### NEW YORK STOCK MARKETS.

Business Was Very Apathetic and Transactions of Small Size. NEW TORK, May 1.—Business was so apathetic and so narrow today in the stock market that little can be deduced to throw light on the lusiness or firancial situation. Prices are as a rule alightly higher, but the only explanation to be offered is that room traders in stocks proved unable to get them down in spite of one or two incidents rather unfavorable to values, and turned perforce to the long side in order to get the requisite movement in prices to offer any field for trading at all.

Even Sugar, although still absorbling a large

Even Sugar, although still absorbing a large proportion of attention, became comparatively quiescent, and limited its range to a little over three points. The stock moved both above, and below last night. The failure of the Pennsylvania directors to advance the semi-annual dividend rate proved ineffective to awaken the market from its apathy. When the small hears rather timidity offered Pennsylvania down below last night without bringing out any appreciable sales, the whole market took on a firmer tone. Missouri Pacific rose nearly two points. But whether the market moved up or down, the small professional traders failed equally to attract any following. The close was dull and heavy, and net changes were mixed. The local traction stocks, led by Metropolitan, showed rather acuts depression on account of the judicial centifemation of the constitutionality of the franchise tax law. New York Central railied from yesterday's depression, on a rurner of a settlement of the labor troubles. A small shipment of gold was announced to go by awaken the market from its apathy. When

is not contemplated by the Administration

This statement is made upon high au-thority. Drastic measures against Tur-

thority. Drastic measures against Turkey have been urged by ex-Minister
Angell, by politicians on behalf of missionaries, and by ministers of the gospel, but the President and Secretary Hay
have not considered their suggestions.

The Administration is well satisfied with
the concessions made by the Sublime
Ports, and while it is anxious that the
Sultan shall keep his promise to continue

Bultan shall keep his promise to pay the claims, it feels that he has already been considerate of this Government in per-

mitting the reconstruction of the American mission in Harpoot, and in the extension of Roberts' College in Constantinople. It

is authoritatively stated that the latest note presented to the Porte by Mr. Gris-com, the American Charge, is not an ulti-matum but is merely a repetition of the demand for settlement.

There is no disposition in the State De-

There is no disposition in the State Department to hasten unduly the Porte's answer. While an evasive reply is expected, an official said yesterday that the Government would calmly await the outcome, believing that it would be satisfactory to Turkey as well as the United States. This official said the President contemplated, as a remote possibility, the severance of diplomatic relations, and this possibility had almost disappeared as a result of the concessions the Sultan has

sult of the concessions the Sultan has already made. It is likely, from all that can be learned, that the extent of the ex-

pression of displeasure by this Govern-ment at the continued failure of the Porte to pay the claims will be the main-

rote to pay the claims will be the maintenance of a Charge d'Affairs in Constantinople. Minister Straus is not expected to return, and until the claims are settled, it is not proposed that any Minister shall be sent to Turkey.

The conclusion of the Administration not to adopt the suggestions that this Government make a naval demonstration in Turkish waters, is undoubtedly due to the knowledge that Europe would resent

the knowledge that Europe would resent the entrance of the United States into the Turkish question.
