USE FOR OUR HARDWOOD

TO BE MADE INTO PLOWBEAMS. SPOKES, HUBS, FELLOES, ETC.

Factory for the Purpose Is Now Under Construction at Corvailis-Value Is Increasing.

CORVALLIS, Or., May 15.-A move-ment has developed here that promises to materialize for the manufacture of plow beams, spokes, hubs, axtes, ax handles and many other kinds of woodwork for use in the manufacture of agricultural implements and farm machinery, utilizing for the purpose the oak, ash, maple and other woods that grow in Oregon forests. The movement is born of a belief that Oregon hardwoods are to become importent within the near future, in the manu-facturing world, due partly to a-growing scarcity of hardwoods in the East, and partly to experiments which seem to indicate that Oregon woods are well adapted

to the purpose for which it is proposed to utilize them.

A plant for carrying the scheme into effect has already been provided for. A building 48x50, two stories high, has al-ready been begun. It is located on vacant lots just south of the Corvallis sawmill. The machinery of the Martyn planing mill has been purchased, and this, together with new machinery to be secured, will comprise the plant. It is expected to have the factory in readlness to begin operations within a few weeks. Nearly every variety of hard wood material for manufacturing purposes will be within the range of the output of the new estab-lishment. The chief investor in the ca-terprise is E. W. Strong, of the Corvallis sawmill, by whom a vast quantity of hard-wood lumber has been manufactured and marketed in the past year. The under-taking is to begin on a limited and safe basis, but with the successful introduction of the new material, the plant and output will be largely increased.

NEW LIFE AT OREGON CITY.

Movement to Get a Commission Rouse and Pork Packery. OREGON CITY, May 15.—There was a large attendance at the Board of Trade meeting last night, every seat in the Ccun. ty: Courtroom being filled. The report of the secretary showed that there were 73 members in good standing, and about \$390 collected and collectible. The road committee was heartly commended for the successful efforts in securing the im-provement of the instahery road, and the sentiment was pretty unanimously expressed that one of the objects of the ard will be to secure the improvement of a trunk line rond leading into the city each year. President Cross suggested that a commission-house be established by a joint corporation, the stockholders to b business men in the city. Among the articles abundantly produced in Clackamas County for which there is so home market were mentioned outs, barley, hay, petatoes and green and dried fruits. was colled to the fact that during the week a farmer from Springwater brought 900 pounds of evaporated pruins to town, but was unable to make a sale, and drove down on the west side of the river to Portland to find a market. The remark was also made that unless the business may here should take the initiative in providing a market for the products raised in the county, that some John Wansmaker would come along and establish an im-mense depraturent store, taking farm products in exchange for goods, which would result in freezing out the small dealers. W. A. Huntley said that while an establishment of this kind would be a benefit to the city and to producers and consumers, it would have the effect of driving the smaller storekeepers out of business. On motion the president ap-pointed a committee of nine to devise a pinn for establishing a market or coms-house, consisting of Frank Busch mission-house, consisting of Frank Busch, E. G. Caufield, E. J. deKlitrick, C. G. Huntley, E. E. Charman, F. T. Barlow, Sam Selling, G. W. Grace and J. M. Price. This is said to presage a large later run, and that the big run of August will come in July.

STARTED ON THE STATEHOUSE.

Rebuilding of Representative Hall Actually Under Way-Salem News. SALEM, May 15.-The first work toward putting in the new floor over the Hall of Representatives in the State Capitol was begun today under the supervision of the contractor. The work to be done is to build a floor extending from the gallery in the House of Representatives across to the south wall, which will greatly im-prove the acoustics of the chamber and furnish abundant room for offices above. The openings in the floors have been made for the pillars, which will be built on a cement foundation under the basement of the Statehouse.

