THE DAY IN THE CHURCHES

HANDIWORK OF THE CREATOR SHOWN IN NATURE.

Sermon Preached Last Evening by Rev. Dr. Hill of the First Presbyterian Church.

At the First Presbyterian Church last evening Rev. Dr. Hill preached his sermon on "A Question for Commencement Season," taking as his text James iv:14, "For what is your life?"

He introduced his sermon by referring to his recent visit to Eugene. He said: "It was my privilege to spend last Sunday at the State University. We are to be congratulated that we have such an institution within the boundaries of our commonwealth. It was most gratifying to see at the head of it a man of such intellectual strength and attractive personality, to meet a faculty so alert and efficient, to come in contact with a student body so enthusiastic and earnest.

"I spent a royal half-day with the venerable professor of geology, who adds the genius of a true teacher to the humility of a true student. As we separated, after a long talk on the wonders of the visible world, Professor Condon said, 'I want the people of Oregon to know that the occupant of the chair of geology in the State University has always impressed upon his scholars the fact that the rocks show the handwriting of the Creator, and that no study of geology is complete which ignores the Rock of Ages.' There were two things which specially interested me in looking through the geological museum. One was that this state of Oregon is so exceedingly rich as a field for a geologist. Some of the most valuable specimens of extinct animals ever unearthed have been found along the John Day River in the eastern part of the state. Scientists from the East have taken tons and tons of valuable fossil treasures from here to enrich the museums of Harvard and Yale.

"I was bown the bones of a three-toed horse, such as once roamed this western world. There may be seen the head of an animal whose teeth combined those of a hog and deer. Those fearful-looking mastodons, pictures of which we have often seen, used to live in this very state we call Oregon. I had always supposed that camels were limited as to their habitat to lands far across the sea, but it has been proved by means of fossil beds not far away that at one time camels wandered all over this western country from Nebraska to Oregon. Another thing which impressed me was a small piece of pine bark. Knowing that every specimen in the collection must give a reason for its presence I asked what it meant.

"'Do you see those acorns stuck here and there in the holes drilled to the exact size?' Yes. 'Well, a woodpecker did that. He first drilled the holes, then carried the acorns and placed them snugly in the holes, thus making provision for the Winter.' 'But do you think the woodpecker is specially fond of acorn meat?' 'He cannot bear acorns, but in the meat there comes a kind of worm of which the bird is very fond. So when his feast is all ready, by a marvellous instinct the woodpecker pecks open the shell and enjoys his banquet.'

"As I heard from the fascinating romance written in stone and wood, all giving such unmistakable evidences of the divine wisdom and power of God, I found myself repeating the words:

Earth's cram'd with heaven
And every common bush aflame with God.
But only he who sees takes off his shoes,
The rest sit round it and pluck blackberries.

DO IT WITH THY MIGHT.

Sermon by Rev. A. W. Ackerman at Congregational Church.

At the morning service in the First Congregational Church, the pastor, Rev. Arthur W. Ackerman, preached from the text in Ecclesiastes, ix:10, "Whatsoever thy hand findeth to do, do it with thy might."

He said in part:

"The unmistakable mark of the strong man is in the fact that he undertakes his work, not in a slip-shod or half-hearted fashion, but he throws himself into both his work and his play and so gets the most out of both. If you wish to weigh your character or lift yourself into the range of better living, you must find your willingness to give yourself to the work which you may have in hand. It is here that all creeds meet, and no man is without his creed. Whatsoever thou believest, believe it with all thy soul; and if thou canst not believe it with all thy soul, then mayest thou question whether it is right for thee to believe it at all. For men of every creed demand that a man shall give himself to the service of that which he deems to be right. Every creed has this spur to our indolence, this goad to our carelessness, this whip to our indifference. Here every believer has his chance, for it is within the province of every man to give himself however small that gift may be. And is it not time for us to infuse into our religious life this spirit of the whole man, that all our disputings and doubtings and negations may give way to a whole-souled effort for the redemption and moral uplifting of the race.

