COMMERCIAL AND FINANCIAL NEWS

Dusiness was rushing in the wholesale dis-tices vesterday, orders from the country pour-ing at a highly gratifying rate. The Califor-tia steamer brought up a liberal consignment of garden truck including pear, beans and cu-cumbers, and the distribution of this made mat-tured lively among the commission houses. Potathe were dull and heavy, and sales were made at low prices for some of the poorest stock. Eggs were very weak, with sales at 11612c. the latter figure for single-case lots. The wheat market was weak abroad, but there was some Poultry sold well yesterday, and prices are ruling firm.

NEW YORK STOCK MARKET. Threatened Metal - Workers' Strike

Affected the Entire List. NEW YORK, March 2. The stock marks falled to show any positive strength at any time furing the day, and in the late dealings the whole list yielded to bear pressure on the hew of the threatening aspect of affairs among the metal-workers in Chicago. The loss of Iron and steel stocks yesterday, which was due to large seiling orders on Chicago account, was thus explained. The bears were busy in this group of stocks all day, and supplemented the news of the labor troubles with many vagues rumors of a purpose to defer dividends, which have hitherto been foretoid on more or less re-liable authority. Reports were circulated also ized to compete in this industry. As the re-mult of this pressure, the majority of the stocks in the group were depressed 25 to 3 points. The character of much of the selling was made obvious by the sharp railies on hear covering, American Hoop, Tennessee Cosi and National Steel recovering from 2 to 3 points at different times. Sugar was subjected to heavy selling all day, which was without other explanation than the continued doubt over the planation than the continued doubt over the par, for the first time since the summer dapres-sion of 1896, incident to the National political campaign, and fell further to 96%, rallying feveriahly, and closing unsteady at a net loss 64. Third Avenue suffered from additional liquidation incident to fears of a heavy assessment, fell an extreme 4%, to a level almost 20 points under the high price of February of last year. The stock railled sharply, and was well supported during the latter part of the day People's Gas was raided on the report of the rejected proceedings against the legality of

also notably affected. The later rally on bear covering reduced the net losses of the rallroads to a fraction, except in the cases mentioned. There was disappointment that London did not respond with greater enthousiasm to the news of the relief of Ladysmith by buying specks. The disposition there was to realize, and London was a small seller here. The prospect of a heavy decline in surplus reserves in the bank statement induced some selling, but the preliminary estimates of the cash move-ment by express indicate a small net gain on the interior movement. This is attributed to the interior movement. This is attributed to shipments by interior banks to New York for the purpose of buying Government bonds. But the gain on this account is quite insignificant, compared with the week's losses by the banks to the Subtreasury, which have amounted to \$7,498,000, thus making inevitable a further decline of several millions in the surplus reserves of the heavy.

serves of the banks. The bond market was rather dull, and price yielded in sympathy with stocks. Total sales \$1,035,000. United States is declined in per cenin the bid price.

THE HOG MARKET. Prices Have Ranged Higher Than

for the Past Five Years. CINCINNATI, March 1,-The Price Curren

The closing week of the winter packing season has witnessed a fairly liberal marketing of hogs for the time of year, the returns indicating a total of 490,000 for the Western slaughterers ompared with 475,000 the preceding week. For the corresponding time last year the number was 415,000. From November I the total, ac

was 415,000. From November I the total, according to preliminary returns and estimates, is \$675,000. against 9,1720,000 last year. The quality has been holding up well.

With the single exception of last year's high record, the season now closed shows a larger number of hogs killed in the West than in any previous winter. The average cost of hogs appears to have been 80c per owt. higher than last year, or about 22 per cent, and the highest period for five years. The season has favored feeding operations, and has been more than usually free from sickness among ewine.

For 12 months ending March 1 the total Western packing represents 22,200,000 hogs, against 22,650,000 for the preceding year.
