There were not enough strawberries in the market yeaterday to supply the demand, and prices were very firm, with good shipping stock selling readily at he per box, with the cannor-tee paying 4c and over. The crop has been a good one, and the excellent prices realized have not been due to a shortage, but to more liberal buying than usual. Some very fine Boyal Anne cherries were received from The Dalles yesterday, and currants, raspberries and other small fruits are coming along quite plentifully. There were but few changes of importance in quotaffigus. Poultry did not clean up as well as it usually does on Fridays, and prices are weak. Eggs and butter are steady, with no change in price. The wheat market is firmer, in sympathy with other markets.

#### NEW YORK STOCK MARKET. Bad Crop Reports a Weakening Fac-

tor in Wall Street. NEW YORK, June S.—The combination move-ment—bear and buil movement—in stocks which is an annual feature at some period of the growing crop made its appearance today. The wheat market advanced in an excited way, on an increasing volume of rumors of disasters to Spring wheat in the Northwest. Wall street had similar advices, and apparently the con-viction that serious harm has already been done to the Soring wheat guined force steadily. lone to the Spring wheat gained force steadily turing the day. There is growing uneasiness as well over the rate situation among milroads went of Chicago. The fact that the late break in the prices of Western railroad shares was coincident with the deliberations of the com-mittee appointed by the presidents of West-ern railroads to concoct a plan for a division of traffic gave force to the supposition that the prospect for a satisfactory settlement is not very good. Falling in such a settlement, there is said to be a likelihood of a widespread and costly rate wat.

from the wheat country, this served to ef-fectually break the market, and prices went to pieces in the last half hour of trading, the weakness spreading from the grangers. Pacifics and Southwesterns into the trunk lines and specialties, and embracing the whole list. This break came after a day of persistent duliness and irregular fluctuations in prices. The incident immediately preceding the break was an advance of over a point in Reading first proferred, with confident absorption of very large offerings. The second preferred was all wiped out in the final break. An increase in oes in the last half hour of trading, the

estimates fell short by \$1,500,000 of the actual receipts, so that a gain in cash in tomorrow's statement would not be surprising. The market closed active and weak at about the lowest. The bond market was very dull, and price changes were remarkably small. Total sales, \$1,100,000. United States bonds were un-

IN STRAINED CONDITION. Monetary Troubles May Appear In the German Banks.

NEW YORK. June 8.—The Herald, discussing the financial panic in Berlin, says:

To the best-informed men in local financial circles it would not be surprising if any monetary difficulties should arise in Europe at the present time that they should originate in the German capital. For three years, or ever since the manager of the Fourse law, seeking to recommend. German capital. For three years, or ever since the passage of the Bourse law, seeking to regu-late speculation and prohibiting dealing in futures, it has been pointed out that unusual burders have been thrown upon the German banks, greatly straining their resources, and calling forth many notes of warning, not only from foreign bankers, but also from the Minis-ter of Pinance.

WHEAT IN GOTHAM.

Speculative Interests Were Big Buyers on Crop-Damage Reports. NEW YORK, June 8.—Another sensationa dvance took place in wheat today, prices ad advance took place in wheat today, prices advancing 25/402%c per bushel, making over 5c in the last three days. The outside apeculative interests were big buyers of wheat on cropdamage news in the Northwest, and the professional operators, while trying several times during the day to undermine prices, met their matches, and were obliged to retreat in the last hour, when the highest prices of the session were attained. Crop damage reports from Spring-wheat states are undenditedly very bullish, but there is some question as to whether Spring-wheat states are undoubtedly very buil-ish, but there is some question as to whether the advance has not been too rapid under the circumstances. July wheat went up from 70%c early in the day to 77%c in the afternoon, clos-ing at 77%c. Foreign houses also proved good hupers of the staple, and general sentiment was strongly in favor of higher prices, should was strongly in layer of higher prices, should rain be withheld much longer from the Spring-wheat belt. Operations in the option market reached a total of about 5,000,000 bushels for the day, which is the heaviest business done in a year or more.

The Metal Markets.

NEW YORK, June 8.—The market for metals was somewhat irregular today. Business, however, was of a hand-to-mouth order. Lake copper, in response to later advices from London, cased off some 5 points, and closed easier in tone at \$16.50. Pig-from warrants ruled very weak at \$15, sellers. Lead and spelter were dull and unsettled at \$3 85@3 90 and \$4 40@ full and unsetted at a 55 Nogh so and 34 years 4 45, respectively. The however, ruled a little steadier on some buying orders, but toward the close the market became easier and closed dull, with sellers at \$20 75. The broker price for lead was \$3 70, and for copper \$16 50. Har

A Humiliating Spectacle. Baltimore American.
The ringing letter written by General Schwan describing the situation in the Philippines, was most timely, in view of the demonstration made in New York

who served as General Otis' chief of staff in the administrative department at Ma-nila, and who is in a position to speak nila, and who is in a position to speak intelligently of conditions there, declared that the one hope of the insugents lay "in the possibility of victory for the Democratic or anti-expansion party in the coming Presidential campaign," and that the major portion of the Filipinos are satisfied with American rule. This opinion is borne out in part by the published statements credited to Aguinaldo, the insurgent chief, in which he reposes his insurgent chief, in which he reposes his hope for the future in the triumph of Bryanism. It is gailing to patriotic man-hood to be confronted with proof that the enemies of our country and the slayers of our soldiers trust a contingent of our own people to help them triumph, but the anti-imperialist is impervious to any such feelings of national shame. Speech by Telephone. Senator Chauncey M. Depew recently

the 147 guests could not all be accommodated with receivers at the same time, Mr. Depew repeated his speech, so that all heard it. So well were the connections made that every word that came over the 200 miles of wire was heard distinctly. Senator Depew, who is president of the club, had been expected from Washington to deliver the annual address, but at the last moment he was delayed by arrent business of one of the committees. at the last moment he was delayed by urgent business of one of the committees, so that he could not reach New York in time. It was decided to have him address the assemblage by wire, and the felephone company was requested to make the necessary arrangements. Within five hours the wires for the 60 receivers had have led and the necessary that were set that the necessary arrangements. een laid and the connections established, work which usually takes four days to ecomplish. In view of this fact it was hitch in the proceedings, and that every word the Senator spoke could be heard