"There is a special fitness in this message this morning, for 49 years ago last Friday this First Congregational Church of Portland was organized, with only 10 members, and the history of this church, as it would be of every church that is worthy of the name, is summed up in the loyalty to this enterprise as part of God's kingdom in the earth, and a necessary part, a loyalty which has been manifested by the members in doing with their might what their hands have found to do. Just 125 years ago today, when the New England morning came out of the East, General Gage, the commander of the British forces in Boston, looked out to the heights of Charlestown, and was startled to see the place that he had intended to fortify was already occupied by swarms of men who were armed and entrenched. It was said that he took his field-glass and looked long and earnestly at a tall figure, pacing to and fro, on the earth works on Breed's hill.

"'Will he fight?' he asked, as he lowered the glass. 'Yes, sir,' replied a bystander, 'to the last drop of his blood.' On the afternoon of that day 125 years ago today the citizen soldiery proved the truth of the answer. Four days later a messenger bearing news of the battle met General Washington 20 miles from Philadelphia making his way north to take command of the army. There was one question that he wanted to ask, 'Did the militia fight?' and when he had his answer, he said: 'Thank God; then the liberties of the country are safe.' There was one question for the leader of the British, and the same one question for the leader of the Americans, 'Will he fight?' And I think that today the one question which we must consider concerning the future of this church, is, 'Will he do that with his might which his hands find to do?' What shall we say to the hosts of evil? That is all they want to know. And what shall we say to our Lord, for that is what he wants to know."

Domestic and Foreign P[illegible]

ASTORIA, June 17.—Sailed at [illegible] A. M.—Steamer State of California, for San Francisco; steamer W. H. Harrison, for Tillamook. Sailed, at 3:30 P. M.—British bark East African, for Queenstown or Falmouth, for orders. Arrived down at 5:20 P. M.—British bark Galgate. Condition of the bar at 5 P. M., smooth; wind, south; weather, foggy.

Southampton, June 17. — Arrived—Barbarossa, from New York, for Bremen.

San Francisco, June 17. — Arrived—Schooner Confianza, schooner Joseph and Henry, from Coquille River; steamer Czarina, from Honolulu. Sailed—Steamer Columbia, for Portland; ship Spartan, for Seattle.

Queenstown, June 17.—Arrived—Saxonia, from Boston, for Liverpool and proceeded. Sailed—Lucania, for Liverpool, from New York.

Southampton, June 17.—Sailed—Bremen, from Bremen, for New York.

New York, June 17.—Arrived—Rotterdam, from Rotterdam; Thingvalla, from Stettin; Furnessia, from Glasgow.

EASTERN MULTNOMAH.

Fourth of July Celebration at Sandy —Other News Notes.

GRESHAM, Or., June 16.—The celebration at Sandy on the Fourth promises to be a good one. All arrangements are complete, including the amusement programme and other exercises. Music will be furnished by the Aimes Glee Club, under the direction of Professor W. D. Thomas. Miss Jessie Gibbons will read the Declaration of Independence, while Hon. G. E. Hayes, of Oregon City, will fly the American eagle in an appropriate oration. The celebration will close with a ball in the pavilion.

Switch Completed.

The O. R. & N. has completed its switch to the chain elevator at Troutdale, and will be ready to load ties in a very speedy manner in a few days. Over 50,000 ties are now in the Sandy awaiting shipment.

Gresham Prosperous.

Many substantial improvements are going on at Gresham, the latest business ventures being a new millinery store, a barber shop, an ice-cream and confectionery stand and a wagon shop. A tinware and stove store is in contemplation, and a newspaper is one of the probabilities inside of a few weeks.

Brief Notes.

Robert F. Bell, of Portland, has been engaged to deliver the Fourth of July oration at the Troutdale celebration.

The Dillon road, near the 14-mile post, will receive attention by Supervisor Conley's men in a short time. It will be improved one mile north to a point near Troutdale.

A. T. Well has begun the building of 500 rods of board fencing on his farm near here. He will soon receive five Berkshire pigs from the Hood farm, at Lowell, Mass., and is arranging to purchase other blooded stock from Eastern stock farms.

