PORTLAND, THURSDAY, JAN. 10. CITY NEWS IN BRIEF

Parties desiring offices in The Oregonian building, may inquire of Portland Trust Company of Oregon, No. 123 First street, or the superintendent in the building.

MAJOR-GENERAL O. O. HOWARD is the best of that brilliant galaxy of commanders who fought the battle of Appomattoch and demonstrated that our country was one great nation, from which no portion, however small, could be torn. Himself a prominent military official, his drama, and well acquainted with all the leading parts, the story of "Grant at Chattanooga," as it will fall from his lips next Tuesday evening at the White Temple, will possess a fascinating interest.

BOOK COMPANY WISE.—A dispatch in The Oregonian from Salem yesterday stated that the state board of education had canvassed the vote of superintendents and other qualified to vote for new school text books, and that there were very few changes. The result is nearly a complete victory for the American Book Company.

ONE MORE RELIC FOUND.—A brass watch among the relics dredged up from the vicinity of the wreck of the old French brig Duc de Lorges, near the foot of Burnside street. It was discovered and secured by the engineer of the dredge, who says the machinery in it is all right, but the hull is badly corroded—and it has stopped. This is not to be wondered at, as the watch has been at the bottom of the Willamette nearly half a century, and there were no self-winding watches when it was made. It is now in the hands of the authority that the Duc de Lorges was not laden with liquors, but had a lot of flour on board when she sank.

ADT TO GERMANS.—The German Aid Society held its annual meeting Tuesday. The reports of its officers show that the affairs of the society were well managed. True to its principal object, which is the relief of poor Germans, there was spent during the past year the amount of \$847.23, principally for groceries, rent and clothing in aid of poor families.

A DOG TOO INTELLIGENT.—A gentleman who has an insurance office on Washington street, and who is a very intelligent dog, has spent considerable time in training the animal, which has now acquired such sagacity that when he goes into a store and his owner calls his attention to any portable article the dog "catches on." When, after they have gone some distance away from the store, the dog's owner tells him to go back and fetch it, the dog goes back and fetches the article pointed out to him. This trick shows off the intelligence and training of the dog admirably, but the friends of the owner of that dog fear that it may result in the dog being arrested and his master involved as participant criminal.

BROWN ACQUITTED.—Mr. E. Brown, who was employed in decorating the Exposition building for the late universal exposition, was honorably acquitted in the municipal court yesterday. He was charged with stealing a lot of glasses used in illustrations by W. W. Brackett, but when the trial came off there was not a particle of evidence to implicate him in the crime, while the testimony of witnesses showed that the property had never been stolen. It was so evidently a piece of spite-work that Judge Smith taxed the costs—\$12.50—to Brackett. Mr. Brown was defended by Mr. E. Roy Allen, recently admitted to the bar.

THE WAGON PORTLAND.—Those who imagine that nothing is known of this city in the East are evidently mistaken. A bill from an Eastern publishing firm for \$80 was recently sent out to the school board here for payment. School Director Allen refused to pay it, and, upon examination, it was found that the bill was owed by the school board of Portland, Conn. The publishing firm in question has possibly heard of the reckless lawlessness in regard to paying bills, displayed by the school board of this city, and thought it would make no objections to a bill for \$80.

CONVULSIVE MEETINGS.—A very interesting series of meetings began in the new house of worship of the First Congregational church, corner of Park and Madison streets, last Monday evening, and are constantly increasing in interest. The attendance last evening was the largest of the week so far. Excellent music is provided, and the talks by Dr. Wallace, General Howard and others are of a practical character. A cordial invitation is extended to everybody to be present to-night and tomorrow night.

SALON MEN SLOW.—The saloons have been coming to the front rather slowly to pay their licenses. It is supposed that there will be 200 licenses taken out, but, although this is the last day of grace allowed, but it has been issued. There will probably be a rush to secure licenses today, but it is likely that some

THE PLUMBING PERFORM.—The plumbing in the new city hall was tested yesterday under the personal supervision of Plumbing Inspector E. J. Floyd, to ascertain if there were any leaks or defects in the pipes or traps, by means of which sewer gas might find its way into the building. The peppermint test was applied. It was the first instance of the kind in the city. All know what a powerful and penetrating odor essence of peppermint possesses, the least drop in or about a room being at once perceptible. All the traps in the building having been sealed, Mr. Floyd mounted to the roof, armed with 30 ounces of peppermint, and down each of the eight stacks of vent and soil pipes he poured the essence of the subtle essence. After each dose followed a bucket of hot water. Then an inspection of every room in the building was made by Architect Whidden, and not a trace of the smell of peppermint was found in any of them. The plumbing was therefore pronounced perfect, to the great satisfaction of Contractor Church, as well as Mayor Frank and the various city officials who will have offices in the building.

