came and passed without attracting per-ceptable attention. Scarcely a case has been heard of where any one attempted perpetrate any of the time worn hoaxes so common on such occasions. One has been reported in which a young nan was made the victim of an April fool joke, showing a greater sense of fun than is usually evinced in such fool jokes. The young woman in question was veryanxious to see The Oregonian of April I, in order to read the notice of a wedding me other function in which she had played a star part. She arose unusually early that morning, went out on the porch I secured the paper and sat down to at for the notice she was so anxious see. She searched the paper through and through without finding it, but found many things which surprised her. Men-tion of parties, weddings etc., and news items which seemed familiar, and yet were a surprise to her. She found notices of opera troupes, theatrical performances, etc., which she had seen, but had not heard were here or coming. Finally she looked at the date line of the paper and found it was April, 1898. Language failed her, as no respectable young woman is furnished with a vocabulary fitted to do justice to such an occasion. She has since ascertained that her father was the perpetrator of the hoax, he having got up before her to make the exchange of pa-

BEEF MAY BE CHEAPER.—The public will be pleased to learn that there is a good prospect for beef being cheaper before long. Eastern buyers are out of the market, and they have lost money on many of the cattle they bought in this state and paid extravagant prices for. The consumption of meats has perceptibly decreased, owing to the high prices which prevailed during hard times. High prices and low wages do not go well together, and especially when, as has happened of late years, a great deal of rather poor meat has been sold at high prices. It is probable that next fall the prices and quality of beef will be better suited to the purses and tastes of the public than they have been

PHOTOGRAPHERS ORGANIZE. State Association to Be Formed in

Portland Next June.

Photographers of the state contemplate a large organization soon. Three months ago, the professional photographers of Portland formed an association for mutual advantage and education, and soon thereafter another was formed by the members of the profession in Salem. Yesterday a committee from each of these associations met here to plan for a general state or-ganization, without subordinate organizations in the respective cities. This com-mittee consists of E. W. Moore, John Toll-man and H. C. Hayes, of Portland, and Messrs. Trover and Vanexxe, of Salem. This committee is empowered to communicate with photographers throughout the state regarding the association, and per-fect arrangements for a meeting in Port-

The spirit throughout Oregon among professional photographers is said to strongly favor this organization, as has strongly favor this organization, as has been evidenced by numerous letters received by the members of the Portland association. A photographers' union is beverage but milk has entered my stomnot contemplated, the purpose being more to form an association, such as all profes-sional people have, for mutual aid. Logs Not Up to Standard. The suit of the Skamania Logging Company against Inman, Poulsen & Co., to recover \$1552 for logs sold in April, 1899, was tried before Judge Frazer and a jury yesterday, and a verdict was rendered for the plaintiff for \$1029. The Skamania Logging Company is composed of James D. Young, Frank Kiernan and others. The evidence in the case disclosed that Mr. Young met Mr. Poulsen in the Chamber of Commerce, and sold him the boom of logs for the agreed price of \$5.50 per thousand, the top price at that time being about \$5 per thousand. Mr. Young stated that the logs would run 20 per cent of good, clear, merchantable lumber, Mr. Poulsen advanced \$500 on the contract, but says the logs proved to be inferior, and many of them had to be cuiled, and were not worth more than H per thou-sand. This difference is what brought about this action. Before the logs were entirely sawed, Mr. Poulsen sent word to Mr. Young to come to the mill and see what had been thrown out, but Mr. Young was sick and could not go. The logs were disposed of, and the defendants offered to settle at the \$4 rate, and on that basis admitted a balance of \$612 to be due. The defendants contended that when they informed the plaintiff the logs were not as described in the agreement of sale, and refused to take the logs, the plaintiff said: "Go ahead and saw up the logs," and that such order was a waiver of the contract price, and license granted defendants to saw up the logs and pay a reasonable market value for them. Being unable to come to terms, the court was appealed to. Henry E. McGinn presented the case for the plaintiff, and H. M. Cake for defend-

About 1 o'clock yesterday morning a travdined out, was returning to his hotel and was suddenly struck on the head from behind, knocked down and robbed of \$37 cash. He was somewhat dazed and was unable to get a clear view of the high-waymen. This occurred at Eighth and Morrison streets. About two hours later two young men were returning home and were in this same neighborhood when they were in this same neighborhood when they were held up by two men at the point of pistols. Each of thèse men were robbed of a gold watch. One of them lost his diamond stud and \$\frac{1}{2}\$ in cash. The other was relieved of only a dollar and a half, as he had presence of mind enough to hold a \$20 gold piece in his hand while extending that member skyward.
