At the conclusion of the routine business Foraker (Rep. O.) called up the joint reso-lution introduced yesterday, providing for the administration of civil affairs in Puerto The administration of civil affairs in Puerto Rico. Under the recently passed Puerto Rican law, no temporary appointment is to extend in tenure beyond August 1, 1999. After Foraker had answered a few ques-tions as to the operation of the measure, Chandler (Rep. N. H.) expressed the hope that Senators would introduce a resolution that Senators would introduce a resolution of inquiry if they desired information and

permit the pending resolution to pass. In response to some thrusts by Chandler, Tillman (Dem. S. C.) made a characteristic speech, and drew a picture of the inauguof Governor Allen, of Puerto Rico, May 1.

"We are," said he, "to have a grand pageant May 1, when the new Governor is to be inaugurated. This inauguration is to take place with the greatest ceremony ever even in any part of the United States. I imagine that the purpose of this display is to imprese the islanders with the grandeur and greatness of the United States, as well as to impress the people of the United States with the new policy of imm by which an American Proconsul to take possession of the island. After while, of course, we will have another Governor sent to the Philippines, and he will be of so much greater importance than the Governor of the little Island of Puerto Rico that I suppose he must have the Navy escort him across the Pacific and

must have umbrelias held over him like the Bey of Algiers and the Sultan of Mo-rocco. We will have him attended by our subject princes in the Sulu Archipelago, with Mahommedan bodyguards and all that sort of thing. If that is the purpose

of keeping these Army officers in Puerto Rico, I will interpose no obstacle to the passage of the resolution." Bacon (Dem. Ga.) inquired whether

United States Army officers were in receipt of salaries as civil officials in addition to

their pay as Army officers. Foraker replied that the Army officers were prohibited by law from accepting such additional pay. Bacon said, while he had no definite information on the subject, he had understood come Army officers were receiving large salaries in addition to their

regular pay. Chandler (Rep. N. H.) thought Bacon's statement was very important. If it were true, Congress ought to know it. He, therefore, suggested that Bacon offer a resolution of inquiry as to the subject. Bacon, in the course of some remarks, said he had understood it to be the pur-pose of the leaders of the dominant par-

"that whatever the President may think about the wisdom of an early adjournment, with due regard to the business of the country, so far as I know the views of Senators, they are all in favor of an early adjournment, and, I think, so far as 1 know the sentiment of the country, that the people will be glad to have us adjourn even before June."

The measure was then passed without division. A bill relating to the allow-ance of exceptions was passed. It was reported from the judiciary committee by Hear (Par Mark 1) Hoar (Rep. Mass.). It recently passed the House. The bill amends section \$53, of the revised statutes, so as to provide that in case of the death or inability of a trial Judge, his successor may hear and pass upon motions for new trials, and allow upon motions for new trials, and above and sign bills of exception. The bill is in-tended to remedy a defect in the law print-ed out recently by the Supreme Court, which held that a Judge who did not preside at a trial could not perform these functions, thus often preventing review of causes by the higher court.

A bill was passed authorizing the Com-missioner of Internal Revenue to redeem or make allowance for internal revenue stamps spoiled, destroyed or rendered use anfit for the purpose intended, or for which the owner may have no use of through mistake may have been improperly or unnecessarily used, or where the rate or duties represented thereby have been excessive in amount, paid in order any manner wrongfully collected.

A joint resolution authorizing the ex hibit of the Government relics at the New York Printing Exposition was passed.

The Alaskan code bill was then taken up, the pending question being the Hans-brough alien miners' amendment. Carter (Rep. Mont.) maintained that mere denunclation of the men was not sufficient to destroy their right. The injured parties ought to be permitted to go into the court to contest legally for their claims. THE YAQUI WAR.

Mexican Indian Rebels Still Full Fight.

SAN FRANCISCO, April 12.-Henry Hoahstey, of Oakland, who has returned from the seat of the Yaqui war, in Mex-ico, brings advices as follows: The Mexicans sent out word that the war was over, but at the same time 400 troops were hastening to the front. The Yaquis have about 5000 men under arms. They have Bemington and Mauser rilles They have Remington and Mauser rifles and bows and arrows. They have two cannons that 34 Yaquis captured from 29 Mexicane. The Mexicans keep to the roads and town, while the Yaquis hold the Sier-ras. Mexicans estimate the Yaquis at 15.2 000, but the population of Sonora is at least 120,000, and half of them are Yaquis. The Indians have a peculiar system for keeping their treasury in funds. The wa riors alternate between the firing line an working in the mines and on the ranche Their wages go to the common fund Within the past two weeks several en gagements have been fought in which the government troops were generally victo-rious. In a recent engagement between a party of insurgents, the government re-ports 17 Yaquis dead on the field. Only

ne Mexican, an officer, was killed, but many were wounded.

SCOURING YOUR SCALP.

Will Remove the Loose Dandruff

Scales But It Won't Cure Dandruff.

If your hair is brittle and thinning, you have dandruff. The merely scouring of the scalp of the loose scales won't curs dandruff; because dandruff is nothing but scales of scalp being thrown up by a pes-tiferous little germ in burrowing its way to the root of the hair, where it saps the vitality, causing falling hair, and, in time, baldness. Now you can't stop dandruff, nor falling hair, nor prevent baldness unless you destroy that germ; and the only preparation that can do it is the new scientific discovery, Newbro's Herpicide. In fact no other hair preparation claims to kill the dandruff germ-all of them will
