

A SCENE IN COURT

Excitement at the Examination of Caleb Powers.

OPPOSING LAWYERS IN A WRANGLE

Spectators Made a Mad Rush for the Doors—Sergeant Golden Concluded His Testimony.

FRANKFORT, Ky., March 25.—The most thrilling event of the examination of Republican Secretary Caleb Powers occurred this afternoon shortly after 3 o'clock, and for a few minutes it looked as if serious trouble could not be prevented.

Judge George Denny, for the defendant, in an argument upon the competency of a question, said: "It is perfectly lawful for people to come here, and to come armed with terrific force and arms, and I was referring to the crowd that was present at the mass meeting held in the statehouse yard just prior to Governor Goebel's assassination."

At the conclusion of the examination of Golden, the commonwealth rested its case. It was stated last night that Mrs. Golden would also be introduced as a witness, but she was not put on the stand. It is stated that she is an unwilling witness. The attorneys for the defense asked for an adjournment of court at 4 o'clock for the purpose of conferring with the defendant as to the witnesses that will be placed on the stand in his behalf tomorrow.

The court adjourned for this purpose. The trial was not resumed today at 10 o'clock, as Wharton Golden, one of the prosecution's witnesses, was not in the courtroom. County Attorney Peisgrove announced that Golden was ill, but that the doctor thought he would be able to appear at 1 o'clock, and asked the Judge to adjourn court until that hour, which was done.

The court convened at 1 o'clock and Golden was immediately placed on the stand and cross-examination began. It commenced with ex-Governor Brown interrogating the witness. Golden said he learned about the robbery from a man who would be arrested if he did not tell what he knew about the assassination, and it is believed the attorneys for the commonwealth wish to save him from prosecution. Golden said he was in Winchester, and was stopped by two men, Dr. Foster and William Steele, who grabbed him by the arms and cursed him for exposing the Republican party. Golden replied that he had not exposed the party.

During an argument between the attorneys Golden asked to be excused for a few minutes, as he said he was growing weak, and he was taken out of the courtroom by a Deputy Sheriff. Golden resumed his testimony a little after 2 o'clock. He could not remember that he ever heard Powers say he intended to kill any one, and he said that the alleged assassin, was brought to Frankfort, he said, by William Fulton, one of the defendants. The witness said that when he heard, on his way to Louisville, that Goebel had been assassinated, and told Powers what had happened. Powers said it was a dirty shame and an outrage.

When asked about the man who was given the keys the morning Goebel was killed, Golden said he did not know his name, but could recognize him anywhere. He said he saw him here Saturday, and ex-Governor Brown asked him to get up and see if he was in the room. Golden scrutinized the large crowd, but said he did not see him.

At 3 o'clock the defense announced they were through with the cross-examination, and the state commenced its examination in rebuttal. Attorneys Campbell and Denny got into an argument, and the trial was passed. Great excitement prevailed, and people rushed for the doors and windows, while Judge Moore rapped for order. Quiet was finally restored. Ex-Governor Brown informed Campbell that he had misconstrued Colonel Denny's remarks, and Colonel Campbell at once arose and apologized to Colonel Denny and the court.

Golden finished his testimony and the prosecution rested. The defense asked for time to consult with the defendant, and court adjourned until 9 o'clock tomorrow morning.

Taylor Returns to Frankfort. LOUISVILLE, Ky., March 25.—Governor Taylor left here today for Frankfort, arriving there at 10 o'clock. He spent yesterday in consultation with his personal friends, but nothing of any importance regarding these conferences has transpired.

NEBRASKA POISONING CASE Miss Horlocker on the Witness-stand. HASTINGS, Neb., March 25.—The features of the Horlocker-Morey poisoning case today was the appearance of Miss Horlocker on the stand. She was greatly affected, and when she left the stand she fainted. She told of the love passage between Morey and herself, saying that they frequently remained together in the law office after the others had left, that Morey called on her at the Blue River resort three times, and that at one time when Mrs. Morey was away from home, she, at Morey's solicitation, accompanied him to his room. She protested, however, that there was at no time any immoral relations, but nothing of any importance regarding these conferences has transpired.

Wagon Wheels Stolen. LONDON, March 25.—The continued absence of an aggressive movement on the part of the British is best explained in a dispatch from Bloemfontein, dated 25, and published in the second edition of the Times today. It says: "The conditions existing in the occupied territory render imperative the somewhat prolonged halt at Bloemfontein, and the effect of the proclamation should have time to make itself felt."

