

With the winter muson nearing the close and the end of the month also near at hand, trade per pound. conditions lain week were not the most favor-the Allinei ducks, \$3; widgeon, \$1 50mpt, the all for the month also near at hand, trade but, all things simuldered, there was not much cause for complaint in this market. America, 14c per peund. Wheat went off with a jump in the East toward the end of the week, and the local market was affected sympathetically, so that solling came almost to a standstill. Portland exporters, wever, have been kept reasonably busy cleanand used and hashness, and during the work \$12.35 per case; Arbuckle's \$14.25; Lion, whent' and flour cargoes were shipped to Eu-supe. Arrios. Elistic and the Orient. The market for pointows has not yet estiled after the weakness managed by heavy abipments of frast-biliter, and generally poor stock to Call-formis, and all through has used reices were shipped to Euformia, and all through last week prices were weeka Hereipis continue very heavy, how the preportion of choice upland stock is much amalier than it was earlier in the season. A good local demand, together with some heavy orders for shipment to the verite by

may orders for shipment to the north, has Invery orders for shipment to the north, has kept the market for onions about 25 to 55 cents per cental above the San Francisco mar-ket, and, owing to the poor keeping qualities of the stock produced her year, the situation is guite firm. A few makes of hope were reported is guite firm. A few sales of hope were reported last week, the association discosing of a small iot at a price reported in the neighborhood of 6% cents. Funcy stock is very searce in Orsgib at present, but there is an apparent limited amount of inferior grade hops, which have a tendency to clog matters. Receipts of apples last week were very heavy, and prices weaksned slightly, hardly anything selling we \$1.60 per box, with much stock that was offering going at \$1 and \$1.25 per box. Oranges continue plentiful, and there are enough bunutan coming slong to meet all demands. Hothouse vegetables are commencing to arrive,

some from near-by hothouses, but the greater part of it from California. During the week the egg market took another plunge downward, and settled at 15 cents at close of business Saturday, with some

dealers offering to clean up at 124 cents. Butis still holding up well, in spite of a weak markst in San Francisco. Receipts are increasing elightly, and the top price of the season has already been reached. Pork and yeal closed the week strong at full quotations, and

outer cleaned up better than mount, leaving he market in good shape for the coming week. WHERAT-The wheat market opened up last

week with some avidence of life and snap, but then the Argentine elilpments for the week come to hand, there was a violent reaction. its from that country of nearly 2,500,000 bushels were decidedly confirmatory of all the reports of a big surplus, which have been ning to hand ever since the harvest started in the territory of this country's most formidtitor. The foreign market for some unknown reason did not exhibit as much alarm. these big shipments as was shown in Chicago, but there was still a lose shown, and local exporters took another rest in their There is still a wide range of prices in Portland, however, and on Saturday me dealers were quoting 56 cents for Walls. Walla, and 53 cents for Valley, with others ing utter indifference to doing any busiame at a cent under these figures.

The freight situation is still ruling firm, with owners showing no inclination to allow the freight market to be affected by a decitoe in wheat. Very little new lastness came to light just week, and until there is a freer selling rement of whost, charters for immediate or near-ly business will be very few in number. Crop conditions continue favorable, and there are good reports coming from California, where not long ago there was some mingivings ex-

present over lack of rain. The foreign crop dition is undisanged. The Corn Trade News under date of February 7, gives the following statement of the stocks of wheat at the prin on the date named; Feb. 1, 1800.

REV. DR. N. MOSESSOHN. New York Herald. Since 1855 the egg traffic has before the egg that in New York City alone it amounts to over \$1,000,000 annually. The reason for the sake of trumping the valor of their Christian piety, kindle the fues of enmity between manklind; but to read such sermone-sermons based on un-truth and founded on ignorance-1 neve expected. To prove the great blunders Rev. Mr. Rasmus made in his assention that 'fash-ter to do God and brotherhood of man' is impossible outside of the religion of Christ I and has assention that 'fash-ter the principally from the West. The rest of the country eats eggs in the Same pro-portion, and chough the United States pro-dures 10,000,000,000,000 eggs yearly we are compelled to import annually 11,000,000 dozen from Canada, Spain, Italy and eyen from far-away China.

To prove the great blunders Rev. Mr. Rasmus made in his assertion that "fath-erhood of God and brotherhood of man" is impossible outside of the religion of Christ, I find it necessary to refer him to the following facts: The pipposs of the Nazarene's coming-"Not to send peace, for I came to set a man against his father, and a daughter against her mother-in-inw" (Matthew x34-35); "Sup-pose ye that I am come to give peace on earth? I tell you. Nay, but rather di-vision" (Luke xil:5i)-does not look like a sermon of brotherhood of markind. Though we find many instructions and commandments of the Nazarene to the contrary, yet which of those two policies contrary, yet which of those two policies did the Christian world foster-brother-hood or enmity? In what light did and do the Christian theologians of the yart

do the Christian theologions of the Yur-cus sects look one upon another? How did the Catholic treat the Protestant? Can we notice there the brothschood of mankind or the fatherhood of God in-side the religion of Christ? What about the rivers formed of innocent human blood shed in the name of the religion of love for the last 10 or 12 centuries? For example, England, from the time of Eghright, the Archbishop of York (780 A. D.), down to William III (1896); France from Clotairs II, who murdered his own mother, down to Louis XIII; Germiny from the time of the sealous Crusaders (1968) down to Gerceory XIII (1839); Aus-tria from Frederick I (125D) to Emperor Joseph II (1752); Italy from Vatican Bens-dict VIII (1012) to Plus IX (1846); Spaln from the missacre of the Jews in Granada (December 30, 1065) down to Ferdinand and Isabella (1460). Did those Christiana, Inside of the religion of Christ, follow ous sects look one upon another? How about the 15th of May. For rates and full information apply to

Haide of the religion of Christian, His moral lesson expressed in Matthew wild. "But I say unto you, love your enemies, bless them that curse you Were not those moral teachings replaced by earnity, hatred and murder of inno-cent people? Looking backward in the history of Christendom, ean we conceive the idea of the protherhood of mankind

Inside the religion of Christ? What to the "fatherbood of God"? I
