NEW YORK STOCK MARKET.

Considerable Hardening Apparent, in Spite of Extensive Profit-Takag. NEW YORK, Peb. 5.—The stock market today was witches, Neb. 5.—The winck market today was subject to a notable process of dipestion, and came through the ordeal remarkably well. Stocks which were landers in activity and strength during the movement of has week were heavily sold to take profits. The profit-taking was met by a strong outside demand, and offernam were absorbed with little difficulty and without any material concession in price being made brocessary. Indeed, any approach in prices to Saturday's level resulted in a hardesting in the market, the surface becoming practically surjecting at Saturday's coming practically unriching at Baturday's level. Offseluge of exact well to a minimum, and buyers, in order to secure sirela, were chigged to raise their bids to a point to yield practic to the sellers on their last week's purchasses.

While professional operature were thus taking profits at some points in the list, they were replicitud their funds in other stocks, which had not moved inst week, or in which the movement had been only insuranted. Thus, with trailing proceeding at an active scale, and the movement for prices taking on a considerable dagree of irregularity, the market presented all the characteristics of a true bull movement. Upward movements in prime were easily achieved, and the speculative sentiment showed itself quies to respond to any new developments regarding special stocks. Thus a number of milroad stocks responded quickly and emphasically to returns of earnings for the fourth week it January, snowing large increases over the high level of last year.

The leaders of the railroad list were the Northite of Western stocks, the fourth week statument showing an increase of \$120.556 ever last year. As this is one of the roads which by reason of previous heavy outlags is able to return the

sensil group closely allied by identity of owner-ship moved in close sympathy. American Roop and Tin Pinte are this class. Republic Steel, the Smelting stocks and Ameronda were also strong. Speculators are inclined to discount to some extent the increase in the ofreulation involded for in the financial bill in congress, and in consequence ignore some of the indica-tions of encroschiment on the money supply on white account. The market closed active and ther accounts. The market closed active and strong at the best prices for many stocks. The bond market was irregular and not so active as of late. Total cales, 82,708,500. In government bonds, old 4e, new 5e and the Se advanced is per cent in the bid price.

TRADE WITH AUSTRALIA.

American Competition Is Stendily Increasing in That Market. The following report, by the Sydney correspondent of a London trade publica-tion, upon the steadily increasing con-sumption of American products in Aus-

sumption of American products in Australia, should be pleasant reading for our manufacturers:

American competition in the Australian market is steadily increasing. The Mowers, of the Australian-Canadian line, arrived in Sydney harbor yesterday (September 19), bringing the following as portion of American cargo from Vancouver: Twahundred and forty-eight cases of drugal mostly patent medicines; 44 cases of typewriters and supplies; 9 cases of dental goods, 40 cases of boots and shoes, 125 cases of machinery, mostly for agricultural and mining purposes; 41 cases of bloycles in parts, 82 barrels of beer, chiefly lager beer; 55 packages of scales, 28 packages of rubber goods, 261 rolls of newspaper, 12 planos, 14 organs, 179 bales of cotton, 660 crates of onions, 2000 sacks of flour, 125 cases of tinned salmon, 21 cases of fencing material, 60 cases of preserved ralia, should be pleasant reading for our

of fencing material, @ cases of preserved cream, 76 packages of sundries.
With respect to patent medicines, the
New South Wales imports show a decline in consequence of the increasing sale of locally manufactured articles. Typewriters remain, as formerly, an Amelican spe-cialty. In dentists' tools and materials. Great Britain and America have at times run each other pretty close. In 1897, the value of the New South Wales imports

were: This is exclusive of re-exports from the other colonies.

In boots and shoes the imports were as follows: 0 1887, 1886, United Kingdom 1856, 457, 00 386, 888 00 United States 218, 220 00 386, 239 00 Germany 197, 530 00 82, 570 00 France 9, 198 00 8, 832 00 Austria 6,471 00 12,565 00

These figures show the energetic manner in which American manufacturers are pushing their goods in the Australian market. The American supplies of ma-chinery show a slight increase, chieffy in agricultural implements. In printing pa-pers, the imports from America are in-creasing and those from Great Britain

are decreasing, the figures being: Country 1887, 1898, United Kingdom 2385, 436 00 3316, 416 06 United States 226, 427 00 37,781 20 Germany 46,479 00 25,519 00 In the latter year, Japan entered the field, her initial shipment being valued at £20 (877 20. The imports of orions and flour are being used as an argument in favor of a federal tariff on a protectionist tests, both potatoes and flour being Australian stanle products.

Featherweights Fought a Draw. NEW YORK, Feb. 5.—Kid Brand, of Cleveland, the featherweight pugilist, whose recent successes have placed him in the front rank of his class, was unable to get a better decision than a draw with Eddie Lenny, of Philadelphia. The boys met in a 20-round hout at 124 pounds in the ring of the Hercules Athletic Club, in Brooklyn, The contest was one of the fastest held in this arena.