THIRD-STREET BUSINESS PROPERTY is better situated for investment than any other in the city, provided the location is above the recent flood and in the direction of the retail business is extending. Such property will pay well to improve. Money can be borrowed on it at the lowest rate of interest. The rents obtainable are the highest paid. Particular attention should therefore be given to very cheap property situated on the southeast corner of Third and Salmon streets, being lot 8, in block 24, 5x100 feet, which F. V. Andrews & Co. will sell for not less than \$25,000, public auction at the courthouse door at 2 P. M. on Friday, the 11th day of January, 1893, by order of the county court, on behalf of M. A. McKinnis, as executor of the will of Ida M. McKinnis, deceased. Fifteen thousand dollars of the purchase money remain as mortgage, and very easy terms can be arranged for the payment of the balance. For further information apply to the agents at 421 Third street.

BOWKER IS IN LIVERY.—Charles A. Bowker was yesterday released on bail in the sum of \$500. A statement yesterday that Bowker was in the penitentiary was an error. His imprisonment had extended over a period of 23 months, and had been served in the county jail. Bowker was sentenced, after his conviction, to 19 years in the penitentiary, but was not sent there, as his case was appealed to the supreme court for a new trial, and pending this decision Bowker expressed his preference that he be permitted to remain in the county jail, and it was so ordered. It was once the rule to keep all persons convicted and sentenced to the penitentiary in the county jail, until a decision from the supreme court was reached, where appeal was made. Now they are frequently sent to the penitentiary, and brought back if a new trial is ordered. Where bonds are allowable and can be provided, exceptions are made.

WANT TO BE REPAID.—Mr. A. S. McAllister and Hugh Glen, of The Dalles, Portland & Astoria Navigation Company, are in the city. The gentlemen are engaged in settling up the business of the company for the past year, and will go to Salem today to interview the state board on company affairs. Owing to the high water last summer, a portion of the state portage road was washed out, and the company, at its own expense, had it rebuilt, the road, and also constructed an entirely new landing at the west approach. They will ask the state board to recommend that their company be reimbursed for the outlay of money, and as all the work was done for the benefit of the state road.

LAST OF THE OLD CATHEDRAL.—The old Cathedral building at Third and Stark streets is in process of rapid demolition. It is pretty well torn out, and yesterday the stone steps at the entrance were being removed, and at the same time a gang of workmen commenced tearing off the ornamental work about the tower. Messrs. Winslow & Stewart have the contract for tearing out the carpenter work, and also for doing the carpenter work on the building to be erected in its place. Messrs. Brigham & Reed have a contract to tear the old building down and to build a two-story office-building with the material. It will take about a month to tear down the present structure.

WHERE IS NAT BLUM?—Nothing is heard nowadays in regard to further action in the great opium-smuggling cases, and no one seems to know what has become of Nat Blum. It is likely nothing more will be heard of the smuggling cases until the United States supreme court has decided on matters arising out of them which have been referred to it. As Mr. William Dunbar is interested in some of these decisions, it is hardly probable that he will be able to get his business in the city as he has been doing.

ODD FELLOWS' INSTALLATION.—On Tuesday evening, January 8, Horace Smith, D. D. G. P., installed the officers of Elks lodge No. 1, I. O. G. P., as follows: W. K. Smith, president; H. P. H. M. Beckwith, S. W.; S. G. Gouy, scribe; A. G. Walling, treasurer; P. W. Stewart, J. W.; George Henry, O. S.; Thomas Hodgson, I. S.; Alex. Harper, grand; O. C. Blaney, first watchman; J. Raynor, second watchman; C. Willets, third watchman; H. M. Wilson, fourth watchman. The encampment expects to give an entertainment in the near future.

