had, he said, set up a bogie for campaign purposes that they were bound to make the most of.

"This, in his inimitable sing-song manner, the Illinois member drew out to the opposition's arguments against the Administration's policy in bringing the 30 tribes of barbarians, the Sultan of Sulu and his wife, the negroes and the Malays to the alleged violation of the Constitution, the \$20,000,000 paid for the Philippines, and other arguments which Cannon styled bogies set up to scare the people. His recital convinced the House and set the members in an uproar of applause.

Continuing, Cannon again referred to the constitutional argument and declared that the Republicans meant to show the world that the United States could be practical under its Constitution. In conclusion, he said all the Democrats, misgrumps and Populists are saying, "My God, don't fracture the Constitution. Stand by the President."

Bailey Against the Bill.

It was then arranged that the remainder of the debate should be devoted to the bill.

and the consideration of mankind. (Applause on the Republican side.)

"No man," he went on, "should have voted for the appropriation to carry that treaty into force who had not taken the manifold resolution to shoulder the infinite responsibility which it laid upon his country."

He denounced in scathing terms a man who would seize a miserable opportunity to harness the Government for political purposes. Yet, such a man, leaving his uniform in Florida, had hastened to Washington to rally his supporters for the ratification of the treaty in order that he might subsequently turn it to political account. In the heat and dust of the coming campaign, he said the moral characteristics of such a man would not escape the attention of the American people.

tailed that from 1855 to the present time not one case could be found in support of the contention of Quay's supporters.

"It is impossible to find in all the records a precedent for the action against Turley. This being the only body which can construe this particular clause of the Constitution, were we to say in 1886, when Mr. Corbett was knocking at the doors of the Senate, that the purpose of the bill was to give Mr. Quay a knocking at the doors, another thing?"

After Teller (St. Rep. Colo.) had made an explanation of his vote in the Senate and had declared his purpose to stand by the Senate's action in the Corbett case, the Quay case was laid aside. Penrose gave notice that he would call it up tomorrow, and every legislative day thereafter his intention being given was only to the consideration of the conference report on the financial bill, which is privileged.