On Friday evening, May 18, the Salem Floricultural Society will hold a rose show, which is expected to surpass any exhibition of the kind ever held in this city. The show is under the management of Mrs. W. Brown, who has made all necessary plans for a perfect exhibition. Owing to the favorable public sentiment and the fact that the receipts of the show will be used for the erection of a public drinking fountain in this city, it is ex-pected the attendance will be unusually large. Besides the floral exhibit, there will be a pleasing programme of mus-c. There will be a decorated bloycle parada preceding the opening of the show.

DEMOCRATS OF CLARK COUNTY.

Opposed to Governor Rogers and Indorse Towne for Vice President. VANCOUVER, Wash., May 15.- The folwing delegates to the state convention to be held in Spokane, May 19, were elect-ed by the Democratic county convention held here today:

Lieutenant-Governor Thurston Daniels James A. Munday, Dr. B. A. Wiswall, E. M. Green, J. W. Wentworth, W. C. Johnson, C. P. Bush, Colonel B. F. Shaw, D. L. Russell, S. N. Secrist, Joseph Bone Milton Harlan and Walter Seward. The delegation is regarded as anti-

Rogers, upon the gubernatorial question. The convention ignored the Vice-Presidential candidacy of James Hamilton Lewis, and passed a resolution favoring Charles L. Towne as the running mate for W. J. Bryan. Colones B. F. Shaw was chosen chalr-

man of the convention, and Eupert Har-tison and F. C. Briggs secretary and assistant accretary respectively. Of the SS delegates entitled to sents only about 50 were in attendance. A number of precincts had falled to hold primaries. A manjority of the delegates were from the regular Democratic organization, the Populist wing being but meagerly repre-sented, aside from a few delegates from this city. C. P. Bush, Populist, ex-Reprecentalive to the Legislature, was chosen chairman of the County Central Committee, to serve until the Fall convention.

There was a spirited contest for this

place among four candidates. The others were: J. W. Wentworth, formerly chair-

man of the Populist organization; James A. Munday and S. N. Secrist, Democrats. and John Wuchter, Populat.
Resolutions were adopted expressing sympathy for the Boers, pledging delegates to the state convention to vote for only such persons as delegates to the National convention as will pledge themselves to vote for a direct legislation plank in the National platform; also indorsing the nomination of W. J. Bryan for Presi-ent and Charles A. Towns for Vice-President. The platform inderses the Chicago platform, demands direct legislation, con-demns the Philippine war, asks for election of United States Senators by direct vote of the people, approves action of Democratic Congressmen in relation to municipal ownership of franchises and Government ownership of railroads; comnends achievements and patrio.ism of oldiers in the late war, and declares against trusts and against control of oney by National banks. The introduion of a radical pro-Hoer resolution called orth a spirited discussion between Harian and Wentworth, who favored the resolu-tion, and E. M. Green, who claimed the object of the resolution was simply to eatch German and Irish votes.

TWO OFFICERS RESIGN.

Thereby Harmony Between Council and Mayor of Eugene Is Restored.

EUGENE, May 15 .- At the regular meeting of the City Council last night the resignation of City Marchal J. S. Stiles and Nightwatchman B. F. Hawk were reccived and accepted. The resignation of Hawk will take effect immediately, and R. O. Brady has been appointed to fill the vacancy. Stiles will continue to serve as Marshal for 60 days longer, and his successor has not been chosen. The resignation of these two officers re-

suit from the refusal of the Council to confirm their appointment. At the an-nual Council meeting a month ago the Mayor reappointed them to the positions which they had been holding for some years past. The Council refused to confirm the appointments, and the Mayor announced that he did not contemplate making other appointments, leaving them to serve in the absence of any successors. From this came a determination on the part of the Councilmen to see that s change would be made. There was con-siderable talk as to how removals could be made, and a report gained circulation to the effect that the salaries of the two officers would be reduced by the Council to M per month. The resignations of the officers precluded anything in this line, however, and the differences between the Mayor and the Council are probably settled.

