PENALTY FOR MARRYING

PUBLIC SCHOOL TEACHERS WILL BE DISCHARGED.
Portland's pedagogues served with such official notice—close of the school year.
Yesterday was a very busy day for School Clerk Allen, and a joyful occasion for the teachers and pupils of the public schools. The schools were closed, the work of the year wound down to the last detail, having been completed by the pupils were turned loose to enjoy themselves till September 17. To the teachers it was a day of glad surprise, for not only were they paid their salaries for the last month, but in the envelopes inclosing their checks were their notices of election and blank acceptances for their re-election, and when this had been attended to they were free from all business cares for the entire vacation. The Board of Directors, Superintendent Riegler and Clerk Allen have worked hard to secure this unusual but very desirable state of affairs, and their efforts are highly appreciated by the teachers.
There was a steady stream of teachers pouring into Clerk Allen's office during the afternoon, until nearly the entire force had been paid, and some \$20,000 had been disbursed. The teachers, as they arrived, presented their certificates from the principals, showing that they were entitled to their salaries. They then signed a receipt, and received an envelope containing a check and a notice of their election for the coming year. This included a card bearing the following resolution adopted at a meeting of the Board of Directors held June 25, 1900:
"Resolved, That any unmarried person employed as a teacher during the ensuing year, who shall marry during the time of such employment, shall be deemed to have violated the contract of employment, and such person shall be discharged from further service, unless subsequent to such marriage the School Board shall consent to continue such teacher in the employ of the district."
There are three male principals in the schools—A. R. Draper, P. M. Weddell and R. H. Thomas—and three teachers in the High School—E. M. Rutledge, H. Lee and A. P. MacKinnay—who have not yet been married, but who are supposed to have leanings in that direction, and the words "any unmarried person" in the first line of the resolution looked to them like "the writing on the wall," and probably gave them quite a shock, until they saw that the Board had made provision for granting "them" permission to remain in the employ of the district in case they married, so that they can be "happy, though wedded."
The women teachers read the card carefully, and some of them laughingly remarked that there was no likelihood of their "violating the contract of employment" this year. The greater number at once proceeded to fill out their acceptances, but a few carried off the blank with them, saying they would attend to the matter later.

MANUFACTURING STATISTICS

Five Special Enumerators Will Gather Them in Portland.
Work of gathering statistics of all manufacturing and mechanical industries in Portland and Oregon City will begin about July 1. It will be under charge of C. H. McIsaac, secretary of the Manufacturers' Association, and is part of the work of the 12th Federal census. Mr. McIsaac will be assisted by Robert R. Reed, a teacher in the Portland High School, who did the same work in Kansas City for the 11th census; Captain Harry L. Wells, W. H. Street, a Portland insurance man, and Charles Gritzmacher, formerly captain of police.
It is the duty of these special agents to make a personal visit to every factory, mill, shop or other place within their districts in which any manufacturing or mechanical industry is carried on, and to obtain, by inquiry of the proprietor or his representative in charge, all the information called for on the proper schedule.
Statistics will be required regarding brickyards, pottery products, coke, petroleum refining, salt works, glass, cotton manufactures, dyeing and finishing of

