COMMERCIAL AND FINANCIAL NEWS

Testerday was a hard day on the produce markets in some lines. The spring weather marced in some lines. The apring weather seemed to put's damper on prices, and poin-toes, butter and eggs slid off to "summery" prices. The San Francisco market is tem-porarily glutted with pointoes, and buyers in this territory have reduced their figures, so that nothing was selling restering above 70c, and some dealers were quoting 65c as the top. Bage sold down as low as 11c, with single-case lots selling at 112/5012c. Stocks are so large that it is feared that the market will go to A few of the select brand > of creamery still bringing 55c, but most of the v dropped back to 50c, and stocks are accumulating, on that lower prices must prerail. Aside from the weakness in produce. was unusually good yesterday, then being considerable buying by local retailers, as well as a good trade with the country.

News reports from over the water would indicate that the Britishere felt me indifference as to whether there was day reached nearly \$7,000,000 today. In spite of such a thing as a wheat market, everything abroad being closed up except the bottles. The East worbled around a little, and at one time for down to 64% for the May option in Chithe March disburgements, both for absorption and Government account, it is realized that this must have a marked effect on the showing of the banks in the coming weekly statement. No effect was manifest, however, in the day's money market. The bond market was active, and prices were cugo. There was so little business doing in the local market that quotations are to a large extent nonlinal. Some dealers abortened their limits to 52c for Walls Walls, but 53c well maintained. wiy until near the end. The report that 46 boutloads had been taken for export advanced May to 65%c before further houses, which have been growing in volume for a number of days past, fell to insignificant proportions. There was, however, a good de-mand early in the day for railroad stocks, based on the continued reports of large earnings for January. In spite of the high level of operating expenses. The great Pennsylvania system showed a gain in het earnings for January of the lines operated, both east and west of Pitts burg, of 75 per cent. The Chicago, Burlington & Quincy, with only a small increase in oper sting expenses, showed an increase in net earn-iugs of no less than 172 per cent. The C., C., C., C., C. & St. Louis system increased its surplus for January over ten-fold, and the Louisville & Nashville net earnings were 46 per cent greater this has year. Such notable growth in earn-ing power naturally led to buying of railroad stocks, many of the less prominent stocks join-ing in the movement; but the whole list suc-cumbed to the influence of the weakness in the specialties. St. Paul's statement for January also had a discouraging effect, as it showed the gross increase nearly all esten up by additional operating expenses. The decision of railroad

providents to give official annotion to the polori-

ous cutting of grain rates from Chicago had some influence on the railroad list. London was a liberal buyer of stocks during

NEW YORK STOCK MARKET.

Tone Was Generally Weak, Except for a Few Railroads.

NEW YORK, March 1 .- The stock market reflected from the outset today the reduction of the unwieldy short interest by the large cover-ing which took place yesterday, and which caused as lively a rally at the weak spote of the market. Practically all these stocks showed renewed weakness today. Third Avenue comple-uously so. This stock fell in the last hour to a new low level, a full paint below yeatering's lowest, and railied but facibly, closing with a Oats-Gray, Oregon, \$1 075001 12%; milling, \$1 1561 17%; red, \$1 12%01 20.