MORE BANK OFFICERS.—The board of directors of the Astorian National bank met yesterday and organized by electing the following officers: L. L. Hawkins, president; W. K. Smith, vice-president; J. P. Marshall, cashier. The stockholders of the "National" bank held an adjourned meeting yesterday and elected the following board of directors: J. Frank Watson, C. M. Wiberg, W. C. Johnson, George W. Hoyt, James Steel, H. F. McElroy, Ralph W. Hoyt.

FOR A NEW FENCE.—The council committee on parks has decided to recommend to the council that a row of iron posts, connected by chains, be placed around the plaza blocks. This improvement, while not interfering with the view of anything which may be worth looking at on the property, will have a tendency to check the pasturing of horses there, and in some slight degree protect the plazas from being overrun by cattle, as in the past.

A DELICATE OPERATION.—Yesterday forenoon Dr. E. A. Mackenzie, assisted by Dr. H. E. Jones, performed an operation on John M. Henderson, an O. R. & N. Co. engineer, and removed his vermiform appendix. Mr. Henderson was under the influence of chloroform for an hour, and the operation was being performed. He has been suffering much of late, and the appendix was found to be badly inflamed and matted.

GOING TO ASTORIA.—The boats going to Astoria this morning were crowded with capitalists and contractors, and the hotels in that city are now said to be filled to overflowing. The cause of all this rush of representatives of capital and labor to Astoria is the fact that there is a lot of water bonds and let a contract for excavating for a reservoir and pipe line today. The number of persons from this city who went down to bid on the reservoir contract is very large, and included many who have never bid on such contracts before. The amount of excavation to be let is about 150,000 cubic yards.

WHERE IS FRED B. MOORE?—The carriers in the postoffice at Peabody, Massachusetts, were looking for a job at ship-carpentering here. Any one knowing anything of Mr. Moore or his whereabouts will please inform any carrier in the postoffice here and confer a favor on the carrier who is in doubt as to the fate of her son.

ROADS IN GOOD SHAPE.—Yesterday the county commissioners met in regular session and transacted routine business. Today bills will be audited. The commissioners state that the late storm has damaged the county roads or bridges to any extent. A few trees came down, but nothing has happened more serious.

WEEK OF PRAYER SERVICES.—The week of prayer services at the First Presbyterian church are developing much interest. The large chapel is crowded every night. This evening Dr. Brown will preach. There will also be a service tomorrow evening. Everybody invited.

THE MURDER.—A jury hall at 15 T. Street, St. Paul, Minn., Friday, January 11, 10 A. M. Stork Pharmacy, Third and Stark streets.

AMATEUR PHOTOGRAPHERS met in room 26, Oregonian building, next Monday, 3 P. M. saloons will be closed before their licenses are taken out.

EAST SIDE AFFAIRS. Condition of Fruit Trees.—The Free Ferry in Good Shape. While there has been considerable damage done to fruit trees east of the city, it is not so bad nor as widespread as reported. The majority of the trees, however, are in good shape, and he stated, quite positively, that fruit trees in that neighborhood are not damaged to any great extent. Mr. McCulloch has a large orchard in the vicinity of the free ferry, and he has examined, and outside of a few broken limbs, they are in the best of condition. Other growers, he said, make the same report, and as far as he has been able to ascertain, the trees on the section escaped serious injury. It seems that the damage has been confined to localities on the north of Mount Tabor, and to the eastward on the Base Line, for a few miles. Chaussey Ball's fine plum orchard, on the north side of Mount Tabor, is badly damaged, 25 per cent of the entire orchard being destroyed. Mr. L. H. Lewis and Mr. Sullivan, who have orchards on the Base on the entrance road, report damage to them. Mr. B. H. Bowen has 39 acres of plum trees, seven years old, 12 miles from the Stark-street ferry, and he was very anxious to get them, but he received word yesterday that the trees are in perfect condition. Mr. Bowman has also 15 acres of young trees in the same locality, which are all right. He thinks there is very little damage, and he thinks what has occurred will be found in exposed places where the cold wind had full sweep. His trees on the Base Line are protected by the rise in the land south of the Base Line. His theory seems to be borne out by reports from fruitgrowers.

