This is because hand playing in a perfected degree is only possible to genius. However, this wonderful Planola you hear so much about nowadays renders it possible for every one who likes music to become a fine plane-player. It strikes the notes for you while you control the expression. Stop in and let us show you the Planola and the Acollan. We also sell the Steinmay plane, the A. B. CITY WITHOUT A POSTMASTER

Blunder in Making the Appointment for Honolulu.

WASHINGTON, June 22.-It has been covered that through an error committed in the State Department there is now no Postmaster at Honolulu. Several no Postmaster at Honolulu. Several weeks ago the President nominated John M. Oates, and the nomination was con-firmed by the Scenate. It is now learned that the man appointed is the brother of the one whom it was intended should fill the position. Joseph M. Outes was for-merly Postmaster-General of Hawall, and the Intention was to give him the office at Honolulu. but through an error the name of his brother John was sent to the Senate. John M. Gates lives at San Fran-cisco, and had no desire to go to Hono-lulu. The commission will be canceled and Joseph M. Oates will be appointed.

YELLOW PEVER IN CUBA. Unusually Heavy Rains Causing It to Spread.

HAVANA, June 2.—The unusually heavy rains that have been falling throughout Cuba have caused yellow fever in places where it has been unknown for years. Fortunately, except at Santa Clara and Quemados, the United States troops have escaped. At Quemados two cases are reported among the mem-bers of General Lee's staff—Major Kean, chief surgeon, and Captain Hepburn, sig-nal officer. Captain Hepburn's case is serious, but Major Kean's is light. Mrs. Edmunds, wife of the late Major Frank H. Edmunds, is convalescent. She has not yet been told of her husband's death. Havana has developed only three cases thus far, in spite of the gloomy predic-tion of what would occur as soon as the rainy season, from which the city did

BATTLE OF TIEN TSIN

Eight Hundred Americans Are in the Fight.

FOREIGNERS ARE HARD PRESSED

Reinforcements on the Way Up From Taku-Tragedy in the Pekin Palace.

LONDON, June 28. 3 A. M.-The slience of Pekin continues unbroken. Four thou-sand men of the ailled forces were having sharp defensive fighting at Tlen Tein Tuesday and Wednesday, with a prospect of being reinforced Thursday. This is the situation in China, as set forth in the British Government dispatch: "Eight hundred Americans are taking

part in the fighting at Tien Tsin," says the Shanghai correspondent of the Daily Express, cabling last evening, "and they apparently form a part of a supplement-ary force, arriving with Germans and British after the conflict started. It is impossible to estimate the number of the Chinese there; they had a surprising num-ber of guns." This information appears to have been brought by the United States gurboat Nashville to Che Foo and tele-graphed thence to Shanghai. The Chinese are deserting Shanghai in

arge numbers and going into the interior. Reports from native sources continue to reach Shanghai of anarchy in Pekin. According to these tales, the streets are filled day and night with Boxers, who are wholly beyond the control of the Chinese troops and who are working themselves up to a frenzy and clamoring for the death

of all foreigners.

The English Consulate at Shanghal is said to have received from influential natives reports of a tragedy in the Palace at Pekin, though precisely what is not defined. The Consulate thinks that Admiral Seymour, commander of the international relief column, was misled from inrmation from Pekin and, consequently, derestimated the difficulties in his way and the Chinese power of resistance with Maxim guns and Mausers. The Consuls at Shanghai still believe the foreign Ministers at Pekin are safe, although Japanese reports received at Shanghai allege that up to June 15, 100 foreigners had been killed in Pekin.

These situation fairly illustrate the feverish anxiety with which every development in the situation is being watched. It also may be regarded as an expression of the confidence reposed by Europe in the correct intentions of the noon M. Cambon, the French Ambassa-Europe in the correct intentions of the United States Government. The French Government, in addition to those already recorded, has now signified its accession to the understanding that the movement in China is to be conducted in the com-mon interest; for the protection of the lives and interests of foreigners in China. and not for any National gain

It turned out during the day that the warships which have arrived at Shanghai are three Chinese Armstrong-built cruisers. Not much apprehension is felt on account of the appearance of these ves-sels at Shanghai, for the officials believe that there is no doubt as to the good in-tentions of the Chinese Navy.

