CROPS DAMAGED BY RAIN.

Puyallup Fruit and Grain Affected—The Hop Situation.

PUYALLUP, Wash., June 21.—The continuous rain of the past four days has done a great amount of damage to the fruit crop in the Puyallup district, cherries in particular being badly damaged. Hay and grain are lying on the ground, and unless the weather improves, much of it will be a total loss, as the farmers will not be able to cut it.

The hop crop is not being injured by the rain, although growers will probably be put to some extra cost for spraying, the rain favoring the breeding of hop lice. Estimates of the crop of 1900 are put at 85 per cent of the 1899 crop, the acreage not being quite as large. A couple of contracts have been made at 9 and 10 cents per pound. Many of the yards have not been cultivated this year, the owners being discouraged by the low prices prevailing last year. Some of the growers say if prices do not improve, they will not pick this year's crop, as they claim, at $1 per box for picking, with cost of drying and packing, they would lose money by doing so.

Suit the people, because they are tired of bitter doses, with the pain and griping that usually follow. Carter's Little Liver Pills. One pill a dose.

WEATHER CONDITIONS.

The storm yesterday over Idaho has advanced slightly eastward. The pressure continues to rise off the North Pacific Coast, and the barometer is highest near the mouth of the Columbia River. The temperature has fallen from 6 to 12 deg. in Eastern Washington, Eastern Oregon and Idaho, and, although no rain has yet occurred in the former of the two districts, it is very threatening. The rains in Western Oregon and Western Washington have nearly ceased, but the weather continues cloudy, and it is probable that a few very light showers will occur in this district Friday, and that the temperature will slowly rise.
