## CITY NEWS IN BRIEF

MARIOTTAN CIRANTS - "London Life." CORDRAY'S THEATER (Washington street)

PEN SKETCHES OF LUZON.-One of the interesting productions by returned vol-uniteurs of the Second Oregon is a vol-ume of pen sketches by Romeo Gilbert, formerly of company K. Mr. Gilbert is one of the family hailing from Salem who have attained a mational reputation for artistic use of the pen. His service as a private in company K afforded great opa private in company K afforded great opportunities for observing life in Luzon, and his natural taste for art enabled him to select many striking subjects for sketching. The old structures in and about Cavite are fully depicted, and after the regiment reached Manila the ruins and ancient walls of that city gave the young artist countless scenes, many of which are faithfully reproduced. While the Second Oregon was employed in the field, the scope of his opportunities was widened, which is exident from the prison sketch in San Isidro and the picture of Aguinaldo's Malelos headquarters. Chaplain Gilbert and J. Gilmore Hammond have ing superior acquisite properties and better seats than any other Portland auditoter seats than any other Portland auditoters. Aguinaldo's Malolos headquarters. Chap-lain Gilbert and J. Gilmore Hammond have written a preface and descriptions to accompany the sketches.

Game Association the president was instructed to appoint a committee on legislation, whose duty it shall be to arrange
and codify the existing fish and game
laws, make notes of any conflicts in these
laws, and to prepare amendments to them
for final submission to the next logislature, the purpose being to secure the best possible laws for the state, arranged in an orderly and systematic manner. J. N. Teal, the president of the association, has just announced the following commit-tee for this work: A. E. Gebhardt, Milton W. Smith and Joseph Paquet, of Portland; George S. Nickerson, of Klamath Falls, and C. A. Johns, of Baker City. The committee will be very glad to receive sug-gestions from sportsmen and others in-terested in this work.

INCREASED LICENSE RECEIPTS.-All persons requiring licenses for this quarter up to date have come to the front and paid their fees, and those who were deinquent after the 10th have paid the penalty in addition. The amount received for licenses for this quarter up to date is \$35.3%, which is \$2512 more than the recelpts for the entire last quarter. There is a probability that this amount may be considerably increased before the end of the quarter. Owing to the new license ordinance passed yesterday making the license for selling liquors \$400 per year, it is probable that wholesale liquor-dealers who have paid for wholesale and retail licenses at the rate of \$600 per year, will each have \$50 returned to them

Building Activity.-The building business for 1800 starts out in a manner which promises well. So far since New Year's 15 permits have been issued for the ercotion of buildings, the aggregate value of which amounts to \$155,375. Permits have also been issued for repairs to seven houses to cost \$200. The principal build-ings for which permits have been granted are: H. W. Corbett's store at Fifth and Stark, \$50,000; wing of Good Samaritan hospital, \$40,000; Multnomah Amateur Ath-letic Club's house, \$25,000, and section of Southern Pacific Company's car shops, \$20,000. There are several other large buildings under way, permits for which were issued just before New Year's.

Young Men's Republican Club.—A

large open meeting on Lincoln's birthday is being arranged for by the Young Men's Republican Club. Speaking and other exercises adapted to the occasion will be the programme. At the regular semi-monthly meeting of the club, to be held this exercise is now 30 Westerster block. this evening in room 207 Worcester block, at 8 o'clock, the matter will be taken up in a formal manner. This is the first meeting held by the club since election of officers, and several matters are ex-pected to receive discussion. The club is composed exclusively of young republi-cans, the age limits being 20 and 25 years, and an effort is being made to increase

PATING DUTIES.-Duties to a considerable amount on the cargo of the Mon-mouthshire were paid at the custom-house yesterday. Among the articles on which duty was paid was a lot of cases of canned pineapple from Singapore. A shipment of this fruit was received here from Singamatinee Saturday. nore, and found great favor with consumers. There was also 500 barrels of Portland cement from Hong Kong, but whether it was manufactured there or not could not be learned. There was a light in Ibsen's "A Doil's House," ap-lot of coffee from Java, and a lot of bagging from Calcutta. Duty was also paid on a shipment of laces imported direct from Nottingham, England, by a whole-

WAR-TAX STAMPS.-The sale of internal revenue stamps in Portland now amounts only place where such stamps are on sale at present. A leading drug firm did start in to keep them on sale for the accom-modation of its patrons, but has quit, as there was a good deal of work attached to the business, without an lota of profit. The main elevator of the Worcester building is therefore kept busy these days until 2 P. M. carrying stampbuyers up and down. The most general use for the war stamps is for checks and promissory notes. ONLY ONE CASE OF SMALLPOX .- The Pertland pesthouse has but one inmate-Charles E. Corcoran, formerly of Sumper-and his case is a light one, Dr. Wheeler says. Corcoran's partner, who was taken up Monday by way of precaution, was liberated yesterday, but is obliged to report to the city physician daily. The Scandia house has been thoroughly fu-migated, and an eye is being kept on the emises, with a view to taking up any se that may manifest itself. Dr. Wheeler has no fears of further contagion, but will watch progress carefully. VERY EARLY IN THE SEASON.-Spring

chickens are in the market, and can be had at \$1.25 per pair. They are of good size, considering how much shead of the ason they are. They nestle in a corner the coop, and seem disappointed that is not spring, as they did not contract arrive in the winter. Their lives are t likely to be long in the land. #### NEVADA COMING MONDAY.

