CAPTURED CANNON COMING

SPANISH FIELD PIECE ON ITS WAY TO OREGON.

Will Furnish Metal for Medals and Serve as a Trophy Beside-Vol. unteer Encampment.

Oregon is at last assured one of the captured common from Manila, barring ac-cidents in shipment. A very high official in the Eighth army corps has written General Summers that a bronze field piece continuous in Manila at the time the city capitulaved, August 12, 1898, was shipped on the Rio Janeiro October 21 inst, for San on the Ric Janeary October 7 ms, for San Francisco, Ibiliniy marked for the Second Oregon Volunteers, Portland, Or. The gan was sent in care of Colonel Oscar F. Long, of the department of California, who will doubtless soon communicate the fact of its arrival. It is mounted, the carriage being newly painted, and bears the date of 1776, s various other marks peculiar to the

old Spanish guns.

The officer writing to General Summers makes an excellent suggestion as to how sufficient metal for the required number of medals may be obtained without deof medials may be obtained without de-stroying the cannon. The plan is to bore it out until the present caliber of 3½ inches is enlarged to 4½ inches, which

Headquarters State Capitel, Denver, Colo., Dec. 21. 1826.—To the Organizations of the Eighth Army Corps: For the purpose of perpetuating the ties of friendship between the individuals and organizations of the Eighth army corps, honoring the memories of those who gave their lives for the flag, and preserving the history and relice of the memorable campaign in the Philippine islands, the Colorado Society, Army of the Philippines, has been organized, and sends greetings to all the military subdivisions of the Eighth corps, suggesting the formation of smillar societies in the various states and in the Philippine islands, and extending a cardial invitation to attend a reunion at Denver in the cummer of 1900, when a general organization can be effected.

It is believed that this city, being nearest the center of the district from which the greatest part of the army of the Philippines came, is the most convenient and appropriate place for this meeting; while the delightful summer climate and magnificent scenary of Colorado will contribute greatly to the pleasures of the reunion.

We hope that you will confer as promptly

We hope that you will confer as promptly and generally as possible with the members of your organization in regard to this movement, and give us your earnest co-operation and views as to the most convenient and suitable time for holding the require. holding the rounion. Very cordially yours,

FRANK C. NOBLE, Secretary.

HENRY LIPPINCOTT,
CHARLES B. ANDERSON,
CHARLES B. LEWIS,

General Summers replied to this that he

RAN INTO A DITCH.

A tannery fire flown on Macadam road late last evening came near resulting in a serious accident to hose No. 2, of the

fire department. Some contractors have been excavating for a sewer in the vicin-

ity of Hood and Montgomery streets, and left the trench open, without any lights. As hose No. 2, with Driver Price, Fore-

man Kerrigan and four extramen, plunged down the street, they were pitched head-long into the ditch. The hose wagon was

overturned, breaking the pole, and caus-ing other damage to a considerable extent.

The horses were thrown into the ditch under the wreck, and bruised, but not badly crippled up. Driver Price picked

himself up from the bottom of the ditch, where there was an abundance of mud,

without sustaining other injuries than bruises on the legs. Foreman Kerrigan was also bruised more or less, but not

seriously hurt, while the other members of the crew got off even more lightly.

bell expressed his determination to have the matter investigated to place the re-

sponsibility on whoever is to blame for leaving the street in such a condition.

The fire was in the tannery of John Arnold, 1854 Macadam street. The entire building was not destroyed, although the

interior seemed to be completely gutted. What the loss is or how the fire originat-

SCHOOL DISTRICT HAS MONEY

Nearly \$56,000 Came Into Clerk Al-

len's Hands-School Notes.

SPANISH CANNON FOR THE SECOND OREGON.

coress, he states, will yield 119 pounds of field, was one of the first two embarking process, he status, will yield 119 pounds of field, was one of the first two embarking for the Philippines, took a very important desirable memento to be placed in some public apol, the most suitable suggested so far being at the foot of the monument to fine dead soldiers. General Summers easy that this is the plan that will likely be followed. The cannon itself would be a strong attraction anywhere, and doubly so at the foot of a monument in the soldiers. To secure the first encampment of such as the foot of a monument in the soldiers. o at the foot of a monument to the sol-lions who took part in the engagement on the part of Oregon, and assurances that that resulted in its capture.

that resulted in its capture.

The letter written by the chief ordnance officer of the Eighth army corps to the adjutant-general of the corps, designating this particular field place as appropriate for the Gregon regiment, is as follows:

DAN INTO A DITCH "Referring to cablegram from adjutant-central of the United States army, to elect for shipment to the Second Gregon solunteers, for the purpose of making sadges for that regiment, one bronze gun aptured at the taking of Manila, I have

the honor to state that among the guns captured at the capitulation of Manila, in which the Second Oregon regiment par-ticipated, is a bronze field piece, 3½ inches caliber, which weighs 70 pounds.