OREGON FRUIT PROSPECT

from all the fruit-growing sections of the United States is now being compiled, and will be published later.
BRIGADE ORDERS ISSUED.
General Beebe Directs the Mobilization of the National Guard.
Complete orders were issued by General Beebe yesterday covering the mobilization of the troops of the Oregon National Guard, for the state encampment at Salem, beginning July 7. In honor of the Commander-in-Chief, the camp is to be named "Camp Geer." Most of the troops will proceed to Salem by rail, excepting Troop A, under Captain Conlan, and Battery A, under Captain Welch, both of which will march to camp. The Third Regiment will leave Portland by a special train at 8:30 A. M., July 7. Upon arriving in camp, the regimental, special battalion and battery officers will report to the Adjutant-General to be assigned to quarters, and camp will be begun.
The troops will parade for departure to camp in state service uniform, with campaign hats, canteens, haversacks, web belts, blanket bags, overcoats and blankets rolled. In addition, each guardsman will take one suit of underclothing, three pairs of socks, at least six standing collars, one clothbrush, one hairbrush and comb, one toothbrush, a cake of soap, three towels, at least six pairs of clean white gloves, and a pair of stout shoes. The military instruction in the encampment will be chiefly devoted to the tactical development of battalion and regimental organizations. Special attention is called to the necessity of preserving good discipline and deportment among the troops so that no discredit may be reflected on the service.
The following officers have been appointed on the brigade staff: Major R. S. Greenleaf, Engineer, with rank from June 18; Major Frank E. Edwards, Signal Officer, with rank from June 15; Captain F. S. Bennett, Aide-de-Camp, with rank from June 14; Captain Frank F. Freeman, Aide-de-Camp, with rank from June 14.
Dear Colonel, Winter Garden, Third and Morrison: I know you will have to put out "Standing Order" only sign. Best wishes and luck, old pal. As ever, John Drew, New York.
Hello, Colonel: How about the opening of the Winter Garden? Great! Best wishes, old man. As ever, Nat Goodwin.
Suit the people, because they are tired of bitter doses. Carter's Little Liver Pills. One pill a dose.

MEIER & FRANK CO.
WANTS BOARD OF HEALTH.
Dr. Fulton Will Ask That Legislation Create One.
The State of Oregon has no board of health, nor has it ever had, strange as the statement may sound. Dr. J. A. Fulton, who is State Health Officer for the mouth of the Columbia, is attending the medical convention now in session here. Today he will introduce a resolution asking that the legislative committee take the matter up, and see if they cannot get a law passed creating a health board. There are few states in the Union without such a board, and Dr. Fulton thinks the people of Oregon would wish they had one should any severe epidemic break out. As it now is, there is no way of keeping people afflicted with contagious diseases from going about in the state, nor can such persons be prevented from entering the state except at Yaquina and at the mouth of the Columbia, where health officials are stationed.
When the recent plague scare came up, Dr. Fulton wrote to the Governor, asking what could be done to prevent suspects from entering the state. After having the law on the subject examined, Governor Geer wrote back that there was no way to control the matter except at the two points named.
A NOVEL BABY SHOW.
Numerous Callers Find That There Are Babies and Babies.
Unparalleled interest seems to have been aroused by the announcement of the Elvers Piano House that they would conduct at their salesrooms a regulation baby show, commencing this (Wednesday) morning, and many an eager caller was good-naturedly made aware of the fact that "there are babies and babies." "How old may a baby be, in order to be admitted?" asked several young mothers over the telephone; and the numerous callers at the store came to ask the same questions. "We had no idea that this thing would be taken seriously by any one," said Mr. Elvers yesterday. "We certainly did not intend to perpetrate a practical joke on anyone. Nevertheless, we are going to hold our baby show, but the babies will be pianos, baby grand pianos, and we will have on display the finest selected instruments ever shipped West. No such a beautiful assortment was ever brought together under one roof. We have here now the very choicest creations of the piano-making industry of Boston, New York and of Chicago. We intend to hold at least a half-dozen of these costly pianos during this exhibition, and hope to have the pleasure of meeting at our new warehouses, 321 Washington street, every music-lover who is interested in a strictly artistic high-grade baby grand."
Colonel Harvey, Portland Winter Garden: Great! You will turn them away, sure; good luck and lots of it. Wish we were at the opening. Matthews & Bulger, California Theater, Frisco.
When the hair is thin and gray, Parker's Hair Balm renews the growth and color. Grew's Ointment makes a healthy skin, too.
Maxine Elliot—how she would like to be at the Winter Garden. Ladies' reception this afternoon.
