Senate Adopted Conference Report on Financial Bill.

LITTLE INTEREST WAS SHOWN

Speeches Gave Out Before the Time Came to Vote-Contest Case in the House.

WASHINGTON, March 6 .- Not probably in the history of the Senate was there ever shown so little interest in the final vote on a great measure as was manireport of the financial bill. The report was before the Senate for nearly two weeks, yet only four speeches were delivered on it, including Aldrich's explanation of the changes made in the Senate bill by the conference. Today's discussion ceased on the bill 15 minutes before the time fixed for the vote, and the Senate actually bethe calendar to consume time. The conference report was agreed to by a vote of 44 to 26, the report thus having a majority

THE DAY IN DETAIL. Close of Debate, and Vote on Finan-

cial Bill in the Senate. WASHINGTON, March 6 .- At the open

ing of the Senate session today, Hans-brough (Rep. N. D.) reported a House joint resolution directing the Secretary of the Interior to place under bond the mammoth tree grove and the South Park Grove of big trees in California, the idea being that the Government shall acquire the groves. The resolution was adopted. At the conclusion of the morning business, Simon (Rep. Or.) called up the resolution on the seating of Quay. He ad-dressed the Senate in answer to a speech of Carter (Rep. Mont.), delivered yesterday, in the course of which the Montana Senator adverted to the reasons which in-duced him to vote against Corbett, who was the appointee of the Governor of Oregon. He said Carter made the distinctive charge that Corbett had corrupted the legfoliature and defeated the desire of the people of Oregon. He could not, he said, per mit this "unjust and untrue" charge to go unchallenged. Simon directed attention to the fact that Mr. Quay, as a member of the Senate, was paired against Mr. Corbett, and said, on principles of justice, Mr. Quay should be estopped by his paired

vote against Mr. Corbett. Carter replied to Simon's statement. He had not spoken with a view of making a personal assault on Mr. Corbett. He said:
"I assigned as a reason for voting against
Mr. Corbett the belief I entertained then and which I still entertain, that the pro-ceeding in Oregon of the Legislature was revolutionary proceeding, to which Mr.

Corbett was a party."

Carter then had read a letter discussing the situation from George C. Brownell, chairman of the joint assembly of the State of Ore-in. He followed this letter with the assertion that Mr. Corbett and the Governor of the State were in the combir Mon not only to defeat Mitchell, but to elect Corbett. The latter's entire effort, he said, was to prevent the organization of the Legislature in order that he might secure the appointment.

Scott (Rep. W. Va.) introduced a reso-ution authorizing the President to govern the Philippines until Congress shall otherwise provide, A bill was passed for the erection of a

lic building in Wheeling, W. Va., the cost not to exceed \$29,000.
Allen (Pop. Neb.) then addressed the

Senate on the financial bill. He did not suppose it would be denied that the adop-tion of the gold standard was a gross violation of the Republican policy, as enun-ciated in the Republican platform of 18%, nor would it be denied, he thought, that the Republican party has made no honest effort to bring about bimetalism. Aldrich (Rep. R. I.), chairman of the

finance committee, said: "I will interject into the Senator's remarks, with his per-mission, a denial of every statement he has made, and the probability is that at the conclusion of his speech I can enter the same denial."

Later, when Allen declared the bill re quired the payment of all debts, public and private, in gold coin, Senator Aldrich entered a straight denial, and did the same thing when Allen asserted that it conferred unlimited power for the issuance of bonds. Allen retorted that the whole measure reduced every contract to the gold standard. He especially attacked the measure because of favors which he said it ex-tended to the National banks. The pend-ing bill would be more far-reaching in its blighting consequences than any measure he had ever known, and its enactment would be a terrible calamity to the people Addrich briefly replied to Allen, denying that the measure extended to National banks any additional privileges. Briefly, there was not the least danger of infla-tion by the issuance of National Bank currency under the provisions of the pen The entire amount possible to be sed by the banks would be \$505,000,000. an increase of \$360,000,000 over the present

National Bank currency.
Aldrich then asked Butler (Pop. N. C.) if he and his party still favored the free colnage of silver at the ratio of 18 to 1 Butler, not answering directly, Aldrich charged that the Populist party had abandoned the free colnage of silver. But-ler protested against this version of his

PACIFIC CABLE BILL. Senate Committee Authorizes a Pa-

vorable Report. WASHINGTON, March 6.- The Senate committee on naval affairs ordered a fa-vorable report upon the bill to construct a cable to Manila by way of Honolulu, Midway Islands and Guam. It is to be under the direction of the Navy Department, and to be a Government cable,

Senator Hale, chairman of the comtee, was authorized to prepare a bill and report it to the Senate. The bill will provide for the immediate construction of a cable only from San Francisco to Hono extension of the cable to the Philippines and also to Hong Kong. It is estimated the cable to Honolulu will cost between \$3,000,000 and \$4,000,000.

The House Bill.

