SAN FRANCISCO, Feb. 14.—At yester-day afternoon's session of the board of railroad commissioners a communication was received from J. L. Lansing, secre-tary and controller of the Southern Pacific Company, setting forth that separate reports have not been filed concerning the stermers operated and controlled by the company, because they are considered a part of the entire system, and the earnlogs and operating expenses of the steam ers are included in the reports of the operation of the system.

The secretary reported that the Sacra mento Transportation Company and other river transportation companies have been asked to furnish their annual reports, but have not responded. Dr. Stanton though that if there was any question concerning the jurisdiction of the board over steamer lines doing business between California ports the opinion of the attorney-gen eral should be obtained. He thought that the powers of the board are clearly de fined as concerns the inland lines. The secretary said that there is a federal deision which effects the Oceanic Steamship Company, the Pacific Coast Steamship Company and other outside lines. Pieased With the Valley. Moses Polson, immigrant agent of the Great Northern, returned yesterday from a short trip through the Willamette valley, enthusiastic over the possibilities of the garden spot of Oregon in the line of fruitraising. All the valley needs, he says, is more population, and the railroads are anxious to furnish that. Mr. Folsom went up the East Side and returned on the West Side, and was enabled to get a good view of the most fruitful portions of the valley. Mr. Donavan, who left Port-land with him, will return in a few days. Mr. Polsom leaves for the East today stopping a day or two at Seattle and one day at Spokane.

TWO SUBURBAN HOMES.

One located at Milwaukle, near electric car-line to Oregon City, consisting of I acres, with seven acres in cultivation and several acres in small fruits, etc. There is a lovely little spring branch on the place, and a house which cost nearly if not quite \$2000. This place can be had for \$4000—one-half of which can be taken in trade. The owner is selling because he is unable to raise \$2000 now due, and hence he must give up his home and start in

The other is 80 acres 10 miles southwest of Portland, and we will sell this for \$600. \$2500 of which must be cash and balance to suit purchaser. There are 12 acres in hops, good hop-house, S acres in cultivation—it is good soil and until the present mertgagees commenced their foreclosure suit, this land was held at \$800. The owner is a typical Western home-builder rough, rugged, honest unfamiliar with the insidious scheming of unrelentations. ing credit-grabbers and falls an easy prey to their designing. Hence he is forced to sell out and sacrifice a small fortune and move into a more sparsely settled district, where he will be better appreciated and understood, and join in taming the forests and conquering stubbern nature.