caliber, which weights 710 pointes.
"Pollowing an old Spanish custom of giving names to their guns, this has been
named "Leal," which appears on a scroll
near the muzzle, and it happens also that
it was east in 1776, both of which facts alte it especially appropriate to be se-cted for the purpose intended. I recom-end it to be the one chosen for the Oreiment. I would suggest in this conwetton that the gun be not broken up, out that the present bore of \$1/2 inches be mlarged to \$\text{Pi}_2\$ inches, which would give in pounds of horings for the proposed medais, leaving the gun practically as it is at present. It could then be used on the Fourth of July and other patriotic occasions for firing salutes with reduced charges, of course, of say from six to eight ounces. In fact, it would be nothing more than a Howitzer. My Grand Army how many medals of this size the 119 pounds of borings can turn out. If medals enough to exhaust this amount of metal are not required, the size of the boring

as follows: On the body, near the vent, is the Spanish crown above the royal cipher, 'Charles IV': on the chase, near the muzgle, in a seroll, is the gun's name, 'Leal'; on the base is the date it was cast, October 21, 1776; on the right trunnion is the weight of the piece, 770 pounds; on the left trunnion is the number, 486. The carringe is in fair state of preservation, and painted and repaired here before

The gun and carriage were shipped care of Coloniel Long, at San Francisco, direct-oil to the Second Oregon regiment. You will probably not need more than 1100 medals, and if so, will not have to bore so much out of the gun unless you desire a heavier medal than that of the G. A. R. The gun started from here October 21, by the Rio Janeiro, carriage nicely painted, and plainly marked. It was wrapped in gunny sacks, to prevent damage during

If no unforeseen mishap occurs, the volanteers should very soon be in possession of this field piece. General Summers has corresponded with the authorities in San receive an answer shortly. As soon as it to bank now holds a cent's worth of is learned that the gun has arrived there, arrangements will be made for its shipment to Portland at once. After it so the state of th ment to Portland at once. After it reaches this city the plans respecting medals and future preservation of the piece will be will be due on the lith, will be paid on discussed more fully. It is likely that the time, and every one connected with the remarking the marker at their school department enters on the duties of the marker at their school department enters on the duties of regarding the matter at their state convention to be held in the Armory tomor-row evening. The design for the medal,

In the communication to General Sumshipment, there are several friendly private utterances that convey the sentiment of those engaged in quelling the Filipine insurrection. Among them are the follow-

I think the jig is about up. The Fillpines were only waiting to hear from the elections in the United States. Well, they have heard. They may hold on until con-grous meets, and if they only hear the right sort of news from that body then I am of opinion that the roost will be varated."

VOLUNTEERS ENCAMPMENT.

General Hale Tells of Movement to Hold One in Colorado.

General Summers is in receipt of a cir-cular from General Irving Hale, president of the Colorado Society, Army of the Phit-tppines, that is of particular interest to all volunteers, as well as residents of the state. The members of the First Colo-rado volunteers have already organized a veteran association, and are now directing every energy to have a large encamp-ment held there next year of representatives from all the regiments participating in the work of the Eighth army corps. From the steps taken by the Colorado men it would seem that an Eighth army corps as-sociation is being organized. This would include most of the country west of the Mississippi, Missouri, Arkansas, Louisiana, Texas, New Mexico and Arizona being the only states or territories not represented by volunteer commands in the islands. To recompense for those, the Eighth army carse organization occide claim a portion at least of Pennsylvania and Tennessee. General Halo's circular is as follows:

TO CURE LA GRIPPE IN TWO DAYS Colorado Society, Army of the Philippi

County Clerk's Deputies Take 115

Names.

The firemen were driving fast at the time, and it was a marvel that none of them were fatally hurt in such a headlong plunge as they would take from the hose wagon thrown into a deep trench. It is Chief Campbell's intention to make the contractors suffer the consequences of their negligence, as they had not taken the trouble to hang out a single light. There was no street light in the vicinity, so the firemen were helpless. Chief Campso the firemen were driving fast at the time, and if fiteen voters were regated and fifteen voters were regated to the first person to register. The deputies appointed by Clerk of the County Court H. H. Holmes to attend to this work are David Steel and A. Bancroft. Mr. Holmes is also giving the matter his personal guidance and assistance. The registration law requires naturalized citizens and those who have declared their intentions of becoming citizens to make legal proof of as the two men either old swindle was attempted in Portland yesterday by a couple of men, which terminated in the speedy capture of one, named W. E. Bolter, by the police. The men were impersonating United States meat inspectors, and by means of the authority claimed from their official position, tried to cajole two butchers into paying them small sums of money. The fraud was quickly detected, as the two men either so poorly under-

Methodist Churches.

