Armor-Plate Question Then Caused Controversy-Naval Appropriation Bill Sent Back.

WASHINGTON, June 1.-The Senatorial

debute today was causile and as warm as the weather outdoors. At times the ex-changes between Senators bordered on personalities. Much of the discussion was of a political nature, although in them-polves the questions involved were not essentially political. Soon after the Senate convened, a memorial was presented from the people of California asking that the Government provide some rellef for the starving people of India. Hale, with this as a text, severely arraigned-Great Britain for expending hundreds of mil-ions of dollars in crushing liberty and freedom in South Africa, instead of car-Irejevant making political speeches on Irrejevant making political speeches on Irrejevant matters, and a little later, when Hale reported a further disagreewhen thus reported a further disagree-ment on the naval appropriation bill, an exciting discussion arose over the armor-plate question. A sharp political twist was given to the debate by a speech which Hanna delivered in favor of leav-ing the whole matter in the hands of the Senate conferees, and of conferring discre-tionary powers upon the Secretary of the tionary powers upon the Secretary of the Navy in accordance with the House prop-osition. He became involved in a contro-versy with Tiliman and Allen over the Government's ability to manufacture armor autisfactorily, in which the sparks to the intense interest of the audi-Teller, Allen and Pottigrew replied to Hanna, all speaking in a political vein. The bill finally was returned to confer-ence. Seventy-nine private pension bills were passed, and also the Military Academy appropriation bill. The Military Academy bill carried amende ing General Miles and all future comof the Army Lleutenant-Gener als, and General Corbin a Major-General Consideration of the last of the appro-priation bills, the general deficiency bill, us begun, but was not completed.

### The Proceedings.

Perkins (Rep. Cal.) presented a petition from organizations and individuals of his state asking Congress to make an appro-priation for the relief of the famishing people of India, and he asked that it be propie of indus, and he disked that it be referred to the committee on appropria-tions. He was not, he said, in possession of sufficient information to enable him to propare a proper resolution dealing with the queston. In 1697 he had asked for and cured ships to carry to India provisions on by the citizens of California. Ore-Washington, Nebraska, Kansas and gon, M Iowa. The provisions aggregated 4009 No official acknowledgment had been received of that donation so far as he was aware. He hesitated now, therefore, to press a resolution looking to the relief of the people of India lest the Government of Great Britain might not look with favor upon the action of Congress in sending to India unsolcited aims, as it might not look with favor on a femality interaction with favor on a friendly intervention by this Govern-ment in the South African War.

"The world has been herrified-almost stupefied," interjected Hale (Rep. Me.), speaking with deliberate emphasis, "at suffering now being endured in India. That is the chief of England's' co he postilence and famine are appalling the imagination. Whole families are eing wiped out of existence; the babe les dead beside its mother. The situation is awful. Now, the Senator comes here with a proposition that we should appropriate money for the relief of these peo ple. I should like to ask the Senator what England has done for the people of India. She has spent tens and hundreds of millions of dollars in striking down and crushing republics. It is the most brutal manifestation of strength against liberty and weakness that the world has ever seen; and I am moved, therefore, to ask the Senator what Great Britain has

He con-cluded with the assortion that the meth-ods of the friends of the Administration would not bear investigation for an hour in respect to a call for his opinion, said Pettigrew (Sil S. Allen said the discussion had brought out the fact that the friends of the trusts were in the saddle. No previous discus-sion had been sufficient to bring Hanna sion had been sufficient to bring Hanna or Elkins to the front, "but the moment that we attack one of these trusts that are preparing to rob the country of mil-l'one of dollars," he said, "they appear here as advocates of this great octopox, and undertake to percuade the Senste that the Government should not manufacture armor-plate, but that it should stand up and allow itself to be rifled." Aldrich (Ren. R. I.) interlected some caustic remarks about making pro-Boer and political speeches every time a petition was presented, and then Perkins, replying to Hale's said he fully realized the force of Hale's question. "I am not ask-ing the Senate to take action at this time. I ask that the memorial be reforred to the committee on appropriations, in order that the members of the committee may carefully consider the subject". It was essential that he choice so refetred.

For the conference on the naval appro-priation bill Hale reported another disagreement on the subject of armor plate. and the surveyors' course of study at the Naval Academy. He said there was an absolute deadlock between the conferees of the two houses, and he expressed a desire that Senators state their views, so that the conferees might have the benefit of their opinions and suggestions.

Tillman (Dem. S. C.), one of the conferees, declared he would rather see the bill fall than that the Senate should yield o the House proposition. Hanna (Rep. Ohio), a member of the

mittee on naval affairs, said that since his advent into the Senate he had devoted in 1886 standing up in the Senate and de considerable time to a study of the armor, fending "this combination for plundering plate question. He was familiar with manufacturing, and had some knowledge of the armor matter from personal investiga-tion. He was in favor of the construction of a formidable navy as rapidly as pos-sible, and was satisfied the delay in the navy's building now was due in a great degree to the opposition of the Senators from South Carolina (Tiliman) and New Hampshire (Chandler) to the payment of a reasonable price for armor.

"The responsibility for this delay," said he, "rests upon these two Senators for putting a price on armor below that at which it would be manufactured by any concern in the country, and the Senator from South Carolina has given you the animus of his opposition when he said that he would rather see the bill fail than to see any concessions made to the armor companies.

or 7000 persons. Consul-General Ho Yo states positively that the Chinese will never submit to the haffkine treatment. He says that the prices of food have risen 25 per cent since the quarantine was declared, and adds that if they are not fed by the city, resort will be had to the courts. He complains that the Chinese quarter is without police protection and says that highbinder outrages may be resumed. being shot by unknown assassing. The health authorities say there will be no difficulty in taking the Federal consus-if the enumerators will consent to inoculation.

Mayor Phelan opposes the project of feeding the indigent Chinese. He says their unclean habits have made the quarantine necessary and they should be pro-vided for by the Six Companies. The report that the steamers City of

Peking and Australia were denied clean bills of health is denied by Deputy Collector of the Port Farley.

### JAPAN'S PROTEST.

## Further Communication With the

State Department. WASHINGTON, June 1 .-- Mr. Nabeshima, the Japanese charge here, has been having some further communication with the State Department respecting the complaint by his Government against the treatment of its citizens by the health authorities at San Francisco, in connecon with the quarantine against the The burden of the Japanese com plague plaint is that not only have the Japanese residents in San Francisco as a whole been discriminated against, in violation of treaty rights, but that the local health authorities enforced the regulations as to oculation not only with severity, but

People of the better class, among them a member of the Japanese Parliament, it s asserted, have been treated with great indignity, and Japanese ladies residing outside of San Francisco and returning from shopping trips have been rudely zed and obliged to submit to inocula tion by the health authorities. The lat-ter, who are state officials, assert that they have been acting under the direction of Dr. Kenyoun, representing the National Government, but the latter is not inclined to accept this responsibility, and is inquiring into the ground of complaint.

No objection is made against the drawing of quarantine lines around quarters supposed to be infected, such as "China-town," only it is asked that all of the persons impounded therein be treated alike, regardless of nationality.
