COMMERCIAL AND FINANCIAL NEWS

There was a fairly good trade in most lines yesterday, country orders being more plentiful, and city retailers buying quite freely for the Saturday trade. In prices there is no change of importance, except in wheat, which is lower. Poultry is ruling steady at good strong prices for good stock. Except for an occasional sack, which sells at almost any price that is asked, onions are out of the market. The market for potatoes continues very weak, although receipts are light. Butter is moving slowly, but eggs are steady. The produce markets are pretty well cleaned up, but the California steamer arriving last night brought a liberal consignment, which will be on the street this morning.

PORTLAND MARKETS.

Grain, Flour, Etc.

The Argentine, which has been expected to show "smaller shipments next week" for the last two months, came up smiling yesterday, with a week's shipments of 3,760,000 bushels which, with a single exception, are the largest on record. This seemed to give all the markets that "tired feeling," and even in Portland, where wheat has for months been higher proportionately than it has been anywhere else in the known world, lower prices were quoted. Most of the buyers were indifferent about quoting over 52@53c for Walla Walla, but an occasional quotation of 54c was heard. NEW YORK STOCK MARKET.

Uncertainty Regarding Iron and Steel Still a Depressing Factor.

NEW YORK, April 20.—The stock market continued unsettled and hesitating today, under the influence of the uncertainty surrounding the iron and steel issues. The undertone was distinctly firm, and the early portion of weakness gave way to a slow and irregular upward movement, doubtless due in large part to the demand from the short interest to cover. The rates for loans on stocks this morning on the floor indicated that the short interest was quite large. The comparative interest of iron and steel stocks and the positive strength at a number of points prompted the covering of shorts and encouraged what slight buying for general account there was. Eager attention was fixed upon American Steel & Wire all day, in view of the session of the company's executive committee. The movement of the stock was feverish, and common and preferred often moved in contrary directions, as though to cause a feeling of uncertainty over developments in the company. Aside from this confusing manipulation, dealings in the stock were apparently largely in the hands of the room traders, who circulated many rumors concerning the executive committee. The action was kept secret until after the close of the market.

With this disturbing factor kept in the background, a number of favorable influences were allowed to have play. The coalers were all notably strong on favorable trade reports, the soft-coal, as well as the anthracite roads, sharing in the movement. The local traction stocks and Sugar moved upward in a decidedly irregular manner, and Texas & Pacific, Canada Southern, New York Central and Pennsylvania were also points of strength. The good crop weather was a sustaining influence with the grain-carrying roads. Rumors still continue to circulate of new railroad combinations and of prospects of dividends on railroad stocks, but they have no definite authority. The banks seem assured of an increase in cash tomorrow, having gained nearly $4,000,000 on Subtreasury operations and over $500,000 on the express movement with the interior.

There is rather more mystery than usual surrounding the item of loans. The liquidation indicates loan contraction, but the declining scale of interest rates has prompted the banks to place as large loans as possible. The process of loaning on sterling collateral, which has proceeded during the week, will undoubtedly be reflected in the statement, as it has been in the sterling market during the week. Actual sterling rates advanced ¼c, and posted rates ½c today, and are near the gold-export point, though the experts are engaged in their usual wrangle as to just what figure represents that point. Call money loaned as low as 2 per cent today.

The bond market was less active today, and prices were well held. Total sales, $1,930,000. United States 5s declined ⅛ per cent in the bid price.

Foreign Financial News.

NEW YORK, April 20.—The Commercial Advertiser's London financial cablegram says:

There is universal stagnation in the markets here today, awaiting news from Lord Roberts. Americans were busy at the opening for 10 minutes, and then died down until quite late. New York gave half-hearted support. The close, however, was apathetic and drooping. Tintos were flat at 58¼. English bears renewing their campaign and saying that New York was tired of upholding the stock. There was talk, too, of new discoveries of copper. Paris gave no support, but the close was 56⅝. The Bank bought £19,000 gold in German coin. There was talk of gold shipments from New York. Call money was less wanted. A moderate sum due the Bank was renewed, and the Bank did a small discount business.

Chicago Grain and Produce.

CHICAGO, April 20.—Wheat traders climbed into the pit at the opening of the session with their views concerning the value of wheat lowered from ¼c to ½c. This was due to the fact that Argentina last week shipped 3,750,000 bushels, that cables were lower, and the weather conditions remained the fast friend of the crop. Having given this exhibition of being awake, the speculative trade proceeded to slumber. Nearly the whole session the fluctuations were very narrow. The cash business was fair—150,000 bushels here for direct export. New York put the export demand at 30 loads, and Philadelphia reported 35 loads. This had a steadying influence, which held to the end.

The spread between May and July widened to 1½c, and there was considerable changing. The crowd sold May and took July, while elevators in a moderate way reversed the action. May opened ¼@½c lower at 65¼@65½c to 66c, advanced to 65¾@65⅞c, and closed ¼c down at 65¼c. July began the session ⅜c lower at 66⅜@66½c to 67¼c, touched 66⅝c, and closed a shade down at 66⅝c.

In corn the market largely belonged to the scalpers. Trade was quiet and narrow. The opening was from ¼c to ⅜c under yesterday's closing figures, but the close showed a part of this recovered. May closed ⅛c down. July, ⅛@¼c depressed.

The provision market was weak and lower, affected by weaker holdings, the lower grain market and liquidation. Outside selling was a feature. May pork closed 10c down, July closed 15c lower. May lard closed 12½c down, July 12½@15c lower. May ribs, 10@12½c down, July, 10@12½c reduced.

Oats were weak, a matter of sympathy with corn and wheat. May closed ¾c lower, July closed a shade lower.