It is only as to the Chinese Army that doubt is expressed, and the Administra-

tion officials are exasperated by the peculiar omission from every official message of any statement which would clear up the doubt as to whether or not the Chinese Army, as well as the Boxers, are opposing the relief column, and if the former, then whether the troops are rebels or are acting under the orders from the Chinese Government. This point is of the utmost importance, for upon it de-pends the attitude to be assumed by the United States toward China, and by that test must be determined the question, "Are we at war with China?" The State Department still holds to a negative view and it has received recently a powerful support in its position by the attitude as-sumed by the various European chancel-lories. Without exception, the European advices to the department indicate that the governments there do not yet regard the developments in China as warranting the assumption that a state of war ex isis. The general disposition is to avoid the application to China of the same rules that govern intercourse between highly civilized nations, and even if there have been infractions of those rules by the Pekin Government, providing it shows readiness to make amends and do what is necessary to safeguard foreign iffe and property in China, it is likely that the government will be dealt with leniently in the common interest and to

prevent a dismemberment of China.

Just at the close of the day a long message was dispatched by the Navy Department to Admiral Remay at Manila, supposed to be in execution of the Cabinet's decision to strengthen the United States forces at Taku. Nothing was made public respecting the communications. public respecting the communications re-ceived earlier in the day from the East. From the view of the reported arrival of the gunboat Nashville at Che Foo, it is assumed that the message relates to the movements of that vessel.

here with 240 marines, who, with 450 English and 1500 Russians, proceeded to the relief of Tien Tsin. The railway is working from Taku to within 15 kilometers of Tien Tsin."
Whether the powers interested in China

Whether the powers interested in China will ultimately reach an agreement regarding concerted action, it seems to be certain, judging from the results of investigations made today by the correspondent of the Associated Press, that no such agreement has been reached. The same series of questions were put successively to the German Foreign Office and to the Ruesian and French Embassies. The German Foreign Office said:

"The powers just now are agreed as to

The powers just now are agreed as to three points only—the relief of Tien Tsin and Pekin, adequate satisfaction for the severe injuries European interests have sustained, and the establishment of guarantees against a repetition of such out-rages. Beyond this, the attitude of the powers will largely depend upon what has happened in Pekin, which is still unknown

The reply of the Russian Ambarsador, Count Osten-Sacken, is substantially the same as that of the German Foreign Of-fice, except on two points. The Ambassa-dor said, with much emphasis:

"The intervention of the powers in China must under no conditions mean a settle-ment by war of old scores with the Chinese Government, and must not embrace governments, and must not enough governments, reorganization. Especially, it must not include a change in the head of the government. Even if the Chinese and the international forces came into collision, these considerations must never be less taken of " lost aight of.'

The French Ambassador, Marquis de Noaliles, expressed a different view. While substantially coinciding with the programme of the German Foreign Office, he insisted that the removal of the Em-press Dowager and her clique would be necessary to secure the permanent re-

sults which the powers desire.

The Washington Government several days ago inquired through United States Ambassador White regarding the whereabouts and safety of a number of Ameri-can missionaries located within the Ger-man sphere of influence in Shan Tung. Thus far the German Government has been unable to furnish a satisfactory re-

ply.

The semi-official Berliner Post has a special dispatch from Rome, asserting that the Vatican has applied to the French Government, urgently entreating that larger reinforcements be sent for the protection of Christians in China. The reply of the Paris Cabinet, according to this correspondent, is that the matter wil be treated in harmony and solidarity with

The Chinese Embassy, having received several anonymous letters threatening vengeance should the news of the murder of the German Minister in Pekin, Baron von Ketteler, prove to be true, it imme-diately applied to the Berlin police for protection, and a number of men in plain clothing now patrol the precincts of the Embassy night and day.

