

LORD ROBERTS' PLANS

HE WILL PUSH ON TO PRETORIA WITH LITTLE DELAY.

The Armies of Gatacre, Clements and Brabant Will Soon Join Him at Bloemfontein.

LONDON, March 16.—Lord Roberts' success in handling the civil problems at Bloemfontein and the manifest equanimity with which he has received the capitulation of the Orange Free State...

It is believed here that Roberts will soon push on to Pretoria, but Great Britain is quite content to listen for a few days to the acclamations of the people of Bloemfontein...

Roberts made a quaint speech to the Guards at Bloemfontein today, when in his first congressional words he expressed pride in their splendid march of 28 miles in 28 hours...

General Gatacre is holding Bethulie, and the whole line of railroad south of Bloemfontein is now in the hands of the British, and General Brabant's column having crossed Orange River...

FISHING TO BE PERMITTED

STIPULATION IN CASE INVOLVING TITLE TO SEEMING GROUNDS.

No Illegal Fishing Yet—Precautions Against the Plague—Health Officer's Letter to Governor.

ASTORIA, March 16.—The indications now are that the suit of the Columbia River Packers' Association vs. W. L. Enyart and Frank Cook will bring about an issue upon stipulation that will permit the grounds in controversy to be used for fishing during the coming season.

The suit is an equity case to secure possession of what are known as the "Jim Crow" seining grounds, and in which the plaintiff claims to have an undivided two-thirds interest.

When the suit was commenced the plaintiff, son of J. J. Barry, with a party of men, to the property, and they have been in actual possession since that time.

Afterwards a suit was begun by Messrs. Enyart and Cook against the Columbia River Packers' Association to elect them from the land. These two cases are still pending.

This afternoon the attorney for Enyart and Cook appeared before the court and stated that his clients had been in peaceful possession of and had fenced the grounds for a number of years; that they had several thousand dollars' worth of improvements on them for use in fishing, and he asked that the ejectment suit be called for trial at once, or if that was not done he wished an order restraining the combine from interfering with his clients' fishing there.

The combine's attorneys objected, and said that the equity case should be heard first, but they agreed to withdraw the men from the grounds until the case should be tried, provided the defendants would drop the ejectment suit and deposit \$500 for rental during the season.

The defendants' attorney offered to deposit the \$500 for rental but would not agree to withdraw the counter suit. He, however, agreed to drop the ejectment suit if the combine would withdraw from the lands pending the trial of the equity case.

This was as near an agreement as was reached, but it was announced that a motion for an injunction would be filed by the defendant within a few days, and also that the combine would ask that a receiver for the property be appointed.

The granting of either motion will permit fishing.

Judge McIrvine adjourned Circuit Court this evening until April 4. The damage suits of John Pentilla vs. The Clatsop Mill Company, to recover \$2314, and of Henry Mattson vs. The City of Astoria, to recover \$2000, will be tried at that time.

New Bicycle Tags. The Astoria Bicycle Commission held its first meeting of the year today. It decided upon a new style of license tag, and that it should be displayed on the top bar of the frame, as next to the head of the wheel.

The plans for the summer were discussed and as the path around Smith's Point is in excellent condition the path to Tongue Point will be put in good repair once action will also be taken to keep cattle off the path.

No Illegal Fishing Yet. Fish Commissioner Reed, who has returned from a trip up the river, states that neither he nor any of his deputies have yet been able to discover any signs of illegal fishing during the present closed season.

So far very few licenses have been taken out by fishermen, and as has been the experience in the past, the last few days will find the office crowded, and he will not have sufficient clerical force to issue the licenses as fast as is desired.

Precautions Against Plague. State Health Officer Fulton has been taking active measures for some time to prevent the bubonic plague from reaching Oregon from San Francisco, where at least one fatal case has been discovered.

Dr. Fulton believes that with the present quarantine regulations during the present closed season, so far very few licenses have been taken out by fishermen, and as has been the experience in the past, the last few days will find the office crowded, and he will not have sufficient clerical force to issue the licenses as fast as is desired.

Some days ago Health Officer Fulton wrote a letter to Governor Geer, in which he outlined a policy that should be pursued to prevent the plague from being brought into this state from California.

His suggestions are that the State Health Officer at Washington is not thoroughly satisfied that the genuine plague has existed in that city.
