China's Warlike Preparation Caused the Seizure of Taku-Base Hospital Established.

LONDON, June 25-The Admiralty has received the following dispatch from Rear-Admiral Bruce, dated Taku, via Che Foo, June 24:

Che Foo, June 24: "The total force which left Tien Tsin with the Commander-in-Chief for Pe-kin was about 2000, composed of detach-ments from the allied ships. No action could possibly be taken to relieve the Commander-in-Chief because it was only known that hé was cut off by Tien Tsin being invested. Tien Tsin has been fightbeing invested. Tien Tsia has been fight-ing for its life ever since. It was on receipt of the information that the Chi-nesse Ministry has ordered trains for at-tacking Then Tsin; that they were ravag-ing Tong Ku and reinforcing Taku, as well as mining the mouth of the Pel Ho that it was promptly determined to seize Taku. Since then every effort has been made to relieve Tien Tsin. "It have commendered a small const-

"I have commandecred a small coast-ing steamer for taking troops and sick and wounded across the bay to Wel Hat Wel, where I intend making a temporary base hospital and asylum for refugees.' Although the powers at hast seem con-scious of the magnitude of the Chinese peril and are concertedly hurrying forward troops, the international available to overcome the perils troope available to overcome the perils of the situation are apparently totally inade-quate. The alarm not only for the safety of Vice-Admiral Seymour and his party, who are not mentioned in any of the dis-patches purporting to come from Pekin, but also of his base at Tien Tsin remains

unrelieved. Almost the only ray of light is the report of Sheng, the director of railroads and telegraphs, forwarded by the French Consul-General at Shanghai, to the effect that the legations were sale June B and preparing to leave the capital with the consent of the Chinese Government. But the motives of the Chinese officials in keeping the powers appeased by reassur-ing messages is too obvious to allow the unreserved acceptance of the statements. Tien Tsin is so hard pressed that it

must be relieved before assistance can be sent to Seymour's force. The absence of the exact dates of the last dispatch from Taku and other measages makes it difficult to connect the various stories, but one of the dispatches might be read as indicating that even the large force mentioned by Rear-Admiral Kempff as about to start towards Tien Tsin has met the same fate as the combined American and Russian column, which was repulsed

India is sending eight battalions of infantry, a cavalry regiment, artillery and engineers as a fighting force, besides two buttalions to guard communications. The official gazette of St. Petersburg today contains an order of the Czar, say-

"As we consider it necessary to raise the troops in the military district, we direct the War Minister to take the requisite measures. At the same time, we direct that the necessary number of reservists belonging to the Siberian Amur military district shall be called out for activ

service." Associated Press learns that Lord Salisbury is still hopeful that the Chinese crists will be solved without war against that country as a whole. In spite of the alarming reports, he indices to the helief that the Government of China, in some satisfac-tory form, will shortly be able to re-assert itself. He does not mean that he helittles the progress of the various Vice-roys, who have given notice of their will-

Without committing himself to a definite view of the future, he appears advento to any acheme of territorial in-demnity which, when order ig restored, might be suggested by the powers who have suffered during the uprising. The interview of the United States Am-bassador, Joseph H. Choate, with Lord Salisbury, Saturday, was due to in-suractions received from Secretary Hay, in which the Ambaseador was notified of the friendly professions of the various Viceroys and was instructed to secure Viceroys and was instructed to secure Lord Sallsbury's views, Beyond casual convorsation, Mr. Choate had not men-

There are four foreign hanks, a large body of English, German, Russian, Japanese and American mer-chafts, and several groups of missionary stations.

The situation of the foreigners at Tien Tsin is regarded by former British officials in China as deplorable, and doubts are expressed respecting the adequacy of the relief force which is available at Tuku, miess Russia takes decisive measures, as indicated last night in official communica-tions from the Foreign Office at St. Peters burg, 'for the invasion of Chinese terri-tory by a really formidable army. says: The Chinese bombardment of Tien Tsin set fire to the mission buildings first, The fire spread to the native city and destroyed everything. The attacking force, well supplied with modern arti-iery, has been pressing the small allied destroyed force very hard. Already the dead hum ber 100. Relief is being rushed from Taku, but the column will have to fight its way through the big Chinese Army. The British storeship Humber arrived

at Che Foo, bringing 30 refugees from Tong Shan, including Mesars. Kinder and Parsons and Mrs. Parsons.

Pei Tai Ho, the great watering place of Northern China, where 300 prominent foreigners had their Summer homes, has been abandoned. The Governor of Shan Tung Province, in which Che Foo is sit uated, after conferring with his subordi-nate Mandarins at his capital, Tsinanfu, decided not to join the rebels and issued a proclamation decreeing that all Euro-peans and Americans should be protected. Admiral Kempff held a conferen lay at the American Consulate with Consul Fowler and the Captains of the Nashville and the Yorktown. The local Gov-ernor of Che Foo was present and prom-leed that there should be no upriving here against the foreigners, and gave other assurances which seemed all right on the surface. The Governor expressed coni-dence in the good will of the American Government toward China and said the feeling was reciprocated. Captain Edward Bayly, of the British

armored cruiser at Taku, signalled the American Captains yesterday: "Thank God the Russians were here; otherwise we would all have been murdered."
