

FOUR MAIN FACTURES

Output of Last Year Estimated at \$56,140,195.

ABUNDANCE OF RAW MATERIAL

Cost of Making \$100 Worth of Goods Less in Oregon Than in Some Eastern States.

Trustworthy statistics relating to the manufacturing establishments of Oregon are not available. No person or association makes any report on the subject...

No deduction that can be made from previous censuses will give a fair idea of the manufacturing output in 1899. Manufacturers were reported at \$2,336,640 in 1890, and \$2,978,761 in 1891.

Probably no state in the Union is so well adapted to manufacturing as is Oregon. The raw material is here in abundance, and it is easy of access...

The plan of 1899 and the succeeding times dealt with a crushing blow, not only in Oregon but in every community on the Pacific coast.

The average amount of capital required for a factory in 1899 was \$15,000 in the United States, \$29,621 in the Pacific States, \$39,721 in California, and \$53,721 in Washington.

Table with 4 columns: State, Capital Required, etc. Rows include United States, Oregon, Idaho, New York, Massachusetts, Illinois.

Miscellaneous expenses include rent, power, heat, taxes, insurance, ordinary repairs to buildings and machinery, payments to contractors, interest, paid in cash used in the business, and sundries.

CURRY COUNTY

Southwestern Oregon Enjoying Its Share of Prosperity. The reader should remember that Curry county is handicapped from the fact that less than half the county has been surveyed by the government.

THE THREADS OF A ROPE

HOW THEY TWIST THEM AT THE BIG PORTLAND FACTORY.

A Study in Manufacture Where the Northwest Gets Its Binding Twine.

A visit to the Portland cordage plant, located at the corner of Fourteenth and Northrup streets, occupying the entire block of interest here, is a large manufacturing company, where rope and binding twine of all grades are made.

D. P. THOMPSON'S GIFT TO PORTLAND

The Thompson Fountain, which is a gift to the city of Portland from Hon. D. P. Thompson, will be completed in time to be dedicated on July 4, 1900.

To San Francisco were 100,000 feet of clear cedar, worth from \$55 to \$60 per thousand. Mining employs 150 persons and the output of gold last year was between \$3,000 and \$4,000.

BEEF SUGAR.

Statement of Operations at La Grande Last Year.

The La Grande sugar factory closed for the season November 19, after 93 days' run. Many stops were caused by inability to secure beets.

Between 150 and 140 men were employed during the season, and the factory produced about \$350,000 worth of beet pulp for the month ending November 15.

Beet raising seems to be gaining popularity with our farmers. A few lost money last year, through mismanagement, and because of a bad season, but the crop is said to be better than in Oregon, and that the factory disbursed no less than \$300,000 in the valley last season.

CAPE NOME CAMP STOVE.

A Combined Air-Tight Cooking and Heating Stove.

With coal at \$50 per ton and wood at \$35 per cord, it stands Cape Nome in hand to have a stove which will do first-class cooking and baking with a small amount of fuel.

THE BREVIN LEATHER CO.

YOUNG IN YEARS, BUT RAPIDLY FORGING TO THE FRONT.

Manufacturers of Fine Harness and Saddles, Largest Dealers in Findings and Shoe Store Supplies in the Northwest.

There is no firm in the harness and saddle trade which has advanced with greater strides in the last few years than that of the Brevin Leather Company.

OVER 28,000 SALMON.

View of Myers' Cannery, Seattle, Shows the Number of Fish in One Pile.

There is no better evidence afforded of the fecundity of the salmon family than is afforded in the view of the salmon at Myers' Cannery, Seattle.

The firm of George T. Myers & Co. are the pioneer packers of salmon on Puget sound. Their first cannery was strictly first-class goods, and through a reputation for excellence excelled by none.

OIL CAKE MEAL.

Is Valuable as a Feed, Flesh and Milk-Producer.

Experienced feeders pronounce it to be the best and most profitable food for beef, cattle, horses, sheep, hogs, fowls, etc.

THE PANTHEON.

Portland's High-Class, Business Men's Resort—Grant Scott, Proprietor.