Committees Elected. At a meeting of the East Side Athletic and Social Club, last evening, the working committees of the organization were elected, as follows: Committee on athletics, J. W. Allen, chairman; J. Fay and A. J. Powell. This committee will have charge of all the athletic games in which the club may take part, and arrange for the dates. Auditing committee, H. G. Knott, chairman; D. Parvins and J. S. McCord. This committee will examine and audit all bills before being acted on by the board of directors. House committee, R. Carr, chairman; J. Adams and G. J. Smith. Members of the important committees were selected with regard to special fitness for the duties. Several typewritten copies of the new by-laws have been secured, and the club is fairly launched on the new term.

Big Ferry This Morning. The big East Side ferry will be started up this morning in place of the small John L. Stephens. The change is made, Mr. Knott stated yesterday evening, for the reason it will carry more passengers, and it is much cheaper than the Stephens. It has been reported the small boat was run because it was more cheaply operated than the big one. The East Side pontoon is not ready yet, and will not be the basis to cross the ferry until it is repaired. It is expected that it will be in shape so that vehicles can be crossed on the ferry tomorrow. A tally of the number of passengers carried on the Stephens was kept yesterday till 6:30, and the number was 3000. The boat made trips every six minutes.

He May Recover. There are prospects that J. D. West, of Stephens' addition, who was so terribly injured by an explosion of powder at the government works at Marshfield, Good county, several months ago, will recover. An account of the accident appeared in The Oregonian at the time. Mr. West is a member of Fealty lodge No. 109, I. O. G. P., and has been under the care of the lodge ever since the accident occurred, although still at Marshfield. Information was received yesterday that the outlook for his recovery is regarded as favorable, although he is still very feeble and has not fully recovered his senses. It will be remembered that Mr. West was employed in the stone works south of East Clay street.

They Were Probably Amateurs. The two would-be burglars, who attempted to hold up E. C. Wertz, at his store on East Grand and East Eighth streets, Tuesday evening, were evidently amateurs in the business. Mr. Lester, of the firm, stated, yesterday, that several days ago a man came in at the store and wanted to sell some potatoes, but the man evidently had nothing to sell and was probably there to examine the premises. Mr. Lester thinks they must have been getting up E. C. Wertz, yesterday morning a mask and a light overcoat were found in W. W. Terry's yard on East Eighth street, where they had been thrown by one of the burglars, as he ran that way in his effort to make his escape.

Postal Station C. Station-master Patterson of Sunnyside's new postal delivery station C, is struggling energetically with the difficulties incident to inaugurating the new work in that section. The storm made the initial work especially difficult at the station, but he managed to get around at once a day with the mail. People without numbers on their houses are supplying the deficiency as fast as possible. The work of locating everybody in the district is necessarily slow, but in a short time everything in connection with the new station will be working smoothly and harmoniously.

Telephones and Alarms Restored. Assistant Chief Donaldson was greatly relieved yesterday evening when the telephone and electric alarm system were fully restored. It has been a very trying season for the assistant chief. Both the telephone and electric alarm systems were paralyzed by the storm, and he was con-

polled to be exceedingly watchful, and, in fact, the whole East Side branch of the department had to be on the alert. For a considerable portion of the night the chemical engine was kept moving in the central portion and on the watch for fires it was fortunate to find no fire occurred.

Hasall-Street Church Meeting. The annual meeting of the Hasall-street Congregational church was held Tuesday evening in the church parlors. The pastor, Rev. C. H. Curtis, presided. With Walter Cook as clerk. The treasurer reported the society free from debt, and a balance in the treasury. The following new officers were elected: Deacons, Messrs. McKercher, Plympton, Roynton, Morrow; trustees, Messrs. Tans, Whally, McCoy; clerk, Walter Cook; treasurer, Joseph Scott; welcome committee, Edward F. Sherman, chairman.

Miscellaneous Notes. Mr. M. Altstok, who received a severe stroke of paralysis several weeks ago, is able to be on the street, although he is still feeble from the attack. At a meeting of Fealty lodge No. 4, A. O. U. W., last night, resolutions in memory of the late Philip Friedlander were unanimously adopted, and ordered spread on the minutes. The charter was accepted by the lodge, and the lodge expressed its sympathy for the departed brother of the lodge.

MURDER IN MARQUAM. J. W. Brown, of That District, Reported Killed.

