## CITY NEWS IN BRIEF

NORKIS & HOWE'S Trained Animal Bhow, Eleventh and Clay Str., 3 and 8 P. M.

LOOK OUT FOR THIS SWINDLE.-The man who calls at residences and says he has, been sent after a sun of notices, which the owner wants cleaned and pressed, is around again. Whether he is the asms fellow who was working this racket here a year or two ago has not yet been ascer-tained. One of his tricks at that time was going to the house of a prominent physician, and getting away with his dress suit by saying that the doctor was going out to a banquet, and would dress at his office, and so had sent for his evening clothes. Testerday, shortly after a resi-dent of Tweifth street had starsed for his office down town, a man called at his house and said he had been sent after a suit of clothes, which needed cleaning and pressing. He was told that the master of the house had not laid out any suit as was usual in such cases. He said he had met the owner of the clothes a few blocks down the street, and had been told to met the owner of the flowing a tew blocks down the street, and had been told to come for the suit. The mistress of the house told the fellow to wait till she could ask her husband by telephone which suit he wanted cleaned, and the tellow went off, saying that he would be back, but he did not return. He is cyldently an old hand at the business, and the women folks will do well to look out for him.

ELOATING THES DOWN THE SANDY.—The ise in the Columbia has caused back-aster in the Sandy, and sawmill mendong that river are beginning to dump allroad ties into that stream, considering the backwater the safest kind of a boom Last year many thes passed over or under the log boom which was intended to stop them at Troutdale, to the serious loss of At Bramball's mill and Mensenger's mill there are a large num-ber of ties to be thrown into the river, which will be taken out by an endless chain arrangement at Troutdale and de-posited on flat cars. The Cummings mill, on the Bandy, is about ready to begin cut-ting ites, and all the mills there have fine bodies of the timber. The ties cut in the half-dozen or more mills about susant Home are not taken to the river, but are hauled direct to Troutdale. The country between Portland and the Sandy is being rapidly cleared of its limber, and would soon be converted into good farms if there was a railroad out there. The long-talked-of railroad to Mount Hood will be built some time before long, and will open up a lot of good farming and timber land, and will besides be a great attraction to

CITY SAFE STILL CLOSED.-The time lock n the safe in the City Treasurer's office hour yesterday afternoon all the "experis" called in had not succeeded in gesting it opened. Treasurer Hacheney has instructions in regard to the method to be used in opening the safe in such cases, but, unfortunately, in order to keep them safe he put them in the sale, and they are safe enough in there. They are of about as much use in this emergency as the cable and anchor which the captain in the anecdote had left at home. The affair auses no particular inconvenience, as there is nothing in the safe but some small change, a supply of which has been procured from the outside, so business goes on without interruption. It is supposed that the clockwork in the time lock has gult work because it has not been cleaned

SIX O'CLOCK CLOSING ASSOCIATION .- Th following is a brief summary of the programme to be presented at the Marquam Theater tonight. The meeting will be called to order by the president of the Six o'Clock Closing Association, and formaily turned over to the officers of the Woman's Club. Brief introductory re-marks will be made by the chairman, fol-lowed by Mayor Storey, after which Mrs. Walter Reed will render a vocal solo. The principal speakers of the evening will then be introduced in the following order, alternated with vocal or orchestral selections: Rev. E. F. Hill, Judge George H. Williams, Archibishop Christie, D. Solis Cohen and Chapiain V. S. Gilbert, folowed by brief remarks from Rev. A. A

Morrison and other well-known members of the Portland Ministerial Association. DEMOGRALIZED.—The STRAWGERTY market has been budly demoralized for the past w days. The showers in this section evented the berries from ripening, and Saturday Hood Biver berries brought 20 cents a pound. At the same time Call-fornta berries in bad order were being seddied about town at I cents per basket. Festerday Roseburg strewberries were eiling for 20 cents per basket, and a large of of California berries, which arrived in poor condition, were being gotten rid of at any price. Many cases of California berries have been thrown away. A few days of bright wares weather would fit. the market with Mount Tuber strawberries and put an end to California importations