It is said that danger of annoyance to the line of communication may be apprehended, and the military forces behind the advancing forces is rendered absolutely secure. The accuracy of this view is proved by the enemy's breaking up into isolated groups such as which attacked the guards' office Friday.

"The adjustment of financial and municipal matters in the Free State is now chiefly occupying the attention of the Government, and the military advisers. The military regime is being conducted with great smoothness, but recent investigations show that great caution must be exercised in dealing with persons apparently loyal."

This summary is probably an accurate explanation of the frequent appearance and disappearance of Boers and insurgents upon what is reported to be a railway line, which so puzzle the British military critics.

General Methuen appears to be awaiting transportation, and with Colonel Buller, is then any direct news they receive seems little likelihood of the immediate relief of Mafeking, though neither from this quarter, nor from Roberts or Buller, is there any direct news they receive.

The government buildings at Cape Town narrowly escaped destruction by fire last night. The state papers, after being much damaged, were removed.

A Lorraine, an Irish special says the Transvaal authorities are evidently recruiting actively, and large numbers of French, Dutch and Belgian volunteers are being sent to the front from this place to join the Boer forces.

CRONJE'S BLUNDER. Failed to See the Significance of Roberts' Turning Movement. NEW YORK, March 25.—Count Adelbert Sternberg, a young Austrian noble, who spent two months in the Lincoln Park groceryman, who gave the Constable \$25, and the former was released, promising to show up yesterday; but he did not come around, and the ball will be forfeited.

J. Sullivan was also in from the country yesterday, and said that the four wagons which had been stolen a few nights ago. There is also a stray wagon in a field a short distance from the Base Line road, where it was abandoned last week, which was probably taken from the Boer camp. The first seen it was found to contain about a dozen dead chickens, recently killed. The game is to remove the wheels from wagons and to scatter them about the farms, bringing them to the city, repair them and destroy the marks by which they might be identified. In the case of the wagon wheels of Spain, the only way to identify them is by the Lincoln Park groceryman, who gave the Constable \$25, and the former was released, promising to show up yesterday; but he did not come around, and the ball will be forfeited.

Instruction by Pictures. At the Central School a large number of historical pictures has been introduced by the teacher, and the pupils are using them in the art and historical studies. These pictures are somewhat along the line of stereoscopic views, such as are in use in the Williams-Avenue school. There is a variety of pictures in the course of the engravings and the stereoscopic views. The engravings mounted on heavy cardboard cost about 2 cents, while the slides of the stereoscopic views cost about 1 cent each. The teacher has distributed to the room according to grades and the studies pursued, and are to be used to illustrate the text. They are very wide in range, and embrace the history of prominent men who have figured in historical affairs. There are pictures of important scenes and buildings in the United States and other countries. Pictures of faces embrace those of Longfellow, Whittier, Bryant, Poe and a long list of others. Of historical characters, there are pictures of Washington, Lincoln, Grant, Sherman and others. The collection is regarded as very valuable and helpful in fixing the mind of the pupil on important events. The new collection obtained by the Central School is the work of the artist, and are mounting the pictures themselves.

For the East Side Notes. The proposed road for the Portland cycle path will be completed to the Marsh hill on the Kelly road, for the reason that the grade of this hill will be cut down over two feet. It would be a waste of money to build a road to the top of the contemplated reduction of the grade has been made.

KEEPING HIS LINES OPEN

CAUSE OF THE PROLONGED HALT AT BLOEMFONTEIN.

Roberts Will Not Advance Until He is Certain He Can Keep His Communication Intact.

COLONISTS' RATES AT AN END

Overpowered by a Mob. BELAIR, Md., March 25.—Lends Harris, colored, who was arrested here last night for committing a felonious assault on Miss Anna McElvaine, a white woman, was tonight, Sheriff Kinard and his Deputy fought to protect the prisoner and fired into the mob, wounding two of them. They were overpowered.

Dispatches from St. Paul last Saturday, relating to colonist rates, and the action of the Great Northern in the matter, greatly mystified Portland railroad men. The dispatch stated: "The president's agreement to maintain rates is broken by their consent, and it is believed the Great Northern will resume the payment of commissions in a short time. The Canadian Pacific positively refuses to join the movement to discontinue commissions, and competing lines will be forced to renew commissions. This movement will restore commissions on all lines."