The Beaver Creek bridge, on the Troutdale road, is being rebuilt with lumber from one of the country mills. All the tie teams have to cross it, and it needs frequent attention.

All the piles have been driven for the false work of the O. R. & N. bridge at Troutdale. Work on the spans will commence in a few days. The lumber is on the ground, and is being framed ready to be put in place.

Professor E. B. Houghton, principal of the Troutdale School, left for Pennsylvania last week to spend his Summer vacation. He will return in time to resume his duties in September.

Michael Donahue, foreman of Lilleforge & Mathiot's mill, near Hurlburt, is very low with an attack of heart disease, with small prospects of recovery. He suffered the attack one day last week while at work in the mill.

Five fishwheels are now in constant operation near Rooster Rock, and the salmon run is very good. The fish are being canned at the new cannery there, which gives work to about 60 men, mostly Chinamen.

Social Conditions in Germany.

Philadelphia Telegraph.

For a long time past the religious hatred of the Kulturkampf has ceased in Germany. If the political conflicts between Conservatives and Liberals have ever been very serious, which is doubtful, they are no longer much more than a memory. Nor is Socialism much more alarming. But the sharp, envenomed fight of the hour is between the agrarian and the industrial factions. It is a struggle for life.

If in youth the universe is majestically unveiling, and everywhere heaven revealing itself on earth, nowhere to the young man does this heaven on earth so immediately reveal itself as in the young maiden.—Thomas Carlyle.

FOURTH NEARLY AT HAND

COMMITTEE WORKING HARD AT THE FINAL PLANS.

Many Novel Features of the Celebration Will Attract Great Numbers of Visitors.

General Summers has called a general meeting of the Fourth of July committee this evening at the headquarters in room 600, Chamber of Commerce Building. The chairman of every committee will be expected to be present at this meeting and to report full and final estimates of the cost of carrying out the plans of his committee. In addition every member of the finance committee is urged to be present so that all the returns from all the collecting committees may be received and the exact financial situation determined.

The work is now well outlined. A well-planned programme has been provided, and all the subsequent work is one of finance, and carrying out the details of the ambitious project of a three day's celebration. There are several collecting committees still out in the field, and these have been allotted a definite quota by the general committee which they are expected to use in their district. Should any of these committees fail to realize the required amount the finance committee would find itself short several hundred dollars of the sum necessary. Saturday evening the finance committee faced the problem of raising $600 more to pay the cost of the celebration planned, and it will require vigorous work to accomplish the task.

All the features of the celebration will be carried out in first-class style. The band concerts in the park blocks will be continuous, and the decorations will make a pretty scene. There will be plenty of fireworks, band music galore during the three days, and the illuminated parade will be carried out on a grand scale. There will be events for every one, from the juvenile lover of fire-balloons and bursting bombs to the one who loves to spend a quiet hour in a launch watching a rowing regatta. This evening the complete programme will be formulated.

AS VIEWED IN NEW YORK.

Business Man Pleased With Result of Oregon Election.

Hy Eilers, of Eilers Piano House, has received the following letter, which shows how the Oregon election is received in New York:

New York, June 4, 1900: My Dear Eilers—Now that the full returns from Oregon are in and the result is so gratifying I want to congratulate you on the outcome, for I believe it means a great deal to you, as well as every business man on the Coast, and it sounds the doom of Bryanism and means continued good times. The result has made the Eastern Bryan contingent feel very sore, and has dashed their hopes hard against the rocks. We will show you a thing or two later on. You did well. Sincerely yours,

GEO. M. WOODFORD.

INDIANS WELL PLEASED.

Grateful for the Opening of Unallotted Lands to Settlement.

