BOTH SIDES TO WIN

Claims Made by the Two Political Forces of Oregon.

FUSIONISTS ARE RATHER MODEST

Figures Given by Those Who Are in the Field and Have Opportunity to Judge Public Sentiment.

To secure an estimate of the vote which will be cast at the election Monday by the political parties having tickets in the field, The Oregonian components field. The Oregonian communicated with the several county representatives of the State Central Committee of the two op-posing forces. Answers have been received from Republican and Democratic members of the State Committee, and the majority point to the success of the Republican ticket by an overwhelming vote. When-ever a county is claimed by the Democrats a low majority is named, but in one case, Wheeler, a straight Republican county, they go so far as to claim a Representative and one of the county officers. The answers so far received by The Ore-Fondan are as follows: Benton County.

The following estimate for Benton Coun-ty is made by a man connected with the

and hard light on each side, which may reduce the Republican majority, or may increase it, and the tide is in that direcfinctense it, and the due is in that diverse tion. The situation at present indicates that each side is being lined up so strong that there will be less scratching and more when straight ballots cast this election than there has been at any election in the dast 10 years.

Clatsop County.

Clatsop County. ASTORIA, May 28.-The total vote in Chatsop County this year will be about 220; 255 persons have registered. The grantest number of votes cast for candi-dates for any one office probably will not exceed 200. This is nearly 500 less than the vote for Governor two years ago. We are of the opinion that the shortage will operate in our favor. Normally the coun-ty is Republican by 80, but we expect greatly to reduce this majority in the ap-proaching election.

proaching election. Of the eight candidates on the Citizens ticket, we will probably elect five. There will be a great deal of scratching,

as the independent vote in Ciatsop is quite large, Many Republicans are supporting our ticket, being disantiefled with the local ring. The Citizens ticket is made up of ocrats, Republicans and Populista and the result of the election can hardly regarded as an indication of the po-cal complexion of the county.

ASTORIA, May 27 .--- If you want to now how Clatsop County stands today on the political questions. I will tell you thit, owing to the registry law, Claison County is neither a Republican nor a Dem-ceratic county, but rather in the favor of the fusionists, J. E. ALBANY, Or., May E.-The vote of Linn County at the June election will probably reach 5000. A conservative esti-mate of the Democratic-People's party vote is 2600. The Republican ticket will probably receive about 3000 votes, and there will be a Prohibition and scattering vote numbering, in the aggregate, about 300. All parties seem to be satisfied with their respective tickets, and there will be but little "scratching." H. C. WATSON, Democratic Committeeman, Linn County,

Democratic Committeeman, Lina County. More County.

HEPPNER, Or., May 28.-Merrow Coun

ty is safely Republican. Thirteen hun-dred and seven voters have registered, and about 1550 votes will be cast at this elecabout 1250 votes will be cast at this elec-tion. After a careful estimate I feel wat-ranted in saying that 65 of these votes will be for the Republican ticket. The vote may be close between one or two of the candidates for county offices, but we confidently expect that the whole Repub-lican county ticket will be elected, and that Republican candidates for district and state offices will receive increased majorities. G. W. PHELPS. Republican Committeeman, Morrow Coun-iv. ty.

Sherman County.

We have in this county what you might cast three parties—the Republicans, the Dem-ocrate and Populisis, fused, and the Pro-hibitionists. According to a close canvass, the Republican vote will be about 500; Po-alonist, 500; Prohibitionists, 100. Eherman County will elect the whole Republican county ticket, and Moody will receive 200 milority. The campaign is very quict. imjority. The compaign is very quick, and times are too good for many people to want a change. The McKinley Club at Moro is doing some good work. It has

held big meetings every week. W. H. MOORE. Republican Committeeman, County.

Tillamook County.

TILLAMOOK, Or., May 21 -- The Repub licans will have a big rally in this city on Saturday evening. It is expected that the Republicans will carry Tillamook County with 200 to 200 majority.

Union County.

