SENIATOR HOAR'S DEFENSE

AN ANTS' VIEWS ON THE PHILIPPINE QUESTION.

What He Would Do With Aguinaldo and His Tagal Followers—Blames Otis and McKinley.

WASHINGTON, Jan. 10.—Senator Hoar, of Massachusetts, has made public a long letter he has addressed to the editors of the Journal, Advertiser, Herald and Globe of New York, in answer to a speech made by ex-Representative Quigg at the Essex Club the last Saturday in December.

"I wish to put against this statement my emphatic denial. What I do want the American people to do is to do in the Philippines exactly what we have done, are doing and expect to do in Cuba."

"I should like to see a policy of skulking from duty. I fear to see it. We based our policy in regard to Cuba, did we not, on the ground that it was the policy of righteousness and liberty? We did not tempt the cupidity of any millionaire or even the covetous desire or employment of any workman by the argument that if we reduced the people of Cuba to our dominion, we should make money out of them, and she could not help herself."

CATARRH 18 YEARS—CURED.

CATARRH AND DISCHARGING EARS, FOLLOWING SCARLET FEVER.

Miss Pearl Bulmy, a bright young girl living at 567 East Yamhill street, Portland. In speaking of her cure at the Copeland Institute of catarrh and discharging ears, said:

"When I was 5 years old I had scarlet fever, which left me with catarrh of the head and throat. There was a bad discharge from the nose. The nose seemed closed up tight, and I was compelled to breathe through my mouth. As I grew older the disease became more active and extended to my ears. My ears began to discharge a foul, yellowish substance. They discharged both day and night. In the morning my pillow would be stained and wet with the discharge. Gradually my hearing failed. Everything sounded confused and muffled up. I never have to ask several times what was being said to me. People would have to speak in a loud tone or I could not understand them at all. My general health was poor. I was thin and pale, and always tired and exhausted."

"I began a course of treatment at the Copeland Institute, with the result that now I am well. The discharge has entirely disappeared, and I never have to ask 'ever did.' I am a different girl from what I was a few months ago."

of us. They were governing their entire island, except Manila, in order of quiet, with municipal governments, courts, schools and complete constitution, resting upon the consent of the people. They were better fitted for self-government than any country on the continent south of us from the Rio Grande to Cape Horn, Santo Domingo or Haiti, when they received their independence, and are better fitted for self-government than some of the self-governments as Japan when she was welcomed into the family of nations.

"Sixth—That the outbreak of hostilities was not their fault, but ours. A patrol, not a hostile military force, approached a small village between the lines of the two armies; a village on the American line of demarcation to which some of our troops had been moved in disregard of the rule applicable to all cases of truce. When this patrol approached this town it was challenged. How far the Filipinos understood our language and how far they understood the reply that they made in their own language does not appear. But we fired on them first. The fire was returned from their lines. Thereupon—That Aguinaldo is an honest, patriotic and brave man. Indeed, that is the express testimony of Mr. Schurman, president of the Philippine commission.

"Second—That Aguinaldo was the chosen leader of the people of the Philippine Islands.

"Third—That the people have from the beginning desired independence and desire it now. That as the fighting had begun it must go on.

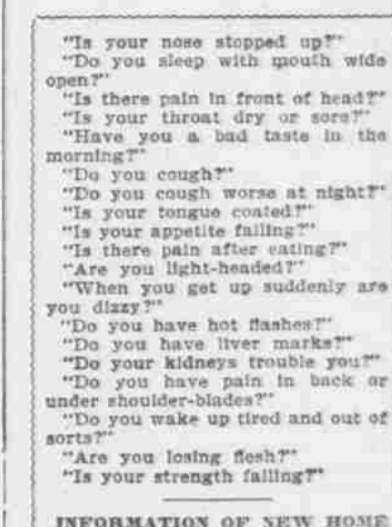

"Fourth—That this desire was communicated to our commanders when they gave them arms, accepted our aid, and bought Aguinaldo from our hands. He would have rather died than to surrender to the Americans, who were already in arms and organized.

"Fifth—That the people of the Philippine Islands have a right upon their own land from Spain, with the single exception of the town of Manila, and that they hemmed in the Spanish troops on land by a line extending from water to water.

"Sixth—That we could not have accepted the Spanish garrison, which was done by an arrangement beforehand, upon a mere show of resistance, but for the fact that they were so hemmed in by Aguinaldo's forces and could not retreat beyond the range and fire of the guns of our fleet.

"Seventh—That during all this period to the final conflict the Filipinos were repeatedly informing our government that they desired their freedom and that they were never informed of any purpose on our part to subdue them.

"Eighth—That they were fit for independence. They had churches, libraries, works of art and education. They were better educated than many American communities within the memory of some