There is probably some misunderstanding about these colonist rates. The representatives of the roads here were given to understand that all colonist rates were to be abrogated on and after March 20. Our line understood that the date was fixed for March 25. This would account for the Great Northern's selling colonist tickets March 24.

In order to clear up the apparent puzzle, The Oregonian ascertained the following: March 8 the Great Northern people here understood that all colonist rates were to be abrogated on and after March 20. In order to clear up the apparent puzzle, The Oregonian ascertained the following: March 8 the Great Northern people here understood that all colonist rates were to be abrogated on and after March 20. In order to clear up the apparent puzzle, The Oregonian ascertained the following: March 8 the Great Northern people here understood that all colonist rates were to be abrogated on and after March 20.

CHICAGO, March 25.—Over 100 striking machinists, formerly employed by the Siemens & Halske Company, today returned to work for that corporation, their demands for a nine-hour working day and a minimum scale of wages having been granted. The firm, however, refused to recognize the business agent, otherwise the "walking delegate," and negotiations are being conducted through a shop committee, which will hereafter negotiate with the management in place of the business agent. All difficulties that may hereafter arise will be referred to arbitration for settlement. The settlement of the strike is looked upon in the nature of a compromise, though both sides claim a victory.

Labor leaders claim that negotiations are being conducted with other shops for the return to work of the striking machinists under similar conditions. Efforts of several other machinery manufacturers to open their shops today met with failure, as no men appeared for work in response to advertisements.

Backbone of Strike Broken. CHICAGO, March 25.—The Times-Herald says: "The Machinist Union claims to have made such progress in the settlement of its differences with individual firms as to have practically broken the backbone of the machinist strike in Chicago. The new form of agreement adopted by the machinists, which does away with nearly all the objectionable features, has been signed by 22 firms, and it is expected that today 700 of the 800 striking machinists in Chicago will be back at work under the new agreement."

The Death Roll. Rabbi Isaac M. Wise. CINCINNATI, March 25.—Rabbi Isaac M. Wise, probably the most distinguished rabbi in the Reform Jewish Church, died this evening at 6 o'clock of a stroke of paralysis, which made his first appearance last Saturday evening.

The Earl of Harrowby. LONDON, March 25.—The Earl of Harrowby (Dudley Francis Stuart Ryder), ex-president of the Board of Trade, is dead. He was born January 16, 1831.

Ex-Governor of Mississippi. HOLLY SPRING, Miss., March 25.—Hon. John M. Stone, for 10 years Governor of Mississippi, died today after a short illness.

Field Marshal Stewart. ALGIERS, March 25.—Field Marshal Donald Martin Stewart died this morning in his 74th year.

Alaska Question Not Revived. LONDON, March 25.—The British Government has taken no steps toward reviving the Alaska matter. The Associated Press is informed that it is unlikely any of the conferences will be resumed until the modus vivendi is regarded as the most satisfactory temporary settlement.

Police Made a Mistake. CHICAGO, March 25.—Police officers searching last night for an entertainment to be given next Wednesday evening at the Chicago Athletic Club, 19 Chisholm were arrested, charged with gambling. The Chicago police highly increased over the abrupt manner in which the police broke up their rehearsal.

O'Beirne Wants to Dredge. WASHINGTON, March 25.—General James B. O'Beirne, of New York, had an interview with Secretary Root at the War Department, and made application to dredge the sands of the beach at Cape Nome, Alaska. The Secretary said he would grant the permit on the usual conditions.

Explosion at Fireworks Factory. HAMILTON, Ont., March 25.—A terrific explosion occurred at the factory of Hand & Co., fireworks manufacturers, today. Walter Teale, a workman-in-law of Professor Hand, one of the partners in the concern, was blown to atoms, and one of the large buildings was destroyed.

Stops the Cough and Works Off the Laxative. Bromo-Quinine Tablets cure a cold in one day. No cure no pay. Price 25c.

WAGON WHEELS STOLEN.

Thief at Work Near Rockwood—East Side Affairs.

