Size of Lens 9 Depends upon the size of face. That's the way I regulate them. A person with a broad, full face looks bad with little glasses, and a child looks bad with big ones. I take just as much pains to have the glasses becoming as to have them fit the eyes. I think just as much about proportion as I do about focus. I want them perfect EVERY WAY.

CONFEDERATE VETERANS. KENTUCKY CONTESTS.

Annual Banquet of the New York Camp-McKinley's Letter.

NEW YORK, Jan. 19.—The 10th annual banquet of the Confederate veteran camp of New York was held at the Waldorf-Astoria tonight, 300 persons being in attendance.

While the dinner was in progress, Mrs. Jefferson Davis was escorted into the center box in the balcony overlooking the banquet-room. She was given an ovation.

The dinner over, Commander Edward Owen proposed the toast "The President of the United States and the Army and Navy." Letters of regret were read from President McKinley, Governor Roosevelt, Mayor Van Wyck and Colonel James Longstreet, of New Orleans.

The cordial feeling of mutual respect and good will existing between the sections of our now reunited country, among all the people, is most gratifying to me. It would afford me peculiar pleasure to express to you on this occasion and give renewed expression to my grateful appreciation of the promptness and patriotism with which the citizens of the South, as well as of the North, responded to the call of country, and of the ever-increasing help they are giving to those things which contribute to its prosperity and advancement, its permanence and influence.

EXPECTED ANY HOUR

The Great Battle in Natal Is Near at Hand.

BRITISH ARE MOVING CAUTIOUSLY

Boers Lining Up to Check the Advance—Nearly 20,000 of Buller's Men Are Across the Tugela.

SPEARMAN'S CAMP, Friday, Jan. 19.—Sir Charles Warren and Lord Dundonald are continuing a cautious advance, hourly expecting battle. There has been slight artillery firing here, but at Ladysmith and at Chevelly. Natives report that the kopjes are full of Boers.

Boers Are Retreating.

LONDON, Jan. 20.—A special dispatch from Cape Town, dated Friday, January 19, 1 P. M., says: "The Ladysmith relief force is steadily working northward. Heavy fighting occurred yesterday. The Boers are retreating."

Where Buller and Warren Are.

LONDON, Jan. 20.—A Durban special, dated Thursday night, says: "His success gives us control of an entrance to Ladysmith. Our guns continue to bombard the Boer lines, the Boers replying but feebly. General Warren is advancing steadily."

Lord Dundonald's Success.

LONDON, Jan. 20.—A dispatch to the Daily Telegraph from Spearman's farm, or camp, as the correspondents now describe it, dealing with Lord Dundonald's movements to the west of General Warren's force, already cabled, says: "His success gives us control of an entrance to Ladysmith. Our guns continue to bombard the Boer lines, the Boers replying but feebly. General Warren is advancing steadily."

Firing at Ladysmith.

LONDON, Jan. 20.—The Daily Mail publishes the following dispatch, dated Thursday, from Spearman's camp: "It is rumored that the Boers have evacuated Colenso in order to reinforce their troops here."

Lord Dundonald Fought the Boers Near Acton Homes.

LONDON, Jan. 19.—General Buller has telegraphed the war office from Spearman's camp, under date of last evening, as follows: "Lord Dundonald, with a body of mounted troops, came into action this afternoon with a force of Boers west of Acton Homes. After the fight he occupied several kopjes, which he is still holding."

Improving the Southern Pacific.

SAN FRANCISCO, Jan. 19.—The Chronicle says: "Now that the Southern Pacific Company owns the Central Pacific, the Kentucky corporation is preparing to expend considerable money in needed improvements on the Ogden Line. Engineer Curtis, of the maintenance-of-way department, states that the company will shortly begin the ballasting of the line between Sacramento and Truckee, and expects that the entire work will be completed before the end of the present year."

Conditions in Puerto Rico.

WASHINGTON, Jan. 19.—Henry K. Carroll, special commissioner for the United States to Puerto Rico, under appointment by the president, has just returned from the island, and has made his report. The report states that Puerto Rico has a population of 1,100,000. The population is generally poor, and the thermometer rarely rises to 100 deg., the highest monthly average on record in nine years in San Juan being 86 deg. The soil is fertile, and the sugar industry is moderately prosperous. The death rate is moderate. The population in 1897 numbered 800,000, exclusive of the Spanish military then occupying the island, and the population today.

Strength of Buller's Army.

Forty Thousand Men Oppose the Dutch Invaders.

LONDON, Jan. 20, 4:30 A. M.—Every hour that General Buller delays his combined attack makes his position stronger. Transport continue to arrive at Durban, and fresh troops are being sent up the line to reinforce those in front of Colenso. It appears that General Buller's troops north of the Tugela number at least 20,000, and possibly 25,000, with 50 guns. His total forces, forming a great outer curve south and west of Ladysmith, probably number 40,000.

THE BOER VERSION.

Crossing Protected by Naval Guns on Zwartkops.

LONDON, Jan. 20.—The Boer accounts of the passage of the Tugela river are given in the following dispatches from Commandant Viljoen's camp on the Upper Tugela, via Lourenco Marques, dated January 19: "January 16—Buller's second move was a reconnaissance in force with an armored train and a large body, supported by cannon, which led to nothing. At daybreak the enemy was located as before. He had not brought a single gun across the river. But from the ridges of Zwartkops a battery and a half of siege guns opened on our position at 5 A. M.

The bombardment was probably the most frightful ever witnessed on land. Frequently five heavy naval guns fired simultaneously at once (en trenchment). The second dispatch runs: "January 17—The night was unbroken, save for slight rifle encounters between outposts, which led to nothing. At daybreak the enemy was located as before. He had not brought a single gun across the river. But from the ridges of Zwartkops a battery and a half of siege guns opened on our position at 5 A. M.
