NI YORK Jan. 30.—The stock market thread its inthary and incrinces today in a versupressive manner. There was quite an active manner for stocks from the start in the tree of buying orders accumulated over nightand the demand gathered volume and unser pretty steadily throughout the day. There was see considerable at some points as to be profit-taking, but offerings on this accounter absorbed with each confidence that the log soon coased, and the market closed with upward course of prices and burst of the log soon ceased, and the market closed with upward course of prices and burst of animon at the best prices of the day. Althou there was a substantial increase in whathall street calls outside interest, the mar must still be described as largely professil. The strength was also to a great extensity; that is to may comparatively few man. The strength was also to a great misportry that is to stay, comparatively few their groups of mooks rose buoyantly, while he is part of the list moved in a more se-facturer, but still upward.

There is a good demand for po-tation at the best prices of the season, and the omion market is booming. There was a large demand from an eager short interest in Sugar, and the prevailing cold of coalers. In the saliroad list the grangers and all the Pacific and Southwestern stocks were in notable demand, but the whole list was strong. The only thing to account for the sud-den drop of Hig in Pittsburg, C., C. & St. den drop of 11% in Pittsburg, C., C. & St. Louis was a report of a new Pittsburg-Chicago line in contemplation. Chesspeake & Ohio was heavy, perhaps in sympathy. The first two hours of trading recorded as many sales as the recent average for a full day's business. While the market is still largety professional, the callber of the operators as obviously much heavier than those recently in evidence, individual transactions of 1000 shares and upwards

Arming Its Enemies. New York Evening Post. The fact must now be accepted that the McKinley administration contemplates TOUR CASE—FREE OF CHARGE. WRITE. the possibility of defeat for the republi-

ger. The amazing feature of the situa-tion is that nobody, in the inner circle sees either the real cause of the danger or the true policy to adopt that it may be averted. Whence comes the chief ammunition used by the democratic agitators? The most effective woons have been forged by the familiar friends, the authorized representatives, the special champlons of the president himself.

Mrs. Craven's Case. SAN FRANCISCO, Jan. 30.-The Exam-

iner today says:

A speedy settlement of Mrs. Nettle Craven's litigation against the Fair estate, it is believed, would follow a decision by the supreme court annulling the trust clause, by which the late Senator James G. Fair mpted to put the bulk of his estate beyoud the immediate control of his children, Charles L. Fair, Mrs. Herman Oelrichs and Mrs. W. K. Vanderbilt. Upon representations that such a result might be brought about in the event of a decision by the supreme court invalidating the trust, Judge Troutt has postponed, until February 12, the trial of Mrs. Craven's claim, to a family allowance, as the widow of Senator Fair. Attorneys for the Fair children assent to the suggestion that they listen to a suggestion for a compromise The attorneys for Mrs. Craven say that she expects to receive one-third of the estate.
