There was a fair cash demand, but the car scarcity interfered with the closing of many deals. Domestic crop reports were as has been counted on. Owing to the falling off in the amount of Government bonds offered for conversion, the disburgement of premiums and decreases in this week's guin by the banks favorable, as was the weather.

The corn marklet was broad and strong, helped principally by a heavy export demand. The demand for shipment in April was also heavy, but the ever-present difficulty in getting cars intruded itself, and was an efficient check on much business of this sort. Country offer ings were light and cables lower. May closed h@lige over yesterday.

The strength of corn held oats firm. The trade gradually showed a balance in favor of July options. July closed its improved, and May its up. Provisions were nervous with fluctuation

Provisions were nervous, with fluctuations wide and the market altogether rather jerky. The opening was under yesterday, the consid-eration being lower prices at the yards. A small dip followed, and then the market re-acted, May pork shooting up 30e to \$12 97%. There was a good cash demand, but there was also considerable profit-taking, which told in the end, the close being rather heavy. May purk closed 5c under yesterday, May lard 30 7% down and May ribs 5c depressed. The leading futures ranged as follows: WHEAT.

March 90.-The railroads re-tired into the background of the stock market foday and gave way to the industrials and spe-cialities. Sugar almost outdid its traditional reputation for uncertainty by suddenly retrac-ing file course of yesterday and mounting well above the high point. There was a momentary decline of less than a point at the opening, and then a quick railly, and the stock never got back to last high's closing level. Twice during the late dealings it was 15 points above the low level in the morning, and the stock never got back to last high's closing level. Twice during the late dealings it was 15 points above the low level in the morning, and the stock never mous. Its course clearly demonstrated a cynical skepticism on the part of the specifialities pub-lic regarding the pesstenistic official outgiving which caused yesterday's slump in the price of the stock. All sorts of estantional runnors were affort regarding mensures for compromises of the sugar-trade war, and there were initua-tions that the opposition refiners had been em-ulating the example of the Metropolitan Street Railway interests in the Third Avenue coup by acquiring Sugar stock at the decline. At all events, shorts in the stock were exceedingly metrofied and versition is the stock.

acquiring Sugar stock at the decline. At all events, shorts in the stock were exceedingly perturbed and scrambied to obtain stock. The local traction stocks furnished the other surprise in the market, and, like Sugar, de-veloped aggressive strength in the face of bad news. The demand in this group undeubtedly came from the shorts. The facures given out from Albany last night of the valuation placed upon the franchises of the New York traction companies were as high as the most extrava-gant estimates in Wall street.
