COMMERCIAL AND FINANCIAL NEWS Wheat-Quiet; December, \$1 02%; cash, 02%; Barley-No sales. Com-Large yellow, \$1 15@1 175.

Fine weather and liberal receipts of produce and fruit made Front street a lively part of town yesterday. There was not much change in prices, except in strawberries, which were a shade firmer on a good demand for shipping, an well as for local orders. California peaches are lower, some very good stock selling yes-terday at 90c for large boxes. Apricots are weaker, at 75c per crate. A carlod of ha-nanas came in yesterday, some of them over-ripe, and the demand was not as good as it might have been earlier in the season. Best Burpank potatoes are firmer, and some cholos stock sold at 70c yesterday. Ordinary stock however, is not doing so well, and sells around the asympathetic effect here. The selling of stocks for London was sufficient to cause a fractional advance in cable transfer an Lon-names came in yesterday, some of them over ripe, and the degrand was not as good as it might have been earlier in the season. Best Burbank postores are firmer, and some choice stock sold at 70c yesterday. Ordinary stock however, is not doing so well, and seells around for and 50c. Chickens are weak, and are pil-ing up sil over the city. Ergs are steady, and butter is cleaning up all right. There is noth-ing doing it hops, and wool transactions are of small consequence. J opened at 66c to 65%c, a shade changed fr last night's close. When it began climbl traders were filled with tiems from all o the Northwest. Some said the crop was ready scriously damaged, others that unly also in their care, the crop would be a fi ready seriously damaged, others that unless rain in plenty came the crop would be a fail-ure, and on top of all this the weather bureau prophesied fair and cool weather. Recently these reports have been taken with a grain of salt, and the crowd generally contented itself with playing safe, an operation which resulted to prove the same taken with a set of the taken with playing safe.

in some very stagnant sessions. Today the Northwest made clamorous bids, and others, in a sort of a panic, followed. a sect of a panic, followed. In two hours from the opening July advanced to 70c. Then profit-taking sent July back to 60%c. A huge amount of buying had siready been done on the advance, and the dip was the signal for more of it. Under this pressure from buyers July rallied, and closed 1%g2c imto amount of over \$5,000,000, and a prevaiing private rate of discount well below the bank rate. As the bank is still losing gold for ex-port, the governors refrained from reducing the rate of discount. NEW YORK STOCK MARKET.

Absolute Stagnation, Although the Tone Was Fairly Firm.

NEW YORK, June 7.-Absolute stagnation characterized the stock market today. Bij comparison with yesterday, the tone was firm comparison with percently, the tone was firm, but that was only because the bears actin-what overextended their commitments on the short side yesterday. If was evident that the late selling yesterday was based on the ex-pectation that selling by London this morning would offer an opportunity to get back stocks at a lower level. London did, in fact, sell stocks here on a moderate scale, but the de-mand of the shorts was sufficient to overcome the decline, and to make some show of strength in the market. The buils attempted to stim-late the momentum by building up owners ulate the movement by bidding up coalers or

ulate the movement by bidding up coalers on talk of further comprehensive traffic agree-ments. This maneuver proved ineffective and the market rolapsed to about last night's level and never got away from it again in either di-rection. Air Brake was rushed up 2% points on talk of absorption by the Westinghouse Company. It mayed a 5-point net gain. In Sugar there was a demand from an un-easy short interest, which had been over extended during the decline of the last few days, and the stock gained over a point net. The loasing rates on stocks disclosed the extin-ence of quite a large outstanding short interest, well distributed through the list. In the en-tire lack of animation in speculative specialities the lack of animation in speculative specialties the professional traders are distoclined to fur-ther commitments on the short side. There was no effort to sell through commission houses, which was called cutside liquidation