The following communication from the Indians of the Grand Ronde reservation has been received:

"Grand Ronde, Or., June 16.—We, the Indians of the Grand Ronde reservation, desire to express our thanks to Congressman Tongue and all others for the very live interest taken in securing the passage of the deficiency bill, authorizing the Secretary of the Interior to purchase all unallotted lands upon our reservation and opening the same to settlement. We have been endeavoring for years to have this brought about, as it will prove of great benefit to our people; and hence we feel very kindly toward Mr. Tongue for his interest in the matter, and desire to thank him through the columns of The Oregonian. ANDREW SMITH,

"For the People of the Reservation."

GREAT DAIRY COUNTRY.

Resident of Clatsop Plains Talks About Their Future.

J. C. Morrison, of Warrenton, Clatsop County, who was in the city last week, attending the Pioneers' reunion, says his portion of Oregon will ultimately develop into a successful dairy country. He said yesterday that the Clatsop plains are particularly adapted to butter and cheese-making, and he is now sending the product of 23 cows into Astoria, nine miles distant, daily. He has no fears of overproduction, as the market is undoubtedly widening, although the dairy business is on the increase. Butter has not been lower than 16¼ cents per pound at the dairy, and even at this figure the remuneration is good. Tame grasses, such as timothy and "velvet grass," thrive well and there is no difficulty in securing an abundance of hay, although the air from the ocean is cool and moist in the Summer time.

Mr. Morrison is a pioneer, as well as a native son, having been born on his father's donation claim, where he still resides, in 1845, and he thinks there is no place like the Clatsop plains where grass grows luxuriantly and where butter and cheese-making can be pursued the year round. Wheat, however, will not ripen there, as he has repeatedly tried to raise a crop for chicken feed, but found that the dampness kept the grain from hardening sufficiently to enable the thresher to separate it from the heads.

Clam-digging, he said, is one of the principal pursuits of the locality, as there are several miles of beach where that bivalves abound in great quantities. Clams are dug and shipped to Portland, by the ton and yet there seems to be no lessening of the supply. Twice a day for years, large numbers of men armed with short-handled shovels, hie to the beach at low tide, and dig clams for the Portland market.

The men are paid by the box, at a rate that equals half a cent for each clam, and they often make big wages. A good deal depends upon the knack, however, and some men may work very hard and obtain but few, while others get up several boxes in a very short time at their ease.

Although an observer of clam life and habits for 40 years, Mr. Morrison does not know much of their habits. "We wait till the tide goes out and then we dig the clams up, and that's all we know about them," he said. "If a law can be found that will protect them in breeding seasons, it would be a good thing, as, at the present rate of consumption, it is only a question of time when they must become scarce."

PORTRAIT OF HENRY VILLARD

Fine Painting Presented to Oregon University by Mrs. Villard.

EUGENE, June 17.—Among the most interesting features of the alumni banquet at Eugene Thursday was the presentation and acceptance of a magnificently framed portrait of Henry Villard, of New York, painted as he was in the full vigor of mature manhood. The portrait was a gift from Mrs. Villard, who is no less interested in the university than is her husband, the university's greatest private benefactor. The painting was unveiled by Professor Dunn, '92, the speech of presentation was made by the president of the university, and the address of acceptance by Judge R. S. Bean, '78, who paid a glowing tribute to Henry Villard that called the assembly to its feet with tumultuous cheers.

OUR ISLAND BUSINESS.

Trade With Cuba, Porto Rico, Hawaii and the Philippines.

WASHINGTON, June 15.—The constant demand upon the Treasury Bureau of Statistics for information as to the exportations to Cuba, Porto Rico, and the Hawaiian and Philippine Islands has caused the preparation of a list of the principal exports to those islands during the 10 months ending April, 1900. It is as follows:

Articles exported from the United States—	Cuba.	Porto Rico.	Hawaii.	Philip'nes.
Provisions (total)	$ 4,422,686	$ 588,571	$ 289,386	$ 34,403
Iron and steel (total)	3,079,276	412,928	4,320,208	317,685
Animals (total)	2,621,844	1,175	211,520	441,550
Breadstuffs (total)	2,410,144	672,344	917,781	142,071
Cattle	1,820,382	......	3,296	......
Lard	1,743,360	211,265	39,827	5,275

ALL BUT FIVE COUNTIES

OFFICIAL REPORT GIVES GENERAL GAIN FOR REPUBLICANS.

