LINE AGAIN OPEN Raiding Boers Driven From the Railroad. BULLER MASTER OF LAING'S NEK

Natal Column, After a Bloody Fight, Crosses Into the Transvaal-Question of the Future.

LONDON, June 11, 3:30 A. M.-Two places of news encouraging to the Britian in the official desparities are that the broken communications of Lord Roberts are in a fair wuy to be mended by the forces moving northward and southward and driving off the roving commandos, and that Sir Redvers Buller is at last runster of Laing's Nek.

Telegraphic communication with Lord Roberts is expected to be restored today, as a dispatch from Bidemfontien, dated yesterday, says that the railway is in British possession again, and that the work of repairing the line is going on rapidly with abundant material warehoused at Bioemfontein. From the subjoined tele-grain it would appear that General Hunr was in command of the troops re-fred to by General Kelly-Kenly in his spatch from Bloemfontein June 12: "General Hunter is coming up rapidly

from the northwest, having severely defeated a large commando of Boers who had destroyed two miles of rallway north of Kroonstad."

of Kroonstad." The Boer Government is also issuing news cheering to its sympathizers. The following builtesin, the Boer version of the disaster to the Derbyshires, was post-

ed by President Kruger at Machadodorp: "On June 7 four divisions of burghers, commanded by Steenkaamp, Frineman, Duploy, Fourie and Hel, attacked the British at Roodeval, killed 200, took 700 prisoners and captured immense stores of food and ammunition, a maxim gun and 1000 lyddite shells. Some food was taken by the Boer farmers and the rest was burned. The English mail was taken. The burghers attacked from the open widt, and gave evidence of unprecedent-

General Dewet has also reported that he put 1000 British out of action, and destroyed property valued at £100,000. As Lord Methuen is officially described as fighting June 7, it is possible that he was engaged by General Dewet

cording to a dispatch to the Daily Express from Machadodorp, dated June 10, via Lourenco Marques, those around Prosident Kruger say that Louis Botha and Delarey have been offered indirectly £10,000 a year to lay down their arms, and President Kruger expects the same offer to be made to himself, President Steyn and Dewet. President Kruger be-lieves that the British make those efforts to close the war on the principle that it id cost less than to fight it out.

A dispatch from Lourence Marques says that 1500 Boers are reported to be reliring on Middelburg from various quarters, nd that after weeding out the faint-serted, 20,000 men are still left.

General Buller was unable Monday to follow up the Boers, from lack of cavalry as well as water. The dispatches describe him as fighting a spirited advance over a rugged field under prolonged rifle fire The Boers had two guns, which they got away. Few dead or wounded Boers were found. General Kelly-Kenny has ordered General Knox to go north, but the direction taken by the raid-ing forces is not known. General Paget's guarrhon at Lindley would appear to be in imminent danger. They have thrown the British campaign into disorder by their brilliant strategy, and have learned by experience how much mischief they can cause by harassing the British line of communications. The British forces will be massed against the Free State commandoes as soon as Lord Roberts gets control of the wires.

A plentiful crop of reports has been flittring through Lourence Marques. A large part of the delegates from up the state, a field in which he used to be supreme, dialiked and distrusted him for his attitude toward. Bryan in 1594. Croker hatrs him, and that was sufficient to make all the Tam-many delegates hostile to his purposes. The Kings County delegates have often proved to be a highly insecure reliance in a fight against Tammany. There was only his own little group of personal fol-lowers upon whom he could count for act-ive and loyal support. Yet he was the dominating spirit of the convention, the only leader it had, and his was the ooly mind at work to save some shreds of rep-utation and standing for the New York Democracy. He had conceded in advance the instructions for Bryan. Not even his strength was equal to the work of stop-ping that supreme mischief. LONDON, June 12, 19:05 P. M.-It is samed by the Associated Press that the Government has at last decided upon a plan for the civil settlement of South Af-rica.