Several sets of wagon wheels have been stolen within the past 10 days from farmers living along the Base Line road, near Rockwood, and a farmer named Michael Spahn made complaint in Justice Vreeland's court, charging that he had been robbed of four wheels of his vehicle. It was alleged in the complaint that the wheels were stolen from his wagon on March 19, on the following morning Spahn found his wagon in the rear part of his house, minus the wheels. Strong had been seen at Rockwood driving a blacksmith wagon, which he recognized Spahn's property, and the latter then traced Strong to his home on Beach street, Albina. Here he discovered, he says, that his four wheels had been placed on Strong's wagon, but they had been repainted and fixed up so that it might have been a difficult matter to prove his property, had not the blacksmith wagon been found in a peculiar manner. Spahn got the privilege of examining the wheels with a view to buying them, and he took them to his home on Beach street, Albina. Strong deposited a check for \$50 with the Lincoln Park groceryman, who gave the Constable \$25, and the former was released, promising to show up yesterday; but he did not come around, and the ball will be forfeited.

J. Sullivan was also in from the country yesterday, and said that the four wagons which had been stolen a few nights ago. There is also a stray wagon in a field a short distance from the Base Line road, where it was abandoned last week, which was probably taken from the Boer camp. The first seen it was found to contain about a dozen dead chickens, recently killed. Real Estate Transfers. Mattie Hughes and J. T. Hughes to Axel Larsen block 27, James John's Addition to 1st John's, February 9, \$700. H. E. Noble to Ella Noble, front corner block 24, King's Second Addition; also lot on Flanders street, adjacent to the corner of the street, Louis Arnold et ux. to John Arnold, parcel of land on Macadam road; March 21, 1100. P. Lynch and C. Lynch to School District 25, acre, section 6, T. 1 S., R. 1 E., block 17, Portland; March 1, 130. Nathan Falk to Mrs. Mary Simon, undivided two-thirds of lot 2, and undivided one-third of lot 3, block 147, Portland; March 1, 100. L. M. Davis and N. M. Davis to Mrs. M. Davis, block 2, block 2, Central Albina; March 19, 100. Mary Ahern to Robert C. Ahern, block 15, block 15, King's Second Addition; also W. 1/2 of E. 1/2 of NE 1/4 section 28, T. 1 S., R. 1 E.; also lot 2, block 2, and Davis street; July 2, 1897, 1000.

Building Permits. G. E. Kaiser, two-story dwelling, Chapman street, between Main and Madison; \$300. Dora Corbin, two-story dwelling, East Morrison, between East Eighteenth and East Nineteenth; \$1500. Sullivan, two-story dwelling, Powell street, between East Twentieth and East Twenty-first; \$750.

Marriage Licenses. David C. Anderson, aged 25; Sarepta Seitz Hunter, aged 25; both of Portland; issued by Emma Mager, 28. T. E. Johnson, 25; J. J. Derick, 18.

Deaths. March 25—Ettie A. Huntington, aged 19 years; 182 Sheridan street; pulmonary tuberculosis. March 25—Cyril S. Heywood, aged 4 months; 706 Corbett street; meningitis. March 24—George Auld, aged 17 years 10 months; 124 Mallory avenue; cerebro-spinal meningitis. March 24—John Barry, aged 45 years; 413 Hancock street; embolism of heart.

Contagious Diseases. John Bolander, 623 Saver street; typhoid fever. Master Root, aged 13 years, 622 East Ankeny; scarlet fever. Daughter of Mr. and Mrs. Zimmerman, aged 10 years; 422 Market street; scarlet fever.

Divorced Husband's Crime. OWASSO, Mich., March 25.—Charles S.

THE TREATMENT THAT CURES

HOW DR. COPELAND'S WONDERFUL MEDICATION DOES ITS BENEFICENT WORK FOR SUFFERING HUMANITY.

It Reaches, Soothes and Heals Every Part of the Mucous Membrane, Curing Invariably All Forms of Catarrhal Diseases of the Nose, Throat, Vocal Cords, Bronchial Tubes, Lungs and Deafness—Treatment and Medicine Until Cured, \$5.00 Per Month.

Dr. Copeland's New Treatment, that has lifted the darkness and blight of the world's "mucous" from hundreds of thousands of these cases of diseases in the Throat, Bronchial Tubes and Lungs, works its curative action for two reasons.

(1) It reaches every sore spot, from the office of the nose to the deepest recesses of the middle ear.

(2) Instead of irritating, inflaming and feeding the fires of the disease, it soothes, quiets, heals and cures.

What is the treatment that cures these conditions, once regarded incurable? By what process does it restore the diseased membrane, remove the poison and relieve the soreness of disease? Let the experience of persons cured and being cured tell.

