General Bristow Goes to Cuba to Take Charge.

RATHBONE MAY BE DISMISSED

Neely Will Fight Extradition-Lack of Inspection Said to Be the Cause of the Trouble.

WASHINGTON, May 14. The Postmas-ter-General, after a protracted interview with the President today, announced that Joseph L. Bristow. Fourth Assistant Postmaster-General, will proceed to Ha-vana next Wednesday to take charge of the postal affairs of the Island of Cuba. The Postmaster-General declined to say The Postmaster-General declined to say whether or not Director of Posts Rathbone would be suspended. It is said, however, that the fact that General Bristow will assume these duties does not necessarily indicate that Mr. Rathbone will be relieved from all connection with the serv ice. General Bristow outranks the Direc-tor of Posts, and the latter might operate as a subordinate, though on this point no statement is vouchsafed.

Further than the announcement that Mr. Bristow would go to Havana, the Postmaster-General said there were no developments in the situation. He said that there had not been an intimation that

that there had not been an intimation that there had been any wrongdoing in the postal affairs of either the Philippine Islands or Porto Rico.

Respecting rumors that similar irreg-ularities to those developed in Cuba have developed in other insular possessions over which the military jurisdiction has been extended, it is declared positively at the War Department that, while the in-spectors have been working constantly to spectors have been working constantly to improve the administrative service, they have not found a single case involving

### SLOW TO RESPOND.

Congressional Inquiries Not Answered by War Department. NEW YORK, May H .- A special to the

Tribune from Washington says:
The later developments in the Cuban postal scandals have produced a feeling among a number of Senators and Representatives that Congress has not been sectatives that Congress has not been treated in all respects with entire frankness by some of the officials of the War Department, which is especially charged with the administration of civil affairs in Cuba, as well as in the Philippine Archipelago, and, until recently, in Porto Rico, So long ago as January 17 the Senate adopted the following resolution:

"That the Secretary of War be and is hereby directed to send to the Senate an itemized statement of public receipts from taxation, customs and other sources, collected in Cuba, and also of public expenditures, including salaries paid to all officers, and Incidental expenses in Cuba out of revenues so collected since the United

The reply of the Secretary of War was dated February II. It was prepared under the supervision of Assistant-Secretary Melkiejohn, who has had entire charge of insular affairs in the War Department ever since that duty was first assigned to him by Secretary Alger, nearly 18 months are. In the letter transmitting the secret ago. In the letter transmitting the report, Secretary Root explained that "if an item-ized matement in greater detail then is shown in the enclosed copies of reports and certificates is desired, recourse must be lad to the accounts kept in Cuba," and

"A copy of the resolution of the Senate of January I7 has been forwarded to the Military Governor of Cuba, with a direc-tion that such a detailed statement be prepared and that without awaiting the completion of such detailed statement, a statement showing the salaries paid to all officers and incidential expenses be prepared and sent to the department, when it will be forwarded to the Senate."

That was three months ago, and so far as could be learned, the detailed statement of salaries, etc., has not yet been received and sent to the Senate.

On January 25 the Senate passed a reso-

On January 25 the Senate passed a resolution directing the Secretary of War to send to the Senate "fun and exact copies of all proclamations and orders that have been issued or made respecting the collection of customs, internal and other revenues in the islands of Cuba, Porto Rico and the Philippines since the seigure thereof by the Government of the United States; the rate of such customs, internal and other revenues, the total amount thereof, a list of the persons or person engaged in such service, and how such customs, internal and other revenues have been and are being disbursed, and whether the same or any part thereof whether the same or any part thereof have been converted into the Treasury of

The Senate has not received any response to this resolution, which it adopted about four monthly "itemized statement" of re-

The monthly "itemized statement" of re-ceipts and disbursements sent by the Au-ditor and the Treasurer of the respective islands to the Secretary of War, a copy of which was also sent to the Military Governor, was of no value whatever for any other purpose than to show how much money had been received by each Collector of Revenue, including the Collector of Postal Revenue, and how much had been expended by each disbursing officer, under the general heads of sciount. There is nothing to show, for example, how many nothing to show, for example, how many persons are required to compose the official and clerical staff of the Director-General of Posts, or the amount of com-

According to the official report from which this information is gleaned, there was employed on December 19, 1859, an "Acting Advisory Council," but "the legal branch of the department" had not yet been permanently organized. There were in the neighborhood of 150 postoffices in operation at that time, and the total population, including United States troops, was estimated at 1,250,000. According to uncommitted information, the salary of the Director-General who presides over this department, amounts to 50000 a year and "pergulaites."

Root to Blame for the Cuban Postal Frauda.

NEW YORK, May 14.—A special to the Herald from Washington says:

Prominent officers of the Army declare that the Havann postal frauds are directly due to the failure of Secretary Root to permit the Inspector-General's Department to make inspections of civil accounts in Cuba as repeatedly urged by Brigadier-General J. LO. DON, May 14.-A special dispatch from Stone Hill farm, near Natal, dated today, says:

"General Buller's advance commenced Thursiay, when he left Ladysmith in strength. When within two miles of Helpmaaker, the Boers opened a heavy fire of artillery, and the British gaus replied while a portion of Buller's troops worked around the Boer flanks. The British attack was pressed home Sunday, Bethuene on the right, outflanked the Boers, whose splendid defensive positions on the Biggarsberg were practically taken. General Buller's march, subsequent to the attack, was carried out without a hitch. The British are still pushing on."

Recent scouting in the direction of Dun-dee has shown that the Federals were in great force on Biggarsberg, so apparently General Buller concluded that it was neccessary to clear them from his rear before commencing a movement in the direction of the Drakensberg Range. ### ROBERTS' PLANS.

After a Brief Halt He Will Make Fresh Start for the Vanl. NEW YORK, May 14.-A dispatch to the

Tribune from London says: General Roberts has an army of 200,000 men for guarding his communications and operating on a front virtually 200 miles wide, from Fourteen Streams to Biggarsberg. Against this army the Boers have 20,000 burghers in the Transvani and Na-tal, and President Steyn has perhaps 5000 burghers under arms in the Bethlehem district. The Dutch have fought bravely and made a wonderful defense, but the day of miracles has passed.

There was sharp skirmishing on Friday on the road to Kroonstad, and Gordon's cavalry brigade acted with gallantry in the final onset. The town was formally surrendered by the Landrost after the Transvaal burghers had removed the bulk of their own stores, blown up a bridge, wrecked the rallway station and done other damage. There were groups of British sympathicers in the streets when General Roberts entered the town at the head of his troops, and the scenes enacted at Bloemfontein under similar conditions were repeated. The troops halted yester-day, after their long march, the two colmms, which had been 40 miles apart at the outset, having been massed at Kroon-stad. This town will now be converted into an advanced base of supplies for op-erations in the Transvael.

THE NEGRO'S PROGRESS.

Controller Dawes on the Advance ment of the Colored Man.

CHICAGO, May 14.—Charles G. Dawes, Controller of the Currency, addressed the Men's Sunday Club at Quinn Chapel last evening, and received an enthusiastic re-ception. He told his auditors of the won-derful progress made by the people of the colored race since freedom and equality of rights have been given them, and pointed out how they had been accomplishing much in the last 25 years. Other speakers were; Dr. W. P. Thirk-leid, Dr. J. W. E. Bowen and Dr. C. M.

"During the brief period which has in-tervened since the close of the Civil Wat in the United States, the educational and industrial progress of the colored people has been marvelous. At the close of the war the free colored population of the United States was about 19 per cent of the total, and a very small proportion of this number could read or write."

Mr. Dawes then gave scatistics of the

advancement of the colored race, and in oncluding said: .
"In agriculture, commerce, manufactur-

ing, literature and art, and in every line of husiness enterprise or educational effort in which this nation is engaged, the col-ored people have their competent representatives. In literature, colored authors have made a most creditable showing. It is not generally known, but it is a fact that the library of Congress contains over 1100 books and pamphlets written by col-ored men and women, embracing poetry, fiction, history and sociology.

"In every war in which the United States has been engaged from the Revo-lution to the Spanish-American war, the colored man has distinguished himself on the field of battle. There are now in the United States Army two regiments of col-ored cavalry and four regiments of infantry and a large number of colored men are enlisted in the Navy. Surgeon S. B. Hunt, late of the United States Army, has recently made an exhaustive research into the capacity of the colored man as a

soldier, and he says:
"'For the purpose of the soldier, he has
all the physical character required. His temperament adapts him to camp life and his morals conduce to discipline. He is brave and steady in action. In all subequent wars, the country will rely very largely upon the negro population as a part of its military power. In these facts, which I have thus hurriedly grouped, and in many others which might be cited, is found the highest incentive to greater efforts on your part for your

Michigan Town Burned.

Mil.WAUKEE, May 14.—A Sentinel special from Marinette, Wis., says:

Fire started in the big lumber and cedar yards of the C. H. Worcester Company, at Fisher, Mich., 25 miles west of here, at noon today, and tonight the town is in ruins. A high westerly wind prevailed. The loss will be over \$200.000, partially insured. The C. H. Worcester Company, of Chengo, which owned most everything in the place, is the heaviest loser. The fire started in the lumber yard early this morning, and in a short time the big saw mill, planing mills, school house, 46 dwellings, hospital, two lumber yards and a number of other buildings were in ashes. Two hundred people are homeless there tonight. Everything in the town was burned except two dwellings, the company's store and the depot.
