RESTAURANT - KEEPER ARRESTED .- Lee Wing Gow is the name of the first res-taurant-keeper arrested under the new liquor-license law, which compels keepers of restaurants to pay \$100 per quarter for the privilege of selling liquors to boarders. Mr. Gow, it is said, keeps a sumptuously furnished restaurant in the second story of a building in the Chinese quarter and License Collector S.C. Beach. accompanied by his brother and sister-in-law, visited the place this week and or-dered a meal. While partaking of the viands, Mr. Beach asked if any beer could be had, and the polite Chinese walter said no, but Chinese gin was on tap in abundance. This was duly supplied and paid for, and so Mr. Beach had a good basis started for a criminal suit. To find out the real owner of the place was the next problem, and this proved to be a hard nut to crack, as all Chinese dress allice. Deputy Rogoway, however, under-took the task of picking out Lee Wing Gow, which consumed the better part of two days, as the willy Celestial had begun to smell a rat. Fortunately, however, a little Chinese boy was overheard ad-dressing one of the habitues as "Lee Wing Gow," and Rogoway hopped on to the real culprit before the vendor of Chinese gin could lose himself in the crowd of cotton clad countrymen near by Testerday Gow pleaded not guilty, and the case was extended until tomorrow.

BACE-ACTING PLEASANTRY.-A WARTANT was issued vesterday afternoon for the arwas issued yesterday alternoon for the ar-rest of Chris Chambers on a charge of mayhem. The complainant, George A. Ciark, who says he is a teacher of music, alleges that Chambers poured al-cohol into one of Clark's shoes while the latter was sitting in a chair asleep in latter was sitting in a chair asleep in Crocker's saloon, corner of Third and Burnside streets, and then set fire to the alcohol. The blaze, which almost raised to the ceiling, was a terribly hot one for the sleeper, who sprang to his feet and tried to put the fire out, while his tormentor laughed at the fun. Clark's foot was badly burned, and he has been rendered a cripple, temporarily, at least. He says he cannot swear that Clark played the trick on him, but he has seen him serve other men in the same way, who were reposing comfortably in a sawho were reposing comfortably in a sa-loon chair, unmindful of the troubles of the weary world. Mayhem is punishable by a term of one to 20 years in the pen-itentiary, and the perpetrator of this "joke" is therefore likely to have it turned

MISSIONARY SOCIETY MEETS.-At the regular monthly meeting of the Fourth Presbyterian Missionary Society, Tuesday evening, in South Portland, Rev. Thomas Boyd, D. D., was elected president, A. H. McGowan secretary and Miss Nannie E. Taylor treasurer. Chaplain Gilbert delivered a very interesting lecture on missionary work in the Philippines. He thought there was a very large field for Protestant work, but that it should be cultivated without regard to any particu-lar denomination, as the introduction of sectarianism would tend to confuse the child-like Filipinos. Although the island of Luzon is nominally Catholic, there is a large proportion of Mohammedans scattered throughout the archipelago. There is also need, he thinks, of a universal language in the islands, as there are at esent so many different tongues that ople dwelling 10 miles spart cannot derstand each other. Mr. Gilbert has visited the Philippines and knows whereof

BACKED BY AMPLE CAPITAL .- The WIIamet iron works, one of the oldest and best-known iron manufacturing concerns of this city, has passed into the hands of men provided with ample capital to secure guocessful operation, and, under the title of the Willamette iron and steel works, has started on a new career. The management of the concern has been placed in the hands of James Lotan, than whom no one is better fitted to conduct it successfully, and, with ample capital at command, it is proposed to conduct the business in a manner which will restore the concern to the prominent place it held among the manufacturing estab-lishments of the city in the past. The management is ready to undertake the de-signing and manufacturing of marine, mining and dredging machinery and general mill and Iron work, and to maintain the high standard of excellence which the work of this establishment has borne for

more than a generation. BRIDGE IN DANGER.—Since the late freshet in the Sandy river, fears have been entertained that the county bridge near the pipe-line bridge may be carried away. The current sets strongly against the eastern bank under the bridge, and it was feared that enough of the bank might be cut away to cause the bridge to fall. County Commissioner R. Scott, of Clackamas county, who has been out to examine the situation says there need be no fear of any immediate danger to this bridge. The water committee of this city contributed to the consruction of this bridge, on account of the saving it would effect in the hauling of pipe, etc. The county commis-sioners of Clackamas county contemplated securing the bridge last fall by build-ing a reverement to protect the bank, and asked the water committee to aid in this, and it was partially arranged that some aid should be afforded, but finally the job was put off till spring.

