

WASHINGTON, May 20 .- Under cove of an annual report on the trade relations of Germany, Consul-General Mascon, at Berlin, has published in the volume of commercial relations, issued from the bureau of foreign commerce, State Depart-ment, some exceedingly important statements relative to the present conditions governing trade between Germany and the inited States. Still more important are the predictions made by Mr Mason treatment Germany has in store nited States trade at competitive to the remaining the states trade at competitive for United States trade at competitive points hereafter, and his warnings to Americans of the German purpose to demand far higher duties on imports, espe-cially against the United States pro-ducts. Mr. Mason says that Germany has been paralyzed at the enormous upward bound of foreign trade of the United States, and as German merchants have come to the conclusion that this prosperity is attributable entirely to the United

NEW YORK, May 21.-According to a special to the Herald from Washington, All Ferrouh Bey, the Turkish Minister, is expected to present Ahmed Pasha, Rear-Admiral of the Turkish Navy, sent to the United States to place a contract for a Turkish cruiser and to settle the Ameri-can missionary claims, to the Secretary of State this week. Ahmed Pasha is expected to present himself today at the Turkish Legation. His statement that he would get instructions through the Min-ster is not understood in Turkish diplomatic circles here. The understanding of the authorities has been that the Admira would bring instructions for the settle-ment of the dispute. If the Admiral's the first of the dispute. If the relations in the solid of the section, then it is said the authorities will be certain that the Sublime Porte is only meeking delay, and they will more vigorously exert pre-sure to force it to pay the indemnity.

Wright is 21 years old, and says he became acquainted with Mrs. Butler at a restaurant, where she was employed as a waltress. She was taken ill, and as she appeared to be without home or friends, he took her to his home. According to Wright's story, Mrs. Butler asked him to

sit in the room with her last night, and he remained there until after midnight. Then she asked him to get her a drink of water. He went downstalrs, and on returning found her lying on her back

with the dagger in her breast, just above the heart. He pulled the dagger from

Harrison Not for Governor. CHICAGO, May 20 .- At a meeting of the

Increase of duties, especially upon im-ports from the United States. Mr. Mason has much to say about the

steadily growing irritation exhibited by the German press against the United States, and the criticisms of the trade papers of our customs officers, who are charged with practicing chicanery in their efforts to prevent undervaluation of Ger-man exports to the United States, Complaints are made against Germans acting as agents for the sale of American or English goods, and conditions are being imposed to discourage the taking of for-eign pupils in German technical schools. He treats also of the great growth in the German trade in the East, resulting in the new policy of the Government and its de-termination to obtain a share of what the far-sighted statesmen recognize as the chief commercial prize of the 20th cen-tury-the trade of China. German trade with China has increased 70 per cent in the last four years, and German capital is being invested with an audacity which should stand as an example to Americans seeking foreign trade.

In conclusion and recurring to the sub-ject of relations between the United States and Germany in the future, Mr.

Mason has this to eay: "There is therefore every possibility that the new tariff and such amended Mpecial treaties as Germany may consent to enact will modify the commercial rela-tions of the Empire with other nations particularly with the United States. It is not to be denied or overlooked that while the attitude of the Imperial Govern coward our country has been uniformly correct, there is in certain business circles here a feeling of enmity and resentment which did not exist prior to 1898. The heavy balance of trade which the Un'ted States now holds against the fatherland. the decline in textile exports and the sharpened customs regulations against undervaluations, the concessions recently granted to France, and, above all, the enormous growth of American manufac-

tured exports, the aggressive competition of American metal and other products in South American and Enstern markets-all these weigh heavily on the hearts of the people here and will be hard fought when the new tariff and treaties come to open debate in the Reichstag. What most enlightened thinkers expect, or at least hope for, is that out of all these mutations will come a broad, liberel, compre-hensively-framed treaty or series of treat-les between the United States and Ger-many, in which all the vexed and irritat-

ing questions relating to naturalized cit-izenship, countervalling duties and port izenship, countervalling duties and port charges on vessels shall be regulated and liberal justice to imports of food products secured by reciprocal concessions and emadjed in died in permanent conventions between is two countries. "Rivals and competitors in foreign fields

-South America, Africa and Asia-the United States and the German Empire will always be, but this is no reason why the two nations should not be in their direct relations with each other harmonizus and mutually considerate, and this result can in no way so effectively be promoted as by an intelligent revision of obsolete treaties and their adjustment to modern requirements and conditions."
