COMMERCIAL AND FINANCIAL NEWS

The local trade situation was uninteresting yesterday, there being no changes of consequence and only a moderate business in most lines. Receipts of fruit continue beavy, and prices are well maintained. The strawberry statement showed a gain prices are higher for good stock. The poultry market is dull and democratized, and buyers are making the price. Signs are firmer, and some dealers are contemplating in advance. Oregon the contemplating in advance. PORTLAND MARKETS.

Grain, Flour, Etc. The Chicago market was up like a rocket and down like a stick petterday, with the "down" part much more in evidence than the rockety merching. Laterpool was moderately interesting, but has not yet exhibited any hysterical desire to elevate prices. In the Portland market matters are easier. Four ships are finishing this week, leaving but three in the river to lead, with more than enough wheat on apot to lead all of them. Walls, Walls is still quoted as hee, a 2e drop in Chiwheat on apor to lead all of them. Walla Walla is still quoted at 54c, a 2c drop in Chicago having no more effect here than had the 2c rine of the day previous. Valley is easy at 57854c, and bluestem at 50850c. NEW YORK STOCK MARKET. Doubt and Hesttatton Manifest and

Business Near a Standstill. NEW YORK, June 14.—It would be difficult to find a salient point in today's stock market on which to hank an intelligent opinion of the conditions and the grospects. Trading was a step nearer to the point of absolute singulation, step nearer to the point of absolute stagnation, and the movement of prices throughout showed the doubt and hesitation just as it has for some time past. Certainly there was no heavy liquidation pressing upon the market today. Sales were quite impreciable, which were made for any other account than that of small room traders, who would eagerly close a contract if thew saw a profit of ½ or ½ in the change of price. The duliness became so pertentious that the hear traders began to divine all sorts of damaging possibilities, the best defined of which was an impending commercial failure, sincunting up into an indefinite number of millions. Diligent inquiry on the trail of this

condition as the New York market as to deli-ness of the speculative interest, but showed some firmness in the reduction of the Bank of England's discount rate. Private discount rates in London went lower, and the hardening of the rate in Berlin and further casting of ster-ling rates, both in Paris and Berlin, seemed without effect upon the London money mar-ket, which is apparently reconciled to surres-dering some of its supply of gold to Paris. The Bank of France showed a further reduction of its note issue and a further contraction of its loans for the week, notwithstanding a further increase in its gold supply of over \$500,000. ion as the New York market as to dell increase in its gold supply of over \$500,000 The demand for time money in New York

in the Returns.

NEW YORK, June 14 .- A special to the Tribune from Washington says: The returns of the elections to be held in Cuba on Saturday next will be awaited with considerable interest in this coun-try for several reasons, although it is not expected that the sentiment in favor of independence or of annexation to the United States will find a direct expression until the time arrives to choose members of a constitutional convention. How soon that may be will depend somewhat on the conduct of the impending elections, which are to be for municipal officers.

THE MOTORMAN WAS DEAD. Thrilling Experience of Passenger

on a Chicago Car. CHICAGO; June 14.-With the motorma dead on the front platform, an Indiana-Avenue electric car, crowded with plass-engers, shot across the railrond tracks at Fortleth street just ahead of a freight train late last night and for three black ran at full speed, with no one at the controlling lever. The motorman, H. A. Morgan, had fallen hopelesely of heart tze their danger until after it was ove and the car had been stopped by

conductor.

As the car approached the railroad As the car approached the rallroad crossing the conductor heard the sound of an approaching train. Looking ahead he saw by the signal lights that the gates were down. As the car falled to stop, he pulled the bell rope and shouted to the motorman. He received no answer. The watchman at the crossing, thinking that the motorman had lost control of his car, ratsed the gates in hopes that the car would cross the tracks before the locomotive could dispute the right of way. His calculations were right, for the car just managed to clear the crossing in safety.

panic in the car. As soon as the crossing had been passed, the conductor rushed to the front of the car, where he shut off the current and found the motorman lying dead on the platform.