OREGON CITY, Jan. 8.—Late this afternoon, Coroner Holman received a telegram from Justice E. J. Eck, of Marquam, saying that J. M. Brown, of that district, had been murdered, and asking the coroner to come there immediately. The coroner, accompanied by Sheriff Madlock and Deputy Prosecutor Campbell, left on this evening's train for Woodburn, and from there will drive to Marquam tomorrow morning. None of the particulars of the murder are obtainable here. The records show that James M. Brown owns 50 acres of land about a mile southeast from Willott springs, and it is supposed he is the Brown who is murdered. He was a quiet, inoffensive man, about 50 years of age, a Union pensioner, and is believed to have no family.

The argument of the motion for a new trial in the Hess-Liebe case was opened immediately after noon today by H. M. Calk, who argued, as his principal points, the insufficiency of the evidence to support the verdict; excessive damages due to prejudice and passion on the part of the jury, and errors of law during the trial. His argument of the particulars of the case, Mr. McGinn opposed, nearly three hours. Mr. McGinn closed for the defense about 6:30 o'clock, when Judge McBride took the matter under advisement.

Theodore Rubens, of Woodburn, set his satchel down outside the depot and stepped inside for a few seconds this evening, and in those few seconds the satchel disappeared. Two men, suspected of having taken it, were arrested and locked in this city jail. The satchel contained valuable papers and some wearing apparel.

CORDRAY'S THEATRE. Tonight at this cozy place of amusement, the famous play, "The Clemenceau Case," by the Riggs Company Theatre, Secure Seats Early. Tonight at this cozy place of amusement, the famous play, "The Clemenceau Case," by the Riggs Company Theatre, Secure Seats Early. The play will receive its initial production by the Charles Riggs Company. It is stated that Mr. Riggs, through the medium of his talented company, will present the original version of this famous play. He claims that before American adapters distorted it to suit the nerve-taste of a certain class of theater-goers, it contained more comedy and was not in any way objectionable. That his version is successful is attested by the large audience that assembled in Cordray's family theater at Seattle last week to see it. The press comments were very fine and lengthy.

Miss Rose Stillman is credited as being very artistic in her rendition of the difficult role of Isa, and in the famous model scene was highly complimented on her beauty and modest and delicate conception of the part. The piece will run throughout the balance of the week, except at the regular Saturday matinee, when "That Precious Baby," the comedy drama company has been playing this week so successfully, will be substituted.

REAL ESTATE TRANSFERS. Ten deeds, aggregating \$2553, were filed for record yesterday with the county recorder, as follows: H. H. Croser and wife to C. B. Those unhappy persons who suffer from nervousness and dyspepsia, use Carter's Little Nerve Pills, made expressly for this class. People who give Hood's Sarsaparilla a fair trial realize its great merit. "Chickering" Pianos, Wiley B. Allen Co.

A CARD.

We have completed our inventory and closed our books for 1892. We wish to thank our friends for their kind patronage, and take pride in stating that our trade, since removing to our new store, corner Third and Oak streets, has been far above our most sanguine expectations. It proves that the public appreciates honest values and fair dealing. Our aim has been and will be to give good, reliable clothing at reasonable prices. We are making at our mill in Albany, Mass., desirable patterns in chevots, cassimeres and tweeds for spring and summer trade. We have also placed our advance orders for the latest effects in imported fabrics. These, as well as our own make of goods, will be made in regular, short and stout, long and slim, and extra sizes, enabling us to fit any one. Our country-order trade by samples has increased so that we were obliged to open a separate department for same, and we send samples and cuts of all lines, with plain rules for measurement, free to any address. This coming season we intend to devote more attention to our boys' and children's department, and shall carry full lines of novelties and staples. Our uniform department has been a great success. We are equipped with Oregon National Guard, Portland military band, Oregon Soldiers' Home, American District Telegraph Company, Pacific Postal Telegraph Company, reform school, United States lifesaving service and many others. We are prepared to make suits to order in chevots, tweeds and cassimeres for \$15, and pants for \$4.60. J. M. MOYER, Wholesale and Retail Clothier, Agents Albany Woolen Mills, Nos. 31 and 33 Third St., Cor. Oak.

To make room for our spring goods, we have decided to allow a discount of 10 per cent on every article in our stock, including four lines of Stin-Block Co.'s blue and black extra-long jersey overcoats, which were delayed in transit. As our prices were reasonable before, we offer an extraordinary opportunity is offered for a short time. For the same reason we offer in our custom-tailoring department to make suits to order in chevots, tweeds and cassimeres for \$15, and pants for \$
