

Munday, MacGregor, Kay Smith, Trevett and Erb to defend its honors on field and track, the Tacoma Athletic Club may well hold its head up, and claim recognition in the little world of the Northwest Pa-The P. A. A. C.'s bulldog mascot

"Swipes," excited a great deal of ad-miration during the New Year's day foot-ball game, but not nearly so much as he did on his way home to Pendleton, where his owner, Mr. S. W. Geer, of the W. &

now in the school. A number of the pupils desire instruction in some of the higher branches, and there is a disposition to comply with the demand, although it may not be brought about this year. To attend the Portland High school in order to secure the instructions wanted would cause heavy expense to pupils re-siding at the Villa, and for this reason the introduction of another grade, which will include the branches taught there, is being considered. The school will graduate a large sighth-grade class next

in a suitable place, beyond the city lim-its, and if the ordinance requiring ashes to be kept separate from swill and other or-ganic refuse could only be rigidly enas a compliment. It will require 37 votes to secure the caucus nomination, if all the republican members will attend, but there is some talk that Senator Charles forced, the crematory might be operated indefinitely and fertilizers produced. As in this highly-favored section the people have not yet got down to saving cheese-Woodward, of this county, elected two years ago on a citizens' ticket, will not go into the caucus. He did so two years ago at the carnest solicitation of Senator parings and candle-ends, the com grease need not be bothered about at pres-ent. The chief trouble with the crematory Bancroft, but within the past few weeks he has said that it would be doubtful if he could be caught in the same trap again. With Senator Woodward remain-ing out it will require 36 votes to nominate If this were put to rights, and some other in Oregon, we can truthfully say that repairs made, the concern might be oper-ated for some time. The fire-brick lining fully up to what they have been during

port a decided improvement. Boise City and other towns of Idaho are experienc-ing a decided change for the better, while Southern Oregon may be said to be in the midst of quite a boom. The boom of a few years ago in Willamette valley towns did not extend to the country to mercial any very great extent, and hence their normal condition has been but little dis-matory turbed. In fact, the rule has been that seems to be that the big stone at the bottom, from beneath which the blast is forced in when necessary, has crumbled to pieces, and the blast cannot be used.

C. R. Ry., resides. He went home early in the week, going by way of Scattle, Tacoma and Spokane. He was literally covered with bits of the club colors, and a pincard on his harness bore the in-scription, "I won the game, 28 to O." "Swipes" is a very intelligent dog, and knows all about trains and football games

The members of the Seattle Athletic Chub appear to be taking more interest in athletic affairs just now than they have for two years past, and they will doubtiens make a better showing in the coming season than in the one just closed. Word comes from the Sound that they are already fleuring upon winning the principal events at the midsummer regatta, which will probably take place in British waters-possibly at Victoria. A modern shell (four-oar) of lightness and dura-bility par excellence has recently been ordered from the best Eastern makers, and just as soon as the weather will permit, a crew will be put in active train-ing in the open air. The S. A. C.'s will also have one or more junior fours in the field, and possibly singles and doubles. The senior crew expects to be in trim in time to visit Victoria on the queen's hirthday, May St. to compete with the best crews in British Columbin. This will give them some advantage over the Portland crews, in case the regatta takes place in those waters.

The committee of the Seattle Athletic Club on athletics, consisting of George P. Folsom, W. B. Goodwin and F. J. Church, will meet this week to decide upor some plans for the spring work. At preent the club has no track, nor has it suitable grounds of its own for out-door exercise, and one of the first duties of the committee will be to docide whether or not such grounds can be obtained. It s expected that with the advent of betweather interest in track athletics will revive, and that not only a successful ruring meeting will be held, but a strong and creditable team will be put in the field to compete with neighboring clubs.

The Arlington and Multnomah clubs are to have another bout at bowling, and Januagy II has been fixed as the date of the hittle. The men of muscle were the challengers, and the gentlemen of leisure very willingly signed the contract. Tw-ive picked men from each club will participate. The Multnomalı team will be selected from the bowlers who made the best showing in the tournament just closed at their clubhouse.

Professor Brown, of the Y. M. C. A., has been secured by the Portlands as a temporary instructor in their gymnasium, and already has the classes in hand. Professor Krohn, of the Turn Verein, had signed with them, but the Turners re-tained a legal hold on him, and refused to let him go.