How It Cures Catarrh. Here is a patient taking treatment for Catarrh of the Head. He breathes the soothing medication through his nostrils, and the nasal channels open up, the stuffed-up feeling in the head leaves and he can breathe naturally through the nose again. The dull pains across the front of the head fade away, and the nasal membrane is soothed until the inflammation and soreness are all gone. The bad odor of the breath passes away, and the lost sense of smell returns. The dropping in the throat is checked, the nose does not stop up toward night any more, the sneezing and sniffing ceases, and the discharge from the nose grows less and less and finally stops altogether. The disease has been checked and eradicated from the system before it ever reaches the throat. It has not been driven down into his throat or into his lungs or into his ears, as is often done by other treatments.

How It Cures Diseases of the Throat. Here is another patient who had Catarrh in the Head. He caught cold after cold, and the disease spread down into his throat. He breathes and drinks in the disease-banishing medication. It bathes the membranes of his head and throat. The soreness of the head and throat becomes less, and the desire to hew and spit is disappearing, the sense of taste is returning, and the voice again becomes soft and melodious. There is no more gagging and vomiting in the morning. No longer does every exposure to the weather result in a stuffed-up throat that becomes sore and inflamed and no longer does he find his throat and tongue dry as chips when he wakes from refreshing sleep.

How It Cures Deafness. Here is another patient who for years had been a sufferer. Every fresh cold seemed to stay longer than former colds, and he noticed that his ears got stopped up and his hearing became duller and duller, and that when he awoke in the morning he passed upward and backward from the throat along the Eustachian tubes leading from the throat into the ear. He had visited throat doctors and ear doctors and Catarrh doctors, without relief. In this condition we find him inhaling the never-failing medication, and soon he notices a change. The noises in the ears stop. There is no more discharge, the hearing gets better and finally the tubes of the ears open up and something seems to give way in the head. His hearing has completely returned. No wonder he considers the result a marvel.

How It Cures Bronchial Disease. Here is another patient who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to the Throat, then down the Windpipe and into the Bronchial Tubes. He coughed at night so that he could not sleep; there was pain behind the breastbone and under his shoulder-blades. When he coughed he brought up a frothy, grayish material streaked with blood. He lost appetite and strength. He tried cough syrups and different medicines to no avail. He now breathes in with soothing inspiration, the restoring and soothing medicine. The sore spots along the Bronchial Tubes heal, the cough ceases, the pain leaves. The appetite and strength return. He is again a well and happy man.

How It Cures Catarrh of the Head. Here is a patient taking treatment for Catarrh of the Head. It has not been driven down into his throat or into his lungs or into his ears, as is often done by other treatments.

How It Cures Deafness. Here is another patient who for years had been a sufferer. Every fresh cold seemed to stay longer than former colds, and he noticed that his ears got stopped up and his hearing became duller and duller, and that when he awoke in the morning he passed upward and backward from the throat along the Eustachian tubes leading from the throat into the ear. He had visited throat doctors and ear doctors and Catarrh doctors, without relief. In this condition we find him inhaling the never-failing medication, and soon he notices a change. The noises in the ears stop. There is no more discharge, the hearing gets better and finally the tubes of the ears open up and something seems to give way in the head. His hearing has completely returned. No wonder he considers the result a marvel.

How It Cures Bronchial Disease. Here is another patient who was always sensitive to the weather. He contracted Catarrh of the Head, and it passed to the Throat, then down the Windpipe and into the Bronchial Tubes. He coughed at night so that he could not sleep; there was pain behind the breastbone and under his shoulder-blades. When he coughed he brought up a frothy, grayish material streaked with blood. He lost appetite and strength. He tried cough syrups and different medicines to no avail. He now breathes in with soothing inspiration, the restoring and soothing medicine. The sore spots along the Bronchial Tubes heal, the cough ceases, the pain leaves. The appetite and strength return. He is again a well and happy man.

How It Cures Catarrh of the Head. Here is a patient taking treatment for Catarrh of the Head. He breathes the soothing medication through his nostrils, and the nasal channels open up, the stuffed-up feeling in the head leaves and he can breathe naturally through the nose again. The dull pains across the front of the head fade away, and the nasal membrane is soothed until the inflammation and soreness are all gone. The bad odor of the breath passes away, and the lost sense of smell returns. The dropping in the throat is checked, the nose does not stop up toward night any more, the sneezing and sniffing ceases, and the discharge from the nose grows less and less and finally stops altogether. The disease has been checked and eradicated from the system before it ever reaches the throat. It has not been driven down into his throat or into his lungs or into his ears, as is often done by other treatments.