To Codiff Fish and Game Laws.—At the Bostonians will open their engagement the last meeting of the Oregon Fish and Game Association the president was inple to hear all their operas without missing the great treat of Nevada's superb singing.

The sale of seats to subscribers will begin Friday morning, and to the public Saturday morning.

An Eastern musical critic, speaking of Mme. Nevada, said: "She has but one rival, Melba, but while Nevada has been faithful to the bel canto, Melba has been faithless to her creators-Bellini, Donizetti, Mozart and Verdi, and has turned from the straight and beautiful path to follow strange gods. Melba has declaimed 'Brunhilde.' Nevada, who is 'Amina,' who is 'Lucia,' has never wandered, and would not be 'Brunhlide' if she could. She is a cantatrice pure and simple, the one supremely gifted throat with musical soul to match in millions, and worshipers of the cantatrice may at last have an opportunity of doing her homage without the trouble and expense of a pilgrimage to her foreign shrine."

#### THE BOSTONIANS.

Sale of Sents Begins Today - First Performance Tuesday.

The sale of seats and boxes for the en ent of the Bostonians at the Marquam Grand next week will open at the box office this morning promptly at 10 o'clock. The repertory for the week is as follows: On Tuesday and Saturday evenings, the new comic opera, "The Smugglers of Badayas" will be rendered, followed by Victor Herbert's sparkling comic opera, "The Serenade," as the bill for Wednesday and Friday nights. On Thursday and Saturday matinee, "Robin Hood" will be revived. Profiting by the experience of last season, Manager Heilig has used every precaution to facilitate the sale, and no orders will be received for seats until after the line is broken, "The Smugglers of Badayaz" has never been heard here, and will receive a most complete presentation, with special scenery, and gorgeous costumes. Tuesday night will be an event of considerable im-portance, on account of the special appearance of the composer, Giacomo Min-kowsky, who will arrive here and personally conduct his own opera. The cast will include Barnabes, MacDonald, Bert-ram, Van Dresser, Frothingham, Rushworth, Dunsmure, Bartlett and others.

#### "Sowing the Wind."

There is no play of this generation that appeals to the great public heart more forcibly than "Sowing the Wind." It is one of the most delightful comedy drama; extant, and the lovers of the beautiful in stage art will be glad to know that this popular production will be seen at the Marquam Grand Friday and Saturday evenings of this week. "Sowing the Wind" can be seen several times with pleasure and profit, and hundreds of the best people who saw it on former visits to this city will doubtless take this opportunity of seeing it again. There will be a special

She is supported this season by an excellent company, and has received flattering notices everywhere she has appeared,

#### IN MELODRAMA.

Lurid Play of the Old-Fashioned Sort at the Marquam.

"London Life" was the attraction at the Marquam last night. The play is of distinct melodramatic type, and smacks of "The Streets of New York" and "The Lights o' London," with sufficient heart-rending scenes to sale the most set hypochondriac. The scenic effect representing views of London, with its parks and historic streets, were very fine and were some of the pleasing features of the show, The company presenting the drama wa painstaking. The brunt of the work fell upon Lawrence Grifflith, who took the part of Jack Ferrers, and Meta Brittain as Gladys, the neglected wife, not overooking the clever work of pretty little Nessel Lewis, the clever child actress, Charlotte Wade, as Lady Ferrers, the scheming and vindictive stepmother of the wronged Gladys, was wicked enough to win the entire disapprobation of the gal-

The second route, which traverses the central portion of the country, is by way of Huntington, Granger and Omaha to Chicago. The already famous "Portland-Chicago Special" is operated over this route, and makes the fastest time between these points ever made by passenger trains. The trains are new throughout, and consist of magnificent palace sleep-ers, buffet library and smoking cars, Pullman diners, free chair-cars, and comfortable ordinary sleepers. By this complete service, passengers are enabled to reach the principal cities between Portland and Chicago not only in the shortest possible time, but also in the most comfortable and enjoyable manner. ### CHILD RAN THE ENGINE

WAS ALONE ON WILD LOCOMOTIVE SEVEN MILES.

Three-Year-Old Son of Engineer Evans Rode Motor From St. Johns to Albina.