The following is from a Republican of Union County whose figures may be relied LA GRANDE, Or., May 28-I estimate

the total vote of Union County at about 4000, of which I think the Republican ticket will have 2000, the Democratic from

1500 to 1700, and the Populist the balance 1500 to 1700, and the Populat the balance, except what goes to the Prohibitionist. This, of course, is a rough estimate, and may be far from correct: but from the reports of the various committeemen throughout the county I believe it to be about correct. As there are a great many Republicans dissatisfied with some can-didutes I four there will be considerable lidates. I fear there will be considerable "corstehing"; but as to the candidates whose election wou'd have political sig-ificance. I think the Republicans will vote very straight. I do not expect any large majority.

Wallows County.

ENTERPRISE Or., May 29. - The campaign is being waged in a very spirited manner by both the Republicans and Fusionists. We estimate the vote on state and Congressional nominees to show a small majority for the Repub-loans, although both parties are claiming the county. It is rumored that some Re-publicans will scratch the ticket on ac-

count of factional differences, but it is expected there will be a sufficient number of Middle-of-the-Road Populats and Dem-ocrats who will not swallow fusion and who will vote the Republican ticket to offset the loss to the Republicans caused by factional strife. Local issues compli-cate matters to quite an extent on the ounty ticket, and it is a difficult matter to estimate the result, but the Bepub-leans are very hopeful of electing a ma-bority of their nominees for the county offices. at Oregon City Mills. INDEPENDENCE, Or., May 20.-The Spaulding Logging Company, of Oregon City, is reported to be buying all the white fir timber that is at all accessible in the vicinity of Falls City, and along the Luck-iamute. It has for some time past been buying everything along the river that would do to make wood pulp from. The last few months has witnessed a wonderful change in the lumber industry of this county and the surrounding coun-

the. All the mills are now running to their fullest capacity, and find a ready sale for all their product at good figures. The logging industry has assumed such pro-portions in this vicinity that all the men that can be secured are given employment in the camps, and still a shortage exists. It has also become almost impossible to hire men to cut cordwood, and good wood has become very scarce, and is shipped in from points miles distant.

Jackson County.

JACKSONVILLE, May 29.-The political shtunion in Jackson County favors the Be-publican party. The registration calls for 402 votes. I think the vote cast on election day this year will be about 1200. Two years ago the whole vote of the county was 305. Four years ago, at the Presidential election, there were 370 votes cast in all, so we have an increased vote in sight this year, and I am satisfied that in sight this year, and I am satisfied that we have gained with the increase. Un-doubtedly the entire county ticket will be elected. Of course, there will be candi-dates who will lose in some places and

gain in others, but will average up all right. For Congress I do not consider Dr. Daiy in R. Congressman Tongue will certainly be elected, and by a largely increased majority over two years ago. COMPLIMENTED OREGON CADETS.

Inspection at Corvaills by Inspector-General Mans.

CORVALLIS, Or. May II.-Lieutenant-Colonel M. P. Maus, Inspector-General, United States Army, located at Vancou-ver, today inspected the Oregon State Ag-ricultural College battalion, which con-sists of 300 cadets, including the milliary band and signal course. The computation

band and signal corps. The examination consisted of battalion review, followed by close inspection of the arms and equip-ments, dress and general appeirance of the cadet corps. Then came the battalion and company drills; and the efficiency of the signal corps was theted as to accu-racy and rapidity. The examination, which was twice the usual length, was witnessed by citizens of Corvaliis and

neighboring towns, and by a large repre-sentation of Spanish War veterans, who carefully scrutinized every movement. The inspector capressed himself as being exteedingly well pleased with the efficiency of the cadets in all their movements. He

"I have examined over 50,000 men, but never found in any state institution bet-ier-drilled cadets than these. We have become a military people; we live in a critical period, when new armies of well-trained men may be needed at any time.

During the late struggle the stigncies were met by many untrained officers, who were unfamiliar with the simplest military terms and manesuvers, and knew nothing of esnitation and other measure so import-
