The entire school, attired in pure white with hig yellow bows, was arranged in the Stamary's College hall, across the street from the main building. The after the of the pretty children, so daintily dressed and neat in appearance, gave the end of the hall a very animated and cheerful aspect. "Little children, this is the earnest care of the church, and I find it illustrated in the education you have received in this academy. The good Sisters have striven to educate, not only the intellect, but especially your bearts, because mental instruction without moral education and instruction, I would say is rather injurious than beneficial to the children and to men in general. So you understand why the church constantly urges the bishops and priests and the parents for the education of their children. Therefore I ask of you to avail yourselves of the oppor-tunity, of the means afforded here in this academy, and in that way you will reflect great credit upon the Alma Mater, and will be a consulation to your beloved archbishop, your priests and your good parents who do so much to give you an have them, regardless of expense. Judge Cleland Denies Defendant's Plea of Abatement-Notes of Minor Litigation.

Judge Cleland yesterday decided from he bench that the United States Mortgage Company is entitled to proceed with its nortgage foreclosure suit against P. A. Marquam, and the plea in abatement was

Health of Troops in the Philippines Army and Navy Gazette.

The Surgeon-General of the Army has received a cable message from Colonei Charles R. Greenleaf, Assistant Surgeon-General United States Army, chief sur-geon of the department of the Pacific and Eighth Army Corps, saying that the total number of cases in the military hospitals in and around Manila, March 12, was 1287. There has been a steady reduction in the number of cases under treatment at the cospitals since January 20 last, when they numbered 2540.