A few of the souvenir buttons manufactured from the captured Sparish cun-non were placed on sale in several of the Eugene mercantile houses this morning, and will undoubtedly soon be taken.

WASHINGTON, May 11.—Sergeant John Chase, of Company B, Twenty-fourth Infantry, now stationed at Vanecuver Bar-

handwriting experts in the country.

The body is a house. Through the long winter months it is closely shut in by heavy clothing. It lacks sunlight and fresh air. It is weakened by living in an overheated and foul atmosphere. It accumulates a certain clogging refuse from the heavy foods necessary to winter warmth. For this reason the body needs its own spring cleaning. The languor and weariness, the tired and "played-out" feelings which are so commonly associated with the spring season are the evidences of a sluggish and impure condition of the blood. More than all else, this impure condition of the blood offers a prepared breeding ground for disease, and

greatly increases the liability to serious maladies.

Everybody recognizes the need of a blood cleansing remedy in the spring. The mistake made by many people is to use some alcoholic medicine, which overcomes that "tired feeling" simply by keeping the body stimulated. These so called medicines are of no real benefit, and do not cleanse the blood.

The first thing to be noted of Dr. Pierce's Golden Medical Discovery is that it contains no alcohol, neither opium, cocaine, nor any other narcotic. The results that follow its use are real and permanent, not the superficial results of stimulation. It entirely eliminates from the blood the poisons which feed and breed disease. The result is that it cures eruptions, pimples, blotches, scrofula, salt rheum,

rheumatism, and other forms of disease which originate in impure blood.

The tonic effect of "Golden Medical Discovery" is remarkable. It not only cleanses the blood of impurities, but it enriches it, and increases its flow by increasing the activity of the blood-making glands. There is a great deal of talk about "blood-making medicines." But it is only talk. No medicine can make a drop of blood. Blood is made from food, after it has been properly digested and assimilated. "The blood is the life," but if the body is not fed the life current fails. The blood is life only while the body is properly fed and nourished. It is the recognition of these fundamental physiological facts in the preparation of "Golden Medical Discovery" to which may be attributed in no small degree its wide range of remarkable cures. The blood supply is reduced and its quality impaired whenever there is disease of the stomach and its associated organs of digestion and nutrition. By curing diseases of the stomach and other organs of digestion and nutrition, "Golden Medical Discovery" enables the perfect digestion and assimilation of food which is converted into nutrition, and in the form of pure blood strengthens every organ of the body. It makes new blood and new blood is new life.

"I must again send a few lines to you to let you know how I am getting along since taking the wonderful medicine which cured me two years ago," writes Miss Bertha Ebeler, of 1416 Benton St., St. Louis, Mo. "I still continue in Thought there was no help for me—at year good health, and think there is least the doctor said there was none. I Dr. Pierce's Golden Medical Discovery. NEW YORK, May 15.-An article in the

Vorland, the organ of the Danish Governworland, the organ of the Danish Govern-ment in Copenhagen, states that Den-mark is considering a plan to put an end to the Danish West India Islands muddle by placing the Islands in the hands of a chartered company, which will conduct their affair under the Dan-ish flag, and thereby cutting off Ger-many as well as the United States from obtaining possession of the Islands. obtaining possession of the islands. It is perfectly well understood in diplo-matic circles in Washington, it is stated, that unless Congress acts on the matier during this session, this Government can not become a purchaser. From the time the sale of the islands was mooted, prominent business men have contended that the sale should not take place. According to the Vorland, it was understood by the promoters from the start that it would be necessary to reform the enormously

expensive administration of the islands and wipe out the old monopolites.

The first plan is to start a National bank at St. Thomas, to which the Government has already given private consent. ment has already given private consent. The present customs regulations will be abolished and is ones instituted. A local steamship line will be run between St. Croix and St. Thomas, and side rips will be made to Porto Rico. The customs regulations are to be changed to increase the freight traffic. The exports from St. Thomas, to St. Croix from 1507 to 1504. ed in time for the Fall term.