NEWS BY THE NASHVILLE. Chinese Imperial Forces Attacked

Tien Tsin Foreign Quarter. LONDON, June 2.—A special dispatch from Shanghat, dated yesterday, says:
"Intelligence has been brought by the United States gunboat Nashville that the foreign quarter at Tien Tsin was bombarded Tuesday by Generals Nieh, Tung Fun Siang, Kand Su and Yuan Shu Kat. The coult of the Schitter is not known. The result of the fighting is not known. The foreign residents are confined to a re-stricted district, and as food and water are scarce, they have suffered greatly. The Ton Shan mines at Pich Tai Ho were abandoned by the soldiers, and rioters flooded the mines and ruined the machinery.

A special dispatch from Shanghai, dated Thursday, says: sident of Pekin received at Tien Tsin June 15 reports that the soldiers were troublesome in Pekin; that a night attack on the legations was feared, and that the advent of the relies force would be the signal for a general riot in Pekin."

The detachment of Italian sailors which participated in the capture of the forts suffered no loss. German reinforcements from Kiao Chou and British reinforcements from Hong Kong have arrived here."

Russia Awaiting Her Time. ST. PETERSBURG, June 22.—The view expressed by both the press and politi-cians here is that Russia has a com-

mon cause with the powers in meeting the common canger in China. It is pointed out, however, that when once the time arrives to settle the Chinese question. Russia must regulate her true interests, which differ greatly from those of the other powers, and prevent her more particularly from definitely embark-ing in hostilities against the vast Chi-nese empire, her neighbor. This is also understood to be the Government's view

LONDON, June 22-A special from Shanghai says that it is reported from Japanese sources that 1800 foreigners have been massacred at Tien Tein. Lord Salisbury presided this morning at a meeting of the Cabinet, especially at a meeting of the Cabinet, especially aummoned to consider the far Eastern crists. Prior to the meeting the French. Ambassador, M. Paul Cambon, and the Chinese Minister, Sir Chih Chen Lo Feng Luh, paid a long visit to the officials of the Foreign Office, and it is expected im-portant developments will be the outcome of the Cabinet conference.

The apprehensions as to the fate of the

The apprehensions as to the fate of the Europeans cut off at Tien Tein have been sharpened by Admiral Kempit's message, which was the first definite announcement of the bombardment and destruction of of the bombardment and destruction of the foreign concerns. But, in spite of Shanghal's grim statement that the Chi-nese used &-pounders and that 1500 for-elgners were massacred, there is no rea-son to conclude that the foreign colony

has been unable to protect itself.
A Shanghai dispatch reports that Tien
Tsin was bombarded for two days; that
the ossualties were 100; that 5000 international troops are there, and that the allied commanders at Taku are hastily pushing forward a relief column. Another Shanghai dispatch announces

that all the members of the foreign community of Pet Tai Ho, including 33 Amerionns, have arrived at Che Foo on the Nashville, but they left all their posses-sions behind them.

A dispatch to the Associated Press from A dispatch to the Associated Press from Shanghai under the same date says five Chinese warships passed Woo Sung today, and that officers of the British armed cruiser Undaunted visited the Chinese commanding officer and received an assurance that the ships were under orders to act against any Boxer upristing. The superintendent of the foreign telegraphs has started for Che Foo to organize a service thence to Shanghai.

It is understood the Admiralty has received a dispatch from the British naval commander in Chinese waters on the sub-

nander in Chinese waters on the subcommander in Chinese waters on the sub-ject of the heavy damage done to the for-eign concessions at Tien Tsin and the cas-ualties of the international forces. This has not yet been published.

The Admiralty sent orders to Ports-Mouth and Plymouth this morning to hold detachments of marine artillers and in-fantry in instant readiness for service in Chine.

In the House of Commons today, Mr. Broderick, the Under-Secretary of State for Foreign Affairs, replying to a question, said the Foreign Office had no news from Pekin or Vice-Admiral Seymour.