STREET RAILWAY EXTENSION COMPLET-ED.—The extension of the Sixteenth-street branch of the Portland Street Railway Company's system via Nineteenth street and Sheriock avenue, to the St. Helens road, is practically completed, all the track being laid. Delay in opening the line is caused by the failure of the foun-drymen to complete the crossing at the Northern Pacific Company's switch, but it is expected that this will be in place and the road ready for operation within 10 days. The company has displayed great energy in the construction of the line, which has been built in much less time than many supposed it would be. The extension will be a great accommodation or, telephone lift, to a large number of working men employed in the various mills and manufaction. Mount Tabor, by Mo tories at the North End, and will furnish connection between a populous section and the business center of the city.

INCREASED LICENSE RECEIPTS .- LICENSE Officers Beach and Rogoway are looking sharply after such persons as failed to pay their licenses by the 10th, and are rapidly collecting such delinquent licenses with the 15 per cent penalty, which delinquents have found it is useless to attenut to availe. The receipts from licenses tempt to evade. The receipts from licenses up to the evening of January 10 were about \$33,000, which is more than was paid for licenses during the whole of the previous quarter, and from the way the money is being collected it looks as if the receipts from licenses for this quarter would reach \$35,000.

GATES FOR NEW BRIDGE.—The rebuilt Madison-street bridge will have a brand new set of gates at each end. Z. T. new set of gates at each end, Z. T. Clark, the county blacksmith, being busy in their construction. They will be patterned after those in operation on the Burnside-street bridge, and will work on pivots, opening and closing both deck and sidewalk in one operation. Those now in use there can be opened-by anybody, and so people quite frequently pass through before the draw is properly closed, thus before the draw is properly closed, thus endangering their lives and limbs. One set of the gates is already complete.

WANT TO IMPROVE STARK STREET .- A petition is being prepared for circulation asking the council to improve Stark street, from Third to Seventh, by paving it with vitrified brick, laid on the present macadam foundation. It is said that a considerable number of the propertyowners interested are in favor of the pro-

SUBSCRIPTIONS CLOSE TODAY

They Will Determine Whether or

Not Miss Nevada Comes.

Upon the amount of subscriptions re-

ceived today will depend whether or not Portland music-lovers are to hear the great singer, Emma Nevada. Manager Heilig yesterday received a telegram from

Charlos L. Young, Miss Nevada's mana-ger, stating that he must know by today if the subscriptions had been made to the

required amount. The sale, while it has been progressing well, is not quite up to requirements, and unless it comes up to

the standard today the attraction will not be booked. Miss Nevada is in great de-mand everywhere, but the strong effort that has been made to bring her to Port-iand will, it is believed, be successful.

McLauchian, which Chief of Police D. M. McLauchian, which has just been completed. Taken as a whole, arrests during 1899 were less than those of 1898 approximately 600. Relative to other coast cities, Portland's number is quite low. Otherwise the chief's report shows nothing of particular interest beyond the routine of the police department and the expenses attached to the several branches of work. Clerk Rau's annual report of the collections of street improvement and sewer taxes was submitted last week, and is not embodied in the fourth ward, J. P. Kennedy; fitth ward, W. M. The club proposes to take an active part in the approaching state and national campaigns in behalf of republican principles. The meeting then adjourned ted last week, and is not embodied in the present report of the chief, although it will so appear in the municipal reports. Arrests for 1899 numbered 2879. Classi-

fied by sexes, willful man has to his credit 2002 and woman 258. The proportion of females arrested, while always far below that of males, last year was much lower than usual, being slightly more than one woman for 10 men. Students of social problems will find interest in the fact that of the 2870, 905 were of foreign birth and 1985 native hore. 1965 native-born Americans. Miners were represented by 178 juvenile culprits, six of this number being girls. It is the custom this number being girls. It is the custom of the police to give a penniless man lodging in the city jail over night when he applies, especially in bad weather, and last year 222 were accommodated in this manner. From sickness and other causes there were 330 days of absence from duty on the entire police force during the year. As usual, the total arrests were classified with respect to cause, which gives drunk. with respect to cause, which gives drunk-enness the palm again. SEAMEN'S INSTITUTE CONCERT.—The regular weekly concert at the Seamen's institute last night was one of the most enjoyable that has yet been given there. The programme was arranged by M. N. The amount of freight handled at the efferson depot during the year 1899 was 5,232,000 pounds. Local charges on same, \$7122; tickets sold, \$2300. The amount of freight received was larger than the pre-ceding year, but there was quite a short-age in the shipments, owing to the failure of our fruit crop and the fact that a great deal of the wheat has not yet been shipped. The passenger traffic was about the same as in 1898.