Chance That Wolverton's Plurality May Reach 12,000—Moody Has 9538 Over Smith.

Official state returns have been received from all but five counties. In general, they increase Republican majorities. The pluralities, according to these figures, are as follows: Supreme Judge—Wolverton, Rep. 11,561. Dairy Commissioner—Bailey, Rep., 9002. Congressmen—Moody, Rep., 9538; Tongue, Rep., 2997. Following is the showing in detail.

THE STATE TICKET.

COUNTIES.	Supreme Judge. Wolverton.	Supreme Judge. Greene.	Food Commis. Bailey.	Food Commis. Schulmerich.

Note—In all cases where figures appear in only one of the two columns for 1900, they represent plurality only.

THE HELIOGRAPH IN WAR.

Its Efficiency Was Proved in the Franco-Prussian Conflict.

The Engineering Magazine.

Before the war of 1870-71, optical telegraphy comprised signalling by means of flags by day, and by means of lanterns or torches by night; but in that war the heliograph proved its efficiency. The electric light was at once suggested to make the system independent of sunshine and fair weather, but the difficulty of having it on hand in the field was then too great, so other sources of light (such as improved petroleum lamps), were used.

England, however, adhered to the heliograph, and had great success in its use in India and in South Africa, in some cases for distances of more than 100 miles. Ordinarily, however, the heliograph, using, as it does, the sun's rays as the source of light, is limited to a range of about 55 miles; but by means of relay stations it can, of course, be used to much greater distances. However, in the field such relay stations are liable to interruption by the enemy's cavalry, the messages can often be intercepted at certain points by interposing a cloud of smoke made by burning brush or damp straw, and, finally, the number of repetitions increases the chance of error.

The electric arc light is far more efficient, is independent of the weather and can be used by night as well as by day. By its means the range has been extended to more than 400 miles. In the Transvaal War the British made use for this purpose of the electric searchlights from the ships, and this was, indeed, the only means of communication with the external world relied upon by the besieged garrisons of Ladysmith and Kimberley.

Pears'

To keep the skin clean is to wash the excretions from it off; the skin takes care of itself inside, if not blocked outside.

To wash it often and clean, without doing any sort of violence to it, requires a most gentle soap, a soap with no free alkali in it.

Pears', the soap that clears but not excoriates.

All sorts of stores sell it, especially druggists; all sorts of people use it.

Munyon's IMPROVED HOMEOPATHIC Remedies WILL CURE YOU

Most Popular Medicines Ever Put Before the Public.

MUNYON'S Improved Homeopathic Remedies Are as Far In Advance of the Regular School of Homeopathy as Homeopathy Is Above All Other Schools—They Combine All That Is Best in All Systems.

With Munyon's Remedies every one can become his own doctor—No experimenting—No guesswork—No purging—No nauseous doses—The Cure is certain, quick and permanent—Munyon's system is to build up, not to tear down; to strengthen, not to weaken.

If you are sick, cast aside all other medicines, bury prejudice for a few days, step into the nearest drug store, ask for Munyon's "Guide to Health," purchase a 25-cent vial of Munyon's Remedies and cure yourself.

Munyon's Inhaler is a positive cure for Catarrh, Asthma, and all diseases of the Head, Nose, Throat and Lungs. Two styles, "Hard Rubber" and "Glass Family." Price $1.

At All Druggists

MUNYON'S RHEUMATISM CURE seldom fails to relieve in one or two hours and cures in a few days. It relieves sharp shooting pains in arms, legs, side and back in a few hours, and generally effects a permanent cure before one vial has been used. Price, 25 cents.

MUNYON'S DYSPEPSIA CURE relieves at once and positively cures all forms of Dyspepsia, Indigestion or any Stomach Trouble, arising from overeating or drinking. Price, 25 cents.

MUNYON'S KIDNEY CURE promptly cures pains in the back, loins or groins and all kinds of Kidney Diseases. It will prevent and arrest Bright's Disease. Price 25 cents.

