a rational and reasonable way, the masses of American voters will come to the aid of the party thus committed, and the democracy will again be triumphant. If it fails to do this, changing circumstances or a better judgment than my own must reveal the issue on which it can succeed."

RECOVERED HIS SHIELD. A Policeman Returns to the Force After a Long-Fought Trial.

NEW YORK, Jan. 8.-The celebrated ase of Roundsman Goodwin against the colice board, which was the longest and est persistently fought litigation in the innals of the police department, ended oday by the board reinstating Goodwin to his former rank, and paying him \$5000 back salary and \$1145 expenses for prose-cuting his suit. Goodwin got his shield and it was pinned on him again after an absence of six years. Goodwin was formerly attached to the Forty-ninth-street station, under Captain Carpenter. In August, 1889, a carriage, in which Goodwin and his wife were out driving, upset near the police station. AN EXCITING DAY IN NEWFOUND LAND'S CAPITAL.

Hungry Mob Raids the Legislative Building and Breaks Into Stores in Search of Food.

ST. JOHNS, N. F., Jan. &-Disorder prevailed here all day, and it is nothing short of a miracle that serious bloodshed was averted. The unemployed assembled early this morning and marched to the nan-of-war Tourmaline, whose captain resterday said that he would use his in-luence with the authorities in obtaining relief from the destitution now prevailing. His ministrations were fruitless, it seems, for when the crowd of unfortunates appeared, he referred them to the governor Disappointed and exasperated with hun-ger, the men reformed their ranks and marched to the government house, where a deputation waited upon the executive. The latter informed them that the govern-ment was considering measures of relief, and advised them, pending action on the bills, to call upon the city representatives for their immediate wants. The mob, for such it had now become, then went to the legislative buildings, but were re-fused admission. Enraged at this, they burst open the doors and surged into the corridors. The police on guard attempted to drive them out, but were overwhelmed by the infuriated mob and forced to re-tire, leaving the building at the mercy of the invaders. The assembly, not being in session, few members were in the building at the time, and those lost no time in fleeing from the place. The police reserves were summoned, and after a desperate struggle, managed to eject the in-truders. In the afternoon the crowd reassembled and returned to the govern ment house, where it complained to the governor of its treatment during the governor of its treatment during the morning and reiterated its demand for reitef. The governor repeated his advice of the forenoon, and said he was power-less to act without the co-operation of the ministry. The crowd once more made its way to the legislative buildings. The hour for the convening of the session was near at hand, and knowing the determination of the mob. those inside, on be-ing informed of its approach, began prep-arations to prevent its entry. The doors were barricaded and the whole available colice force were stationed around the building. The crowd swelled in dimensions momentarily, and soon the whole of the grounds in front of the structure was a solid mass of humanity, in the midst of which floated a large flag bearng, conspicuously, the words: bread," while ejaculations of similar im-port were made by the crowd. By this time the mob, seeing that no attention was being paid to its demands by those inside the building, made a rush for the doors. The police were powerless to stem the tide of the infuriated mass, and many officers were injured. One sergeant was thrown over the steps leading to the main door and seriously hurt, while another officer had his cheek cut open with a stone. Finally, Premier Greene ap-peared on the balcony, and in a speech expressed regret at the condition of the colony and the destitution prevailing among the people. He promised that em-ployment would be given within three days, and begged the crowd to have patience and confidence in the government. He promised to resign, if work was not provided within the time specified. This did not satisfy the crowd, who told him plainly that they would break into the stores and get food. This threat the frequently disclosed, especially in municipalities where a particular political denomination has been continuously in power. The magazine costs you nothing; if any of the patterns are desired, they may be had of us at a cost of 10c each. This is less than half the cost of any reliable pattern in the market.

Perfect-Fitting Patterns

By arrangements with "The Paris Fashion Company" we are able to supply our customers with IMPORTED PATTERNS.

Today and Tomorrow

Will end the sale of goods damaged by water. At the rate the wet goods have been going out, today and tomorrow will wind up the sale.

Come early, if you want to get in on the ground floor.

OUR ANNUAL SALE

Is without question the greatest bargain spread ever given in Portland. Our prices are the lowest in the annals of the retail trade.

DURING THE SALE, STORE WILL CLOSE AT 6:30 P. M.