The Methodist ministers of the city, together with many of the lay members, held a unique and interesting meeting at Cen-tenary Methodist church yesterday. It pertained to the 20th-century \$20,000,000 offering for the year, and the matter of sweeping away the debts of all Portland Methodist churches during the present year. Much enthusiasm prevailed in the discussions. In the forenoon the audience listened to an able and appropriate sermon by Rev. H. D. Atchison, pastor of Grace church. In the afternoon the most important meeting was held, with Rev. George W. Gue in charge. Rev. S. A. Starr, D. D., pastor of the Sunnyside Methods of the pastor of the Sunnyside Methodist church, read a paper and made an earnest talk on the necessity of getting all the members of the churches to work. He declared that only a very small frac-tion of the members were helping the pastors, and said that the great problem was to get the remainder to work. Rev. H. W. Kellogg followed in a short

talk, in which he said that Taylor-street church would soon stand forth without a dollor af indebtedness, for the first time in 12 years. Among other things he called attention to the peculiar position that his shurch occupied as compared to others in the city. He said that owing to the shifting most of the members itsed well out, and to attend was a sacrifice, and that they could go to other churches easier than to to Taylor-street church. All the other churches but the Episcopal and Taylor-street, had gone back from the bust-ness centers, and soon Taylor-street would be left alone. He spoke for concert and

co-operation.

Dr. Gue then presented the debt question, and said that the time had come when the entire debt on Portland Metho-dist churches should be wiped out. He as an impossible task if the churches would take hold. He advocated pooling the various debts in one sum, and then in a grand, sweeping campaign pay it all off, and have done with it for all time. He said that this movement had been started in California and in cities in the East, and church debts were everywhere being wiped out. He then called for expression on the subject. There was a general dis-cussion of the amtter. Dr. J. J. Walter suggested the payment of one-tenth of incomes as one means. He believed that debts would quickly disappear under that method, John Naugle also spoke long and earnestly for this method. Dr. L. E. Rockwell also spoke on the subject, in which he said that church debts were a serious burden, and he should heartly co-operate with the movement to lift them. Rev. C. E. Cline spoke along the line. In order to get the matter before the meeting in tangible form he moved of the city churches. He said that an ap-peal should be made to the public, as well as to the membership, in that direction,

basement. In the evening a large meeting was held in the auditorium, where future plans were further discussed, from which there will result general activity along financial and other lines in the Portland Methodist churches. DROVE HIS BEAVERS AWAY How a Trapper Was Robbed of a

Good .Thing. "Coon skins are a poor substitute for beaver skins, but a man has to take what he can get," said old Carl Carlson Sat-

urday, as he threw down a bundle of about 100 coon skins on the floor in a fur dealer's store. Carlson is a Russian Finn, who owns 160 acres of land on the lower Columbia, which he improves at odd spells. He fishes for salmon in the season, and used to make money catching sturgeon and steelhead salmon in the winter, when the condition of the water would allow, but sturgeon and steelhead are scarce now, and the river has been too high for fishing of late. On such oc casions Carlson amuses himself by trap-ping for a few weeks, and every winter for years past he has brought to market from 20 to 30 beaver skins, sometimes

He knew of a great swamp made by a long beaver dam on a small stream away back in the hills, some 10 miles from his claim. No one else ever trapped there, and there were a number of beaver houses and families in this swamp, from which he used to take toll at his leisure every winter.

About a month ago he started out to

reap his annual harvest of fur and beaver talls, which are a great delicacy. To his surprise and disgust, he found, on reachsurprise and disgust, he found, on reaching the swamp, that the beaver dam had been cut and a channel made through it, which had completely drained the swamp and a long-legged Scandinavian had located a claim of 180 acres on the swamp, all the finest kind of beaver dam land, and was then engaged in clearing it of brush. He was no trapper, and had seen nothing of the beavers which had inhabited the swamp, and although Carlson prospected the stream for mites, and other streams in that section, he found no trace of his fur-bearing flock.

Finally he returned to the swamp, and finding that there were many old hollow the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to completely enthusiastic, and in favor of pushing the project right through to complete the point of action was outlined by which the joint committees of two for so

SECURED NANCE O'NEIL.

Manager Cordray Succeeds in Getting Her for Short Engagement.

With his usual enterprise in securing the kind of attractions that are popular with his patrons, Manager Cordray yesterday completed arrangements for a brief engagement of the Nance O'Nell company in the early part of February, before they leave to play an extended engagement in Australia. James H. Love, representing Australia. James H. Love, representing McKee Rankin, who directs Miss O'Nell's tour, arrived in Portland yesterday on his way to Vancouver, B. C., from whence he will sail for Australia to arrange for the O'Nell engagement there. Mr. Cordray had been in correspondence with him for some time, and after a conference yesterday, Mr. Love agreed to cancel several dates in Utah in order that the company dates in Utah in order that the company could come to Portland. The arrangement was particularly gratifying to Mr. Cordray, as his patrons have been clamoring for another chance to see Miss O'Neil before she sailed across the Pacific. Miss O'Nell is now supported by Clay Clement, well known in Portland, and regarded as one of the best actors in t Hill and the other fine actors and actr Hill and the other fine actors and actreases which were in her company during her engagement here the first of the season. Her great production is "Macbeth." with Edgar S. Kelly's now famous musical accompaniment. This has been pronounced her crowning triumph, and has drawn tremendous houses everywhere. She will also her crowning triumpa, and has did also mendous houses everywhere. She will also play Ibsen's masterplece, "Hedda Gabbler," which she recently produced for the first time in Salt Lake, and the ever popular "East Lynne." The engagement will be for four nights and a matinee.
