EARTHQUAKE AT SEA

Experience of Ship St. Mirren Off the Columbia.

FURIOUS WAVES AND NO WIND

Instruments on Shore Show There Was Disturbance Some Rours Before-Distance Reckoned.

ASTORIA, Or., May II. - The British ASTORIA, Or. May II. — The British ship Saint Mirren that arrived in this morning from Yokohama experienced a peculiar phenomenon last evening. It was abou half past 6 whn Captaln Coroliner, the bar pilot, boarded her from the pilot schooner San Jose. The wind at the time was blowing light from the south, and there was only a moderate swell on. Suddenly the sea to the zouthward was seen to be in commetion, as if a hurricane was blowing, but the wind did not increase as an immense wave approached the veswas blowing, but the wind did not increase as an immente wave approached the vessel. The ship was tossed about for over two hours in a sea that would bury her in the water and then again lift her up and drop her down. The seas frequently washed plear over her. After this had continued for about two hours if subsided is quickly as it had arisen, and the wind immediately chifted from south to east, then in a short time to northwest, going almost around the comnorthwest, going almost around the com-pass in a few hours. The wind from the northwest was soon in the nature of a gale, and the ghip was under lower top-sails during the night, but no injury was done to her. Captain Hamilton and Captain Cordiner at first thought that a tidal wave was coming, but the long succession of hig waves leads them to the belief that must have been an earthquake in ing quotations for mining stocks today were

that vicinity.

The self-recording government baremeter in the office of Weather Observer Johnson, of this city, shows that about 4 o'clock yesterday morning there was an electrical or seismic disturbance in this vicinity and the telegraph wires also gave evidence of it at the same time. While the ship was experiencing the waves off the mouth of the river the barometer remained steady. This would in waves off the mouth of the river the harrometer remained steady. This would indicate that the waves resulted from an
earthquake that happened carly in the
morning, and as the effect of an earthquake in Japan is felt here 10 days later.

A suit was filed in the circuit court to-day by Charles W. Shively against Clat-sop County and Thomas Linville, Sheriff, to compel a settlement of claims held by
the county against the plaintiff a property
for delinquent taxes for the years 1897 and
1898. The plaintiff today paid \$190 on
these delinquent taxes, and had previously paid \$72 T, making a total of \$182 T,
which he alleges is the full amount rightfully due. On the other hand the rolls
show the delinquent tax against this property for the two years to have been
slightly over \$2800, but errors and double
assessments were found sufficient to reduce it to \$2922, which amount the County
Court offered to accept in full settlement. The payment of the till today
leaves the sum of \$157.25 at leave.

In support of his claim the plaintiff asseris that his property was assessed in
1897 at \$25,656, and in 1828 at \$22,841, and
alleges that the valuations were fixed at

alleges that the valuations were fixed at one-third of the speculative value, while the valuations on other property, both real and personal, throughout the county were fixed at one-third of the real value. In support of his first allegation he asserts that he has contracted to sell his holdings to show the support of his first allegation and the support of his first allegation he asserts that he has contracted to sell his holdings at about the amount of the assessed valu-ation in 1857. He further alleges that legal fraud was perpetrated by the as-sessor in thus making an erroneous asseement and in omitting from the rolls money, notes and accounts held by various other parties. He also alleges that the officers did not act according to law in the tax proceedings, in that fees charged against the property are not allowed by the statutes, and the sale of the property for taxes is vold. The complaint therefore asks that the Sheriff be restrained from issuing a tax deed, and that the tax certificates be returned to the plaintiff without further cost to him. The seasment and in omitting from the rolls plaintiff without further cost to him. The probably be tried at the June court.

The schooner Pioneer arrived off the mouth of the river yesterday afternoon, bound for Knappton to load lumber. See was given orders from the pilot schooner to proceed to Aberdeen to load.

name as Henry Kuhli was arrested just across the river from Salem this for-noon by Sheriff Durbin, this city, on the moon by Sheriff Durbin, this city, on the charge of stealing a team at Corvallis. Word was sent to Sheriff Durbin to look out for the fellow. He proceeded to the Polk County end of the steel bridge here at an early hour this morning and a short time later saw the supposed thief coming toward the bridge. Durbin spoke to the team to stop, saying, "Whos. Belle," and both horses halted. The man saw that he was caught and attempted to pull a rifle from the wagon seat, but Durbin covered him with a revolver and he quickly gave up. The Benton County Sheriff arrived in Salem later in the day and took charge of the prisoner.

One of the things that have made the GEO. W. CHILDS so very popular is the fact that the more a man knows about tobaccos, and the more he knows about the perfections that a good cigar ought to have, the more certain he is to say that the GEO. W. CHILDS heats them all.

The GEO. W. CHILDS has friends among all classes, but its largest number of

friends are among that class who want the best for their money and who insist upon having it.

The popularity of the CHILDS cigar has come to stay, because it is based upon quality that always remains the same, and not upon sentiment. It is not a fad of the

day, but the best-selling staple of the century. The cigar dealer who does not sell the CHILDS is apt to be a cigar dealer who is not quite up with the times.

The Skamokawa creamery is now turn-ing out 175 pounds of gilt-edge butter daily. It finds a ready market in Portland at top-notch prices. The anti-Saloon League at Colfax has a membership of about 89 persons, who are antagonistic to the saloon, and more

especially to such as may violate the liquor-selling laws. Active work is to be begun by the organization against the liquor traffic in the near future. W. M. Dixon and Doc Stivers were badly injured in an accident in Breck & Taylor's logging-camp at Ostrander last Friday, says the Castle Rock Advocate.

The donkey engine was pulling a log in on a curve when the cable slipped over a stump and struck the two men. Dixon's scalp was almost torn off. Stivers' nuse was broken, and both were otherwise badly bruised.

Asotin will soon have a bank, arrangements having been made to establish such an enterprise there by E. J. and W. L. Thompson, recently of Wisconsin. The bank will be organized under the state banking laws and will begin with a paid in capital of £5,666. The major perion of the stock will be taken by the Messys. Thompson, and E. Baumeister, Charles Isseke, B. C. Church, D. O. Powell and Duncan McRae, all prominent citizens and business men of Asotin, will have stock in the new fustifution.

Falling to get all the saw timber

Falling to get all the saw timber needed into the river last Winter, because of lack of snow, William Codd, the Colfax sawmill owner, has determined to haul the necessary logs to water on wheels.

An outfit of 19 or 12 big teams was sent into the woods on the Upper Palouse River for this purpose Monday. The necessary feed and supplies were taken from Colfax. This will be a rather costly method of floating sawlogs, but the lum-ber demand is good and it is found necessary in order to meet the calls.
