### COMMERCIALAND FINANCIAL NEWS

The weather yesterday was unfavorable for less effective, and prices generally declined belocal business, and the steady downpour of low last night's level. At the same time romain had a depressing effect on most lines of more were disseminated that other bouses were disseminated that other bouses were line from the control of the con local business, and the steady downpour of rain had a depressing effect on most lines of wade. Produce receipts by rail were of good proportions, quite a quantity of vegetables coming from the Sacramente Valley. The California steamer in late last evening, did not bring very much produce and fruit. The wet weather is interfering greatly with the strawberry crop. California stipments were shut off governi days ago, and since then there has been hardly enough of the Oregon fruit received to supply the demand. Best Hood River and Dallies berries sold yesterday at 10c, and Southern Cropn about it and 8c per pound. The erg market stiffened up a little, and they were selling again in a small way at 14c yesterday. Poultry cleaned up fairly well yesterday, and prices are steady.

Bank Clearings,

Argentine shipments are still beavy, and the news that they had again passed the 2,000,000-bushes mark was not a conferting factor for the bull contingent in the wheat trade yesterday. If these weekly shipments of from 2,000,000 to 3,000,000 bushels from the Argentine keep up much longer, the Hessian fly and army worm, the chinch bur and all of the rest of the corm, the chinch bug and all of the rest of the worm, the chinch bug and all of the rest of the catomological wheat enters will have to put in nights and Sundays from now until harvest in order to keep any semblance of strength in the market. Locally there was a kind of day-after-the-Queen's-birthday feeling in the market, and business was on a restricted scale. Walla Walla is nominally 51652c, and Valley about the same ferrors. There is too much firmness he same figures. There is too much firmness n freights, and too high a valuation placed on

NEW YORK STOCK MARKET.

NEW YORK, May 25.—The stock market was intensely dull today. There was no appreciable outside demand, and professional traders preferred to hold aloof, pending more definite developments regarding the affairs of Prios, McCormick & Co., whose failure was announced vesterios. There counter a Co., whose failure was announced yeaterday. There were not many transactions under the rule on the exchange today for the firm's account, but there were indications of large transactions in accordance with private settlements. Thus in the early dealings there was a sale of a 900-shape block of Atchison preferred, the same house being both the buyer and selier. There was also a record current that large requirchases were made for chicago account of blocks of stock sold yesterday for the falled firm. The Atchison transaction was explained as being a mere transfer of an account. These operations doubtless represented the progress of a settlement of the firm's affairs. The prices at which they were sold indicated that the buying of the stocks was intended to be about last night's closing prices. The fact that the settlement could be secured helped to sustain the market, and prices ruled for the greater part of the day at or above last night's leved, in spite of the almost stagmant condition of the market.

the buying side at the decline, disappointed some expectation.

The prospect of a large increase in the cash reserves of the banks in tomorrow's bank statement seemed to increase rather than relieve depression. In spite of the easier money rates abroad, there was no disposition to buy American stocks today.

The bond market continues duil, and the charges in prices were small and street. The and the range was narrow. Hogs were firm early, but weak later, forming a mild influence for the guidance of the product. July park closed a shade over resterday, lard 21/2 lower and ribs unchanged.

The leading futures ranged as follows:
WHEAT.

changes in prices were small and mixed. The total raics, par value, were \$1.310,000. United States refunding 2s, when issued, advanced 5 per cent: 3s, registered, and 3s, 5, and old 4s, 55 per cent in the bid price.

Poreign Financial News

NEW YORK, May 25.—The Commercial Ad-ertiser's London financial cablegram says:

The markets here were quietly steady for a while, but weakened finally in sympathy with continued depression in Westmalians. Ameri-can dealings were microscopic. There was Liv-erpool buying in the morning, but the close was

dull, in sympathy with New York. Copper shares were heavy on the fall in metals. The bank bought £10,000 gold in Australian bars, and received £5000 from Matts.

LONDON, May 25.—Bar silver, 27%d. ...