There is a movement among Portland carsmen to bring to this city the North Pacific regatts for 185. It has been the custom in past years to hold it in a different locality each year, so as to give all clubs in the association a chance to en-joy the benefits accruing from it, but as Portland is represented by two clubs, and both of them have never failed to cc crows in the field in past sea many clubmen here feel that this city Damaged Electric Lights.

Several men have been at work a con-siderable portion of the past week trying to restore the disrupted electric sys-tem on the East Side. A great many lamps were completely destroyed in the storm on all the circuits. At Sunnyside all were knocked out of condition, and only four have been replaced. On East Twenty-sixth the wires are down, and all the lights in the southeast portion of the city are out for the present. The East Side light system extends from Sellwood to St. John's and there are five circuits and as many trimmers. In the East Portland circuit eight lights were out, and in Albina 17 were disrupted; in all about 55. It takes time to go over and restore them, as the wires are down in a great many places.

Damaged by the Wind

The heavy wind yesterday morning mixed up the wires of the electric light and the fire alarm systems, much to the disturbance of the latter, loading the wires with a current altogether too heavy for them. At the Stephens addition engine-house Foreman Holder was aroused during the storm by a noise in the lower room, and in an instant the whole building was illuminated by the current from the electric wires switched on, the fire alarm. He succeeded in shutting off the circuit before much damage was done. A box at Madison-street bridge was burnet out, and there were similar disturbances all over the East Side. The trouble was remedied during the day.

Miscellaneous Notes.

The annual reunion of the members of the East Side department of the Y. M. C. A. will take place this evening. The funeral of Mrs. E. S. Craig, who died at her home on Russell street, Al-bina, took place yesterday morning from the Third Christian church.

A windmill for pumping water, be-longing to Mr. W. C. Brainard, at Mount Tabor, was blown over yesterday morn-ing, about 2 o'clock, and demolished.

and whoever secures that many will the nominee of the republican party for

The friends of Senator Dolph confidentclaim that he will have 40 or more tes in the caucus, if not on the first, surely on the second ballot. They have such claim on the result of careful in-vestigation and personal interviews with tembers of the legislature. Some of the will have more votes in the cau-cus, on the first ballot, than would be required to elect him in the joint con vention, which will require 46 votes. They do not believe that much time will be lost in giving complimentary votes, when it is evident that in the end Mr. Dolph is

to receive the nomination. One of the rumors affont on Saturday hight and yesterday was that a deal was to be made whereby Dr. J. A. Fulton, o Astoria, a brother of the senatorial as

irant, and a candidate for the positi of health officer at Astoria, would retire in consideration of one vote being given to Fulton for senator. Such rumor is likely only idle talk, as the health officer is appointed by the governor, and no one believes that either Governor Lord or Mr. Fulton would be a party to such a transaction

Collector of Customs Black was an as consector of Customs Black was an as-tonished individual on Saturday evening when, while sitting in the lobby of the Imperial, Jonathan Bourne, the prime apostle of free silver, walked in and charged him with lending a hand to secure the election of Senator Dolph, Mr. Bourne intimated that he had learned that Col-lector Black had received a letter from President Cleveland, instructing him to help Dolph, and, also, that Mr. Black had been closeted with the senator in his private office for an hour or more. This information was a staggerer to the collector, but he quiety assured the doughty manager of the anti-Dolph cam-paign that he had not received any com-munications, public or private, from Pres-ident Cleveland regarding Mr. Dolph, nor had he had any conversations, public or private, with the senator. Mr. Black, be-ing a democrat, takes very little interest in the contest over the election of a reublican senator, and has all he can do to attend to his official duties as collecto of the port. The story of his taking any part in the senatorial election is entirely unfounded and circulated in the hope of naving a damaging effect on Mr. Dolph, nut Mr. Black's denial will be sufficient in xpose the utter worthlessness of

Mr. J. P. McManus, of the Pendleton Tribune, does not seem at all disturbed over the raking that his town contempo-rary and other Pendletonians are giving him on account of his interview in The oregonian on Friday last. Mr. McManus still maintains that the sentiment in Umatilla county is in favor of Senator Dolph. As to his reference to "Dolly Var-dens," he meant more particularly those republicans who a few years ago support-ei a ticket against the regular republican nominees, and known as the Dolly Var-den ticket. He said yeaterday: "Judge James A. Fee, who, it is said, heads the list of these signing a protest

o my remarks, is responsible more than anyone give for the course pursued by the Tribune during the senatorial light. d per day up. Restaurant and Grill room.
