

COMMERCIAL AND FINANCIAL NEWS

A continuation of the fine weather had a tendency to temporarily restrict business yesterday, as the agricultural community is busily engaged at home, and has no time for trading at present. There was nothing new in prices, except for a slightly weaker feeling in eggs and butter. The receipts for potatoes are falling off, but there is no scarcity, and no change in prices. The last of the steamer produce cleaned up yesterday, and prices were firm. Oats are scarcer, but not notably higher, as the demand is very light. The grocery markets are firm at unchanged figures. Strawberries are more plentiful, and sold yesterday at 20c per box.

PORTLAND MARKETS.

Grain, Flour, Etc.
The local wheat market is still in a comatose state, with not enough of the critical changing hands to enable accurate estimates to be made. Interior mills are reported to be paying pretty stiff figures, but in this city there is not much disposition to do business at anything in excess of the Chicago market. Walla, and 50¢ for Valley. The foreign markets were in fairly good shape yesterday, after the protracted holiday, but there is still weakness apparent in the West, higher than in the East. Freighters are firm, with no new business reported, and owners are disinclined to make concessions.