MUNYON'S COLD CURE will break up any cold in a few hours, and prevent pneumonia. It relieves head, nose, throat and lungs almost instantly. These little sugar pellets can be conveniently carried in the vest pocket for use at any time or anywhere. Price, 25 cents.

MUNYON'S COUGH CURE stops coughs, night sweats, allays soreness and speedily heals the lungs. Price, 25 cents.

MUNYON'S LIVER CURE is a reliable cure for Biliousness, Constipation, Jaundice, Torpid Liver, Worn-out Feeling, Coated Tongue, etc. Price, 25 cents.

MUNYON'S GENERAL DEBILITY CURE cures the exhausted feeling, produces a fresh, healthy color in bloodless people, and tones up the system generally. Price, 25 cents.

MUNYON'S HEADACHE CURE will cure all kinds of headaches, no matter from what cause arising, in from three to ten minutes, with absolutely no injurious after effects. Price, 25 cents.

57 REMEDIES

SPECIAL—Free Demonstration on Inhaler This Week at

WOODARD, CLARKE & CO. Fourth and Washington.
THE ALDRICH PHARMACY Sixth and Washington.

His remedies cure Rheumatism, Kidney Trouble, Liver Complaints, Dyspepsia, Indigestion, Blood Impurities, Fevers, Colds, Coughs, Piles, Headaches, Debility, Cholera Morbus, Measles, etc. At all the druggists', mostly 25 cents a vial. Write to Professor Munyon, 1505 Arch street, Philadelphia, Pa., for free medical advice upon any disease.

THE NATIONAL LEAGUE.

Pittsburgs Were Badly Beaten by Chicago Pitcher.

CHICAGO, June 17.—The Pittsburgs were badly beaten today, principally by the great battery work of Garvin and Chance. Garvin had the visitors at his mercy throughout the game, was wonderfully supported by his catcher, and but for errors by Clingman and McCormick would have had the credit of a shut-out. Attendance 8600. Score:

	R.	H.	E.		R.	H.	E.
Chicago	8	9	2	Pittsburg	1	6	3

Batteries—Garvin and Chance; Meekin and Schriver. Umpire—Hurst.

Good Luck for Cincinnati.

ST. LOUIS, June 17.—Cincinnati had all the luck today. No matter where the hits were sent, they went safe. Scott twirled in fine form. Attendance 7000. Score:

	R.	H.	E.		R.	H.	E.
St. Louis	2	9	4	Cincinnati	14	18	2

Batteries—Jones, Sudhoff and Criger; Scott and Peitz. Umpire—Terry.

American League Games.

At Kansas City—Kansas City 3, Detroit 4.

At Chicago—Chicago 3, Indianapolis 0.

At Minneapolis—Minneapolis 1, Cleveland 7.

At Milwaukee—Milwaukee 6, Buffalo 5.

Entries for Coney Island Handicap.

NEW YORK, June 17.—Following are the entries for the Coney Island Handicap, six furlongs, which will be run Tuesday, June 19, at Sheepshead Bay:

Newton to Represent New York.

NEW YORK, June 17.—Arthur L. Newton, of Vermont, representing the New York Athletic Club, won the right to represent Greater New York and the Metropolitan Association of the Amateur Athletic Union in the Marathon race, which is to be one of the features of the sports at the Paris exposition next month.

There were 25 starters, and the winner's time was 1:28:54 2-5 for the journey of 15 miles, two of which, one at the start, the other at the finish, were run on the quarter-mile cinder path at Celtic Park, L. I. The other 13 miles were run on macadam, and there were a dozen hills to be climbed.

In Kaffraria cattle constitute the chief currency.

TWENTY YEARS OF SUCCESS

In the treatment of chronic diseases, such as liver, kidney and stomach disorders, constipation, diarrhoea, dropsical swellings, Bright's disease, etc.

KIDNEY AND URINARY

Complaints, painful, difficult, too frequent, milky or bloody urine, unnatural discharges, speedily cured.