London Wool Auctions. LONDON, May 25.—The third series of the 1900 nuction sales closed today, with offerings of 8285 bales. The selection was fair, and mot with a good demand at firm prices. The built of the offerings were taken by Yorkshire. The home trade secured 70,000 bales; the Continent, 50,000; America, 3000, and 157,000 bales were held over. held over.

NATIVE-BORN CHINESE.

Has No Objection to Women Voting

PORTLAND, May 24 .- (To the Editor.) --My attention was called to a communi-cation in your issue this morning, signed "M. C. Y.," evidently a woman. She protests against the fact that wemen are not allowed to vote, and declares it an unjust -discrimination, "taxation - without representation," as she says. In the let-ter "M. C. Y." uses this language: "I have noticed in a recent Oregonian that native-born male Chinese are being pre pared for the ballot for the coming elec-tion. Do our husbands, fathers and brothers consider a Chinaman, who sende the greater part of his earnings back to China and who does virtually nothing to elevate our country, better fitted to assist in making our laws, simply on account of the accident of sex, than the taxpay-

them by lew. He, however, decidedly ob-jects to having any reflections cast upon his right to vote, the same as other cit-A CHINESE NATIVE-BORN AND TAX-

WANTS BULL RUN WATER. A Correspondent Who Voices Sentiment of Those Across the Line.

PORTLAND, May 21 -- (To the Editor.) --In your issue of yesterday there was an item in which we are told that Portland is one of the healthlest cities in the States, and that it has the best water on earth since it was supplied with Bull Run. This is doubtless true as far as it goes, but you overshot the mark, when you say that Portland is supplied with Bull Run water. You know very well that a large portion of the East Side is supplied by the Albiha Water Compony. In the Irvington district we are compelled to use this water, although the Bull Run mains are only a few alorko away. If you would take the trouble to inquire amongst the householders of that locality, you would very soon find out that it is not from choice that we care that it is not from choice that we pat-

the best water on earth.
We are all aware that the "deus ex-machina" of the Atbina Water Com-pany, is also a member of the Bull Run Water Committee. No doubt this fact-alone is sufficient explanation of the clearly defined line of demarkation between the territories of the two companies, but to us, who are on the wrong side of the ine, it is by no means sufficient const

Women and the Ballot. OSWEGO, Or., May 2k-(To the Editor.) I knew a family of seven brothersall knew a family of seven brothersmiddle-aged men-and not one of them
had ever cast a vote, simply because they
did not want to, and it was their proud
boast that neither father nor grandfather
before them had ever voted. These were
of the "better class" of men-that is,
they lived in large houses and had good
bank, accounts. Do you think no man
should be allowed to vote because this
small minority "did not desire the ballot"?

Again, these brothers keening "pure and unspotted" from the polls did not prevent one of them getting into a street brawl, having-his ear bitten off and dying from

I am sorry for the unfortunate "woman" who cannot separate the idea of voting and street brawling. Her horizon certainly needs broadening. S. A. E.

You can't help liking them, they are so very small and their action is so perfect. Only one pill a dose. Carter's Little Liver Pills. Try them.

in making our laws, simply on account of the accident of sex, than the taxpaying American women, who earn and spend their money here at home?'

I desire to answer her questions through your valuable paper. First of all, the Chinese population here probably does not exceed 250. There are not, on an average, more than 10 per cent who return to China yearly. These do not take back with them to exceed 350 each, which represents many years' accumulations. Unquestionably, their yearly earnings are spent here. Secondly, the Chinese are the same as our American women, i.e. not, permitted to vote, even when they have paid taxes. Therefore, how can they have paid taxes. Therefore, how can they have being entitled under the constitution of the United States to the same privileges as to the ballot as other citizens. Should the Constitution be so amended as to permit women to vote, the native-born Chinese would yield graceful obedence to the law. He would not refuse to accord women the right given them by lew. He, however, decidedly objects to having any reflections cast upon