WASHINGTON, March 6.- The House committee on commerce today ordered : favorable report on the bill for a Pacifi cable connecting this country with Ha-wall, the Philippines and Japan. The measure has been under consideration for a long time, and two sessions were held today in order to bring the matter to a conclusion. The bill of Representative Sherman is the one favorably acted on with a number of amendments. This will provide for private construction of the line, the Government paying \$300,000 annually for 30 years for the transmission

of messages. The amount of this annual payment was the last question decided. The origina provision was for \$40,000, but after extended discussion, the reduction to \$300 000 was made. The committee had pre-viously inserted a clause that the cable be of American make and the cable ships

of his office, a man on horseback rode up fined to the annual payment of \$300,000.

of Miss Elida Wilbur, the San Francisco Sleeper.

SAN FRANCISCO, March 6 -After tw years of unconsciousness Miss Elida Wil-bur died today. In February, 1898, Miss Wilwith the gas turned on. She was lying on a sofa with a novel in her hand, and it was at first supposed that she had committed suicide, but an investigation dis proved this supposition, and it became known that she had fallen asteep while reading, and that a gust of wind had ex-tinguished the light, leaving the gas to escape into the room and rob the young lady of her senses. The usual remedies were applied, but the doctors could do nothing toward reviving the girl. The best physicians in the city were called, and every known means of restoring consciousness were applied, without result.

The girl retained in a great measure her former beauty, and to all appearances was but in a pleasant sleep. She was nourished and watched as an infant, and a few weeks ago was removed from the city, with the idea that a change of air might have a beneficial effect. Her friends and nurses were rewarded by brief, very brief, periods of consciousness, and o or twice she spoke, and it is said that her words were these: "No one loves me now." Sometimes she would start up and to all appearances was about to speak, but the expectant watchers were doomed to disappointment. She uttered no audible sound and appeared to be staring into space. She recognized no one, not even

her mother Later she was removed to her California-Street home, and it was thought that she was gradually recovering from her re-markable trance, and that she would renew the useful and beautiful life which to all intents ended on that fateful February, night in 1886, but all hopes for her ultimate recovery were shattered to-day, when she passed peacefully away without having recognized those who have spent so many weary and heartrending moments watching by her bedside.

SOVEREIGN

Testimony of the Ex-Master Workman of the K. of L. Before the House Committee,

WASHINGTON, March 6.-Before the Coeur d'Alene investigation was resumed today, the House military committee held an executive session and decided not to call on the President for the affidavits filed with him relative to the conditions in the mining country under martial law. This decision was due to some question as to the right to make such requests of the President, and more particularly be-cause the affidavits were not considered legal evidence. Andrew Devlin was the first witness today. His evidence was directed to show-ing that orderly conditions prevailed, and that the local authorities could have dealt with the situation without resort

to martial law. James R. NAVAL CONSTRUCTION. Provisions of This Year's Appropria-

tion Bill. NEW YORK, March 6.-A special to the Herald from Washington says: Provision will be made in th t

year's naval appropriation bill for in ick muddy. The results were year's naval appropriation but to a construction programme fully equal 1 ive and a half furlongs, senting fan to the expectation of the friends of the service. The bull will probably be reported by the House committee on naval affairs before the end won. El Mido second, De Bauss thid; mittee on naval affairs before the end of the present week. It is still subject to change, but as it stands it provides for two large battle-ships, three armored cruisers of 13,500 tons displacement, three protected cruisers of 8091 tons displacement and four gunboats of 1900 tons displacement.

The committee has not yet fixed the size of 157.

200 tons displacement.

The committee has not yet fixed the size of the battle-ships, but they will probably be 14,500 or 15,000 tons. The armored cruisers are to have high speed and large coal capacity, with the heaviest armament possible to be carried on vessels of their type. The three protected cruisers are to be improved Olympias. The gunboats are to be designed with special reference to

their use among the Philippines.

In deciding to provide for armored cruisers and protected cruisers, members of the committee were largely influenced by the recommendations of Admiral Dewey, who declared armored cruisers superior to battle-ships in many respects, their inferiority in armor and armament being more than compensated for in his opinion, by their greater radius of action, and their speed greater radius of action, and their speed and maneuvering qualities. He said that he would be willing to fight such an ar-mored cruiser as he recommended against any battle-ship. Admiral Dewey's ex-perience with the Olympia and the other protected cruisers in his squadron at the battle of Manila led him to recommend the construction of similar vessels as the Olympia but with larger displacement, so

as to admit of their carrying heavier bat-teries and more protection for their guns. No final decision has yet been reached as to the armor for the new vessels and for those authorized in former bills, but it has practically been decided by the com-mittee to provide that they shall have the very best armor obtainable, and to inage the limit of cost to \$545 per ton Last year's bill fixed the limit at \$400 and the Secretary of the Navy has been unable to contract for Krupp armor at that price. The increased limit will enable him

o secure this armor.

As the bill stands it carries appropria tions aggregating about \$63,000,000. limit may be increased if the committee cities in which navy-yards are located to provide that some of the ships shall be built in government yards. If this is decided upon it will be necessary to very largely increase the appropriation for navy-yards so as to provide for new shops and machinery plants. It is not probable that this will be done.