BIG BUILDING TO BE OCCUPIED -The fine stone building at the intersection of Sixth and Ankeny streets, which was built by the Soell, Helishu & Woodard Co., and occupied by them as a wholesale drug house up to the time of their fail-urs, is to be occupied by the candy fac-tory of the Pacific Coast Bissuit Com-pany, who will put in a steam plant. It will add very materially to the impres-sion the stranger in Portland gets of the city as he drives up from the Union dene stone building at the intersection of city as he drives up from the Union depot to see this large building, which has stood idle so long, a hive of industry enco

OVER LOWER WHARVES.-The water came over the lower wharf at the foot of Alder street yesterday morning, show-ing that the anuse fixed on the Columbia is on, and earlier than usual. No one is on, and earlier than usual. No one imagines that the rise will be great enough to cause any particular annoyance. Some had an idea that the water would not get over the whatves this season, as this has been known to happen more than once. The water is supposed to be coming from the Rockles, in British Columbia, and as the rise is earlier than usual, it will probably not just so long as usual.

Dull, Amound the Crew Hatt. Com-

DULL ABOUND THE CITY HALL-COURclimen are not numerous around the City Hall these days, and even the Mayor is not so much in evidence there as he used to be. There will be a meeting of the Council temorrow, but it is not known that there is any business of importance to come up for consideration. A lot of street work is under way, and there will probably be a number of ordinances to pass in connection with this, but there is not likely to be much outside of routing business coming up until election is over

AKNUAL MIETING TODAY.—The Free Kindergarten Association of Portland will Kindergarten Association of Portland will hold its annual meeting this afternoon at 4 o'clock in the Portland Academy building. There will be a short business session, to be followed by a good programme by kindergarten pupils, and also un address by D. Solis Cohen. All friends of this work are invited to attend, and it is hoped that all members of the association will be present, as there are II directors to be elected.

Two of the Triplets Drad.—Two of the triplets born to Mrs. Villiam Elvers, May 5, have died of inantition, a boy and a girl. The surviving gri blos fair to live and prosper. One of the little ones lived five days and the other six. The mother is doing well. The little survivor of the trio will fall heir to all the cothing, etc., which kind-hearing nearly contributed for which kind-hearing nearly contributed to

which kind-hearted people contributed for the three, and will lack for nothing. Toxicular at the Marquan Grand.— Toxicular at the Marquan Grand.— Toxicular at the more than the co-operation of our citizens in shortening the business day to a reason-able number of bours. To Aid Russian Suprimers.—A man meeting held to take means for alleviating the condition of the famine-stricken Jews of Souhein Russia, was held at Temple Beth-Israel Sunday afternoon. D. Solis Cohen acted as chairman. Those who addressed the audience were: D. Solis Cohen, Rev. Dr. Bloch, Rev. Dr. S. Mosessohn and Dr. A. Thizer. A central relief committee was then appointed by the chairman. The committee appointed comprised Rev. Dr. N. Mosessohn chairman; Rev. Dr. J. Bloch, S. Blaummuer, B. Soling, L. H. Lewis and Hon. Soi Hirsch. The latter was unsnimously elected treasurer. A meeting of the committee was held yesterday and the following committees for collection were appointed: For Congregation Talimud Thora and Nevah The latter was unanimously elected treasurer. Stop and Think,—We wish to say to those intending to buy planes to stop and think. A plano is a purchase that should has a lifetime. Consider this, and then ask if you are doing yourself justice to buy chesp goods, simply because the price seems cheap, when in reality they are extremely high. The only method to employ in purchasing a plane is to pay a price consistent with the goods you are buying.

Dollars cannot be bought under any cir-

houses has saved his city cherries.

Work Suspinners—Work on the Cascade locks has been suspended until the middle of next month, on account of the high water. Kiernan & Taylor, of Portland, who have the contract for riprapping the middle wall, expect to resume operations after the water recedes, and will put on 50 men for the remainder of the season. The work will consist in quarrying rock running it on a transway to the locks, and placing it on the way to the locks, and placing it on the slaping banks to prevent their further washing away. It is thought that \$150,000 to \$200,000 will yet be needed to complete the locks so that steamers may pass chrough in all stages of the water.