Unquestionably one of the finest fitted-up and best-conducted establishments of its kind on the coast is 'The Pantheon,' conveniently located at 130 Third street.

THE PORTLAND CLUB.

A New Institution Which Will Be Foremost in Rank.

One of the institutions in the city devoted to pleasure and relaxation is the Portland Club, recently incorporated.

NEW BILLIARD PARLORS.

It remained for Messrs. Bowie & Son to open in Portland what has proved to be one of the best-appointed and most popular billiard halls on the coast.

TO BE PUBLISHED BY THE HOMESTEAD COMPANY

THE PACIFIC HOMESTEAD

On the first Thursday in March, 1900, we will commence the publication of the Pacific Homestead. It will be the leading farm paper of the Pacific coast.

It will be printed on the splendid new perfecting and book press of the Columbia Press, which will be capable of turning out 6000 or more complete Homesteads an hour.

The subscription price will be \$1 a year. The subscription lists are now being made up. The circulation will be 5000 from the start; this means 25,000 readers.

Send us \$1 for a year's subscription; or 50 cents for six months; or 25 cents for three months; or 10 cents for one month.

THE PACIFIC HOMESTEAD, Salem, Oregon.

THE FREDERICKSBURG

DEVOTED TO ORCHESTRA CONCERTS AND HIGH-CLASS VAUDEVILLE.

Brown & Grant the New Managers of This Popular Resort, Are Achieving Success.

It is gratifying to note that under the new management the Fredericksburg Cafe and Music-Hall is proving a decided attraction, being liberally patronized by a much better class of citizens than formerly.

The orchestra has been increased to eight places, under the leadership of Charles L. Brown, making one of the best in the city. Another good feature for which the management has been repeatedly complimented is the good order now maintained in the performances.

The cafe itself, in connection with the music-hall, must not be overlooked. The new management has been making one of the best in the city. Another good feature for which the management has been repeatedly complimented is the good order now maintained in the performances.

FORESTS AND GAME.

Warden Quimby is Enforcing Laws Maintained Quimby is Enforcing Laws.

The special session of the legislature in 1898 abolished the office of fish and game protector and created the office of fish commissioner, but made no provision for the enforcement of the game laws.

There is much territory to cover in Oregon and portions of the state where game abound are difficult to reach, and to keep vigil over the violators is an expensive matter.

Game Warden Quimby recently visited Eastern Oregon while there was last in that the Bob White quail is increasing in numbers, and that the bird is protected, but he finds that there should be a close season for sage hens. They are becoming extinct in some quarters where only a few years ago they were plentiful.

Upward birds are increasing throughout the state, and with due protection and proper care, they will become numerous. In 1898 there were 10,000 upland birds sold in the open markets of Portland. In 1899 there were 20,000, and it can be predicted that the number will be increased to 30,000.

The services of deputy wardens have been conspicuously capable and successful, and especially where the fine timber and game of the state are concerned. The compensation received, the remuneration of all persons connected with the work of enforcing the game and forestry laws of Oregon is small and uncertain, and very few indeed compare with the dignity and wealth of the great state of Oregon.

The world is looking to Oregon for a large supply of timber. No portion of the globe can surpass it in variety and excellence. With proper protection, Oregon can be made the great shipbuilding center of the United States, a part of the world. The chief of the bureau of the department of agriculture at Washington estimates the annual loss caused by forest fires at \$20,000,000, and it can be truthfully said that a large proportion of this loss is in Oregon, owing to the small appropriation made for watching those who either carelessly or willfully set out fires.

The timber industry in Oregon is reaching immense proportions, yet the protection afforded is very meager. The saving of one quarter section of timber from destruction is worth to the state far more than the annual appropriation for the

R. J. HENDRICKS

Manager

office of state game and forestry warden. It is the duty of the state game and forestry warden and his deputies to enforce the laws in regard to setting out forest fires, and consider the manner in which they have taken during the past year the performance of those duties.

The state of New York would gladly give \$500,000 a year for the protection of such forests, and consider the manner in which they have taken during the past year the performance of those duties.