"I can run an engine like papa," said little 3-year-old Fred Evans as he was litted down from the locomotive of the St. Johns motor line yesterday at Albina. He had mounted the engine at St. Johns pulled open the throttle and remained on the seat alone on a mad ride of seven miles. The young engineer is the son of W. B. Evans, of St. Johns, an engineer on the motor line. He had often been on the engine, and his father had explained to him how the lever is pulled and the wheels started moving. The engine iles over an hour at St. Johns, just by the water tank, and during this time yesterday, while Mr. Evans was at home at lunch, little Fred walked down to the engine, mounted the seat and opened wide the throttle. The machine was full of coal and water, and was ready for the road. Several people saw the boy start, but no one was near enough to catch the engine. The news was at once told to Mr. Evans, and he reached the track just in time to see the locomotive, with his boy on board, disappear around a curve-The father was wild with grief and fear, and the boy's mother was almost pros-trated. The news spread like wildfire, and the whole town turned out. Excitement was intense, women and children cried and men offered suggestions. Master Mechanic Michael F. Brady was at that end of the line and at once began to tele-phone to stations along the line. Portsmouth and Peninsular were notified, and men at these points tried to board the engine as it dashed by, but its speed was too great. Mr. Brady also notified the of-fice at Albina, and a party of men ran out the line northward to meet the wild engine. In coming up the long grade toward Albina, the steam had died down a little, but the register still showed 80 hand rall and swung up, but in doing so he was dragged 60 or 75 feet. He at once turned off the steam, and the engine slowed down and stopped. It was then young Fred made the remark concerning his ability as an engine-driver.

The boy was not scared at all, but seemed rather proud of his feat. When the engine first dashed out of St. Johns he was frightened, and as he came through Portsmouth like a shot out of a gun he was yelling lustily for "mamma."
After coming several miles, however, he
again became brave and held his position
on the seat with composure, with his hand

on the lever, like a veteran.

The engine was stopped in front of the home of Dr. Davis, on Commercial street, and was quickly run back to St. Johns by Mr. Woods with the boy Fred still on board. Mr. Woods said his success in boarding the engine was a surprise to him, as well as to every one else, as its speed was still considerable. The engine had made the run from St. Johns to Al-bina in less than half an hour. In the meantime the news of the rescue had been sent by telephone to the fright-ened parents, and for the remainder of the day there was great joy in all St. Johns.

## EAST SIDE AFFAIRS.

Extending Railroad Track to the Doernbecher Factory.

For the use of the Doernbecher furniture factory a switch connected with the O. R. & N. railway will be extended through the site and near where the main buildings will be located. The ground is about ready for the buildings, and the switch is needed so that material for the buildings may be hauled to the ground. There is no other way to get it in there, as the road on the north side of the guich has not yet been completed, and the ground is too soft to use wagons over it. The switch will extend through the ground, and will interferred somewhat with getting the ground in order, but with more favorable weather the place will soon be in shape for the buildings. It is expected that the contract for the erection of the buildings will soon be let.

New Creamery at Pleasant Home. Mesers. Kern and Sears were at Pleas-ant Home this week looking over the ground for a creamery site. They have the promise of milk from 260 cows, and, with this inducement, are contemplating the construction of a creamery in a short time, if they succeed in purchasing a site on the main road. The surroundings are especially adapted to the establish-ment and carying on of a creamery, and the venture will doubtless prove success-

All Clubs Have Elected Delegates. All the East Side republican clubs have elected delegates to the state republican league, which meets February 12. These clubs are the U. S. Grant, Mount Tabor, Sunnyside, Union, Multnomah and the Tenth and Eleventh ward clubs. These clubs filed with Secretary J. P. Kennedy lists of the members. There are several other clubs which evidently have passed out of existence and will never be heard of again that were active at the last elec-tion. They will not be missed.

From the Union Republican Club the following delegates have been appointed to attend the session of the state republicaleague convention: H. C. Smith, C. A. Cogswell, George Williams, L. H. Wells, J. B. Easter, J. L. Wells, C. N. Rankin, S. R. Mason, Charles B. Bartel and Joseph The Multnomah Republican Club has se

ected the following delegates: E. S. Ferguson, Joseph Reising, Edward Botsford, Chris Bell, Joseph Buchtel, Charles Neale,

East Side Notes.

W. W. Terry and wife have returned from their visit at Aurora, Ill., where they spent several weeks. While East Mr. Terry attended a family reunion of the Terrys at Aurora, where the differ-ent members of the family gathered from all portions of the country.

The school meeting of district No. 18, Montavilla, will be held this even-ing at the schoolhouse, for the purpose of levying a special tax for paying interest in bonds and meeting other expenses, According to reports, the district is in good condition, and a small levy only will be required.

#### LADIES' BASKET BALL.

That the up-to-date athletic girl does not intend to be kept in the background is evident from the announcement that the basket-ball teams of the Y. M. C. A. and Turners' ladies' classes are to meet on the basket-ball field of the Y. M. C. A. Friday night and battle for supremacy. This promises to be one of the most interesting events of the indoor athletic season. Admission, 25 cents to every one.