FOR BENNEYT OF MONUMENT FUND.—At a meeting of Clan Macleay last night it was decided to cciebrate Queen Victoria's birthday by giving a concert in the Armory, May 25, for the benefit of the monument fund. The programme has not yet been fully made up, but will consist of the best musdoul talent in the city. The entire proceeds will be given to the monument fund. Clan Macleay has always been successful with entertainments of this

deserves hearty support.

HE Was Made Ur.—An engine-driver rushing his team to a fire a day or two since with his face covered with lather, except a strip on one side, where the barber had made one scrange as the bell rang, attracted considerable attention. Beholders were at a loss to understand whether the driver was a gray-bearded parting of the profession of whether he was made up for the occasion. It is nothing unusual for employes of the fire department to have to leave the table with their meal unfinished, or the berber's chair halfshaved, to answer to an alarm. They musually have time between alarms to get these matters straightened out.

Progression of Quan.—Reports re-

these matters straightened out.

Promising Crop of Quall.—Reports received by Game Warden Quimby from all parts of the Wilamette Valley indicate that the crop of pheasants and quall is going to be very large this year. One man reports that in driving from Lebanon to Albany he counted % old pheasants, the young ones not being seen. The mild Winter and early Spring has been very favorable for the broods of young birds. Many of the pheasants are already thinking about a second brood. Ffrom several sections reports have been received to the effect that quali are numerous, and are raising large broods of young ones.

Thourt-Fishing Nor Good.—Fishermen

TROUT-FISHING NOT GOOD.—Fishermen streams this year, or if they are they are not saying anything about it. One sports-man reports having had fair sport fishing the Sandy with a fly up near the pipe line bridge. He caught some mountain rout, and a salmon, but no salmon trout. Several fishermen visited the Clackamas Sunday, but had poor luck. In the ab-sence of the usual supply of trout, it might be imagined that the fish llars would come out strong, but poor luck

would come out strong, but poor luck seems to have a depressing effect on them as well as the truthful fishermen.

BASEBALL.—The baseball game between the High School and Bishop Scott Academy, that was postponed last Saturday, will be played this afternoon on the field at Nineteenth and Everett streets. The eams are evenly matched, and the outcome is much in doubt. The result, though, means a good deal towards securing passession of the much-covered Feldenheimer trophy. The batteries will be Martin and Weatherford for the Academy. and Harkins and Swope for the High

Got.F.-The last monthly competition for Golff.—The last monthly compelition for the Corbett cup took place resurday, and resulted in Miss Heitshu qualifying with the scratch score of \$4. The finals will be played Tuesday, May 29, and those eligible for same are: Mesdames Wilson, Koehler, Ayer, Wilcox, Shepherd, and Misses Macleny, King and Heltshu. The players are all very evenly matched, and an exciting contest is looked for. On Saturday Messrs, Clifford and Bourne qualified for the Wilcox trophy. tfied for the Wilcox trophy.

The-present object is one which will appeal to every one, and which deserves hearty support.

HE WAS MADE UP.—An engine-driver rushing his team to a fire a day or two

arrested at the instance of A. C. Gibson, who charges him with "malicious and wanton injury to an animal, or other personal property." It seems that a gang of canines had gathered about Mr. Leick's premises, much to his annoyance, and he turned a shotgun loose at them, breaking the leg of a doc belonging to Mr. Gibson, who places the value of the injured canine at \$500. The defendant was permitted to depart on his own recognizance.

OLD COLONIAL CONCERT.

Music and Humor at the Congregational Church Tonight.

It is so long since am old folks' concert has been given in Portland that the one announced for this evening at the First Congregational Church is sure to attract a large and appreciative audience. It is called a Colonial concert, and the dames of 100 and more years ago will be there in powdered hair and crinolins.

The regular church choir, so well known

for the exceptionally fine quality of its work-Mrs. Rose Bloch Bauer, Mrs. Ralety, Mr. Belcher and Mr. Montgomery-will be assisted by an excellent chorus of a voices. This chorus has been in training for eight weeks by D. Edgar Ciarko, who was formerly a member of one of who was formerly a member of one of the famous old Boston quartets, and is therefore well fitted for his task. This will differ from the ordinary old folks' concert in the superior quality of its music, as those who are familiar with the work of the choir will readily forece. But the humorous side is not going to be neglected, as a giance at the following programme will prove:
